Speaker Gould in the chair.

REMARKS BY SPEAKER GOULD.

GENTLEMEN AND MEMBERS OF THE ASSEMBLY OF THE THIRTIETH SESSION: To you, for the honor you have conferred upon me in electing me to this honorable position of Speaker of the Assembly of California at this session, I desire to extend my sincere and heartfelt thanks.

It is a position, indeed, of honor, but with the honor thus conferred come also grave responsibilities. Responsibilities to you—that every member of this Assembly in each of those things falling within the province prescribed by the duties of the Speaker toward the members of this Assembly shall receive just treatment. These I shall at all times seek to discharge with impartiality and with courtesy.

There are also other responsibilities of even greater importance resting on the Speaker of this body to the people of this State.

These, fortunately for me, are not borne alone by your Speaker, but rest alike upon the shoulders of every one of the members of this body, and cannot be evaded. It is by the faithful discharge of these obligations alone that we may expect to receive the commendation of our constituency and the State.

This Assembly has been selected and convened under the Constitution of the State, composed of representatives of the people, not to register in the form of statutes our own ideas, but to put into effect, in the form of law, the will of the people of this State, and it is to that will we must continually look as the guide of our actions here.

It is no unimportant concern with which we have been intrusted, but one of vast and vital importance to the future welfare of this State, and it is to be hoped that each member of this Assembly is imbued with a sincere desire to faithfully effect whatever of good can be accomplished by us for this great and wealthy commonwealth.

The presence here as members elect of this body of the chosen representatives of four political organizations, even were we not familiar with the political history of this State during the last year, would be sufficient to convince us that this Legislature was elected under unusual and extraordinary circumstances. Such was the case. A sentiment and demand for reform in legislative matters has been abroad, and from this Legislature, selected under such circumstances, a patriotism and purity are expected that have not perhaps characterized some of the Legislatures of this State in the past.

Whether these expectations will be realized or not, depends upon the action of each member of this body, and when the hands of the clock shall point to the hour of twelve on the night of its adjournment, our records will be made up finally, and we will return to our various homes, either with the respect and confidence of our constituents and the people, or in disgrace, meeting and receiving their contempt.

It is for us to choose, but for my part let me cherish the hope that when this session shall have finally closed, when its records are finally made up, and we have returned to those who sent us here, that we may be, by our course here, entitled to receive that commendation justly pronounced on duties well performed. "Well done, good and faithful servants."

Referred to Committee on Corporations

RESOLUTION.

By Mr. Schlesinger: Requesting that an investigation be made of the acts of the Railroad Commissioners:

WHEREAS, The people of this State are materially interested in the reasonable and impartial regulation of railroad transportation charges, to the end that all such common carriers doing business in California shall receive fair and adequate compensation for services performed, and no more; and whereas, the railroad corporations of this State have established and do maintain extravagant freight and fare charges, thereby retarding our prosperity, and depriving the people of the legitimate rewards of their efforts, and whereas, the enormous fortunes which have been acquired by these corporations and their managers, and the transportation burdens imposed upon the people, clearly demonstrate that a substantial reduction of freight and fare charges should be made, and whereas, the people of California, after many and futile efforts to control the charges made by the transportation companies within her borders, did, in the Constitution of 1879, and for the purpose of remedying an obvious evil, provide for the organization of a Railroad Commission with plenary powers, and requiring such Com-

mission to establish rates of charges for the transportation of passengers and freight, and whereas such constitutional provision was adopted, to the end that such charges might be reduced and the people relieved from onerous burdens thereby occasioned; and whereas, said Commission, from the time of its organization to this date, has been absolutely controlled by the corporations it was created to regulate, and has wholly failed to meet public expectation or to perform its duty, and has thus disappointed and imposed upon the public, and whereas, the present incumbents of such Commission have been publicly and frequently charged with subserviency to the railroad corporations, and there exists a widespread belief that such Commissioners are and have been derelict in their duties, and that the fare and freight schedules issued by them are really the work of the several railroad companies affected, and whereas, the people who elected said Commissioners are entitled to know the reason for their inaction and inefficiency, and whereas, it is the duty of this Legislature to enforce any remedy that may be proper in the premises; and whereas, the Constitution of the State declares that the Legislature shall have power, by a two-thirds vote of all members elected to each house, to remove any one or more of said Commissioners from office for dereliction of duty, or corruption, or incompetency, now therefore, be it

Resolved by the Assembly of the State of California

First—That a special committee of five persons be appointed by the Speaker, whose duty it shall be to investigate, ascertain, and report whether or not the existing Commission has exercised or performed the powers, duties, and obligations conferred upon it by law, and particularly if said Commission has ever adopted a proper schedule of charges for transportation of freight and passengers as contemplated by law, and if not, the reasons why it has not done so

Second—To ascertain and report to this House whether either of the members of the present Commission is guilty of any dereliction of duty, incompetency, or corruption in office.

Third—Said committee shall also report what proceedings, if any, are necessary or expedient to be taken in the premises.

Fourth—Said committee shall have power to send for persons and papers, to employ a stenographer, and shall return and report to this House all the testimony and proceedings had and taken pursuant to this resolution.

Fifth—Said committee, if in their judgment it is necessary, may present articles of impeachment against one or more of the Commissioners

REPORT OF COMMITTEE.

ON PUBLIC MORALS

MR. SPEAKER: Your Committee on Public Morals, to which was referred the duty of investigating the question of the sale of intoxicating liquors in the basement of the State Capitol building, beg leave to report the results of our investigation.

Pursuant to the authority vested in us, we have had witnesses subpoenaed before us, and have also ascertained the law bearing on the subject investigated by us.

We have endeavored to ascertain, first, who is the legal custodian of the State Capitol, second, whether the legal custodian of the State Capitol has any legal right to allow any part of the building to be used for any other purposes than business of the State; third, whether intoxicating liquors can be legally sold or given away in the State Capitol, fourth, whether intoxicating liquors have been sold or given away in the basement of the Capitol during the present session.

First—The Secretary of State is the legal custodian of the State Capitol. Section four hundred and twelve of the Political Code provides as follows: "The Secretary of State is the Superintendent and has charge of the State Capitol, and he must keep the same, together with all property therein, in good order and repair."

Second—Neither the Secretary of State nor any other person is authorized by any law to use, or permit the use of, any portion of the State Capitol for any purpose other than purposes of State. The maintenance of a restaurant or saloon in the basement of the Capitol is clearly an illegal act.

Third—The question whether intoxicating liquor can be legally sold or given away in the State Capitol is easily answered. It is provided by section one of chapter eighty-three of the Statutes of California of 1880, page eighty, as follows: "Any person or persons having in charge or control the State Capitol building, and allowing the same or any portion thereof to be used for the sale or distribution, in any manner, for profit, of any malt or spirituous liquors, shall be guilty of a misdemeanor, and shall, upon conviction, be punished by a fine of not less than one thousand dollars." And it is further provided by section one hundred and seventy-two of the Penal Code of California, as follows: "Every person who, in the State Capitol, or within the limits of the grounds adjacent and belonging thereto, sells, gives away, or exposes for sale, any vinous or alcoholic liquors, is guilty of a misdemeanor."

Fourth—Your committee find from the evidence before them that intoxicating liquors have been sold in the "well" during the present session of the Legislature. And we find that the persons responsible for the maintenance of the "well" are the Secretary of State E. G. Waite, A. J. Rhoads, Joseph Rainford, James McCue, and Henry Gallagher.

Your committee recommend the adoption of the resolution reported herewith, directing the Sergeant-at-Arms of the Assembly to order and cause the premises known as the "well" to be immediately vacated and the restaurant removed therefrom.

RESOLUTION.

By Committee on Public Morals:

Resolved, That the Sergeant-at-Arms of the Assembly be and he is hereby instructed to immediately order and cause the premises in the basement of the Capitol known as the "well" to be vacated, and the restaurant located therein to be immediately removed therefrom.

The ayes and noes were demanded by Messrs. Bledsoe, Matthews of San Benito, and Bretz.

The roll was called, and the resolution adopted by the following vote:

AYES—Messrs. Adams, Alford, Androus, Barker, Barlow, Bennett of Santa Clara, Bennett of Orange, Blakeley, Bledsoe, Boyce, Bretz, Brownlie, Buckley, Bulla, Burke, Carlson, Casterline, Chipman, Conway, Cusick, Dodge, Drees, Duffy, Durst, Emeric, Finlayson, Gallaglier, Godchaux, Hamdton, Hendrickson, Hurley, Hutson, Jacobs, Jacobsen, Johnson of Humboldt, Kahn, Kerns, Lallue, Luttringer, Lynch, McCauley, McElroy, Mack, Marston, Mathews of Tehama, Matthews of San Benito, Miller, Mordecai, O'Neill, Owen, Pendleton, Perkins, Price, Pieschel, Raw, Sargent, Schlesinger, Schroebel, Shanahan, Simpson, Sims, Standart, Taggart, Talbott, Taylor, Thomas of Nevada, Thomas of Santa Clara, Tindall, Vann, Wade, and Mr. Speaker—71.

Have had the same under consideration, and respectfully report the same back, and recommend that they do pass.

Also Assembly Bill No. 11—An Act to prevent frauds upon travelers.

WHEREAS, numerous frauds have been practiced upon unsuspecting travelers by means of the sale, by unauthorized persons, of railway and other tickets, and also upon railroads and other corporations by the fraudulent use of tickets, in violation of the contract of their purchase; now, therefore, with the view of preventing and punishing such frauds—that the same be amended as follows.

SARGENT, Chairman

ON STATE PRISONS AND REFORMATORY INSTITUTIONS

ASSEMBLY CHAMBER, SACRAMENTO, January 24, 1893.

MR. SPEAKER: Your Committee on State Prisons and Reformatory Institutions respectfully submit the following report:

On Saturday evening, January 21st, a delegation of five members of this committee, including the Chairman, left the Capitol for San Francisco, and on Sunday morning proceeded to visit the State Prison at San Quentin, spending the day in examining the

prison in all its departments—the jute mills, the adjacent buildings, and the surrounding grounds.

The first feature of the institution, in the line of improvement, which attracted our attention, is the cleanliness and good order which pervade every department. There is an unusual absence of the offensive odors which generally characterize the interior of jails and prisons. This important factor in the sanitary conditions gives evidence of strict attention on the part of the present management, and is creditable alike to the Warden and his subordinates.

The number of convicts at present incarcerated is eleven hundred and eighty. There are only eight female convicts in the prison. These are segregated in comfortable quarters and under the supervision of a matron, who, with a ladylike deportment, combines the necessary tact and judgment to enable her to successfully fill a very unenviable position.

We thoroughly inspected the kitchen, bakery, dining-rooms, hospital, and cells, omitting nothing in any department of the institution, within or without the walls. The cells are cleanly, and as comfortable as is possible with a reasonable regard for security. The food is plain, substantial, and wholesome, and the allowance abundant.

The old jute mill, when running up to its full capacity, gives employment to four hundred and twenty men.

The new mill, when completed, will add to the working force of the jute department about three hundred. The manufacturing capacity of the entire works will then be (as estimated) not less than fifteen thousand sacks per day.

The new building is of good material and constructed in a substantial manner. All the work was done by convicts.

In connection with this subject we note the suggestion of the Warden, corroborated by other evidence, that the limit placed upon the sale of jute bags to any one purchaser, in quantity exceeding five thousand, has been a serious obstacle to their ready sale, and has left the State with a surplus on hand. We recommend raising the limitation figures to ten thousand.

Referring to the machinery of the mill, one of the attachés of the prison stated that the looms manufactured in Oakland were superior to those imported from England and Scotland, and could be purchased at a considerably lower price.

Before leaving the subject we deem it proper to call your attention to the possible contingency of fire. Although the water supply is abundant, and every possible care used in guarding against casualties of this kind, yet there is always more or less danger of fire in all manufactories of the textile fabrics. The additional mill and increase in productive capacity will naturally increase the liability to accidental conflagration.

The former insurance was dropped by our next preceding Legislature. Believing it to be an unwarranted and ill-advised economy, we recommend a restoration of insurance, in such an amount as may seem to this Legislature advisable. This would require a repeal or amendment of "An Act relative to the non-insurance of property belonging to the State against risk of damage or destruction by fire," approved March 10, 1891.

Our attention was called to the dilapidated condition of the local wharf west of the prison inclosure, which is in constant use for landing every description of supplies for the prison and for the loading of manufactured articles for exportation. The structure has outlived its usefulness, is past repairing, and in general terms is "a perfect wreck." A new wharf is imperatively demanded. Its cost will be about \$5,000. Several old buildings occupied by officers, with their families, are also in an advanced stage of decay, and should be replaced by new ones. These buildings are rented at a nominal sum, sufficient to pay the expense of gas and water, and keeping them in good repair. The estimated cost for construction of four new houses, which are required by the exigencies of the case, is about \$5,000.

The work on the buildings, and the wharf as well, would be done by convicts—the only necessary outlay being for material, and, in the matter of the wharf construction, for dredging.

We recommend the passage of a special appropriation bill for the required amount, \$10,000.

We were shown through the library, chapel, and prison school, by the Chaplain, who speaks cheerfully of the good results of his labors in this apparently unpromising field.

The Warden states that he has from two hundred to three hundred inmates—not of the hardened criminal class—who should be transferred to an industrial or a reformatory school. His opinion in this regard has received the indorsement of other gentlemen who have given the subject of penology close attention.

An examination of the Clerk's books shows that the accounts are systematically kept and uniformly correct.

The statistics with reference to the cost of maintenance of prisoners, with elaborate details, are given in the thirteenth annual report of the State Board of Prison Directors, together with the estimates for the next two fiscal years, which are placed at the former figures, viz: \$165,000 per annum, or \$330,000 for the two years.

These estimates do not include the improvements herein recommended, which are not within the list of items in the General Appropriation Bill. Hence, the necessity of a special Act to cover the required outlay.

In conclusion, we unite in expressing our appreciation of the courteous treatment received by your committee at the hands of Warden Hale and his subordinates, who joined in affording us every possible facility for investigating each department of the institution.

H. H. JOHNSON, Chairman.

MOTION.

Mr. Price moved that the report be printed in the Journal, without being read.

REPORT OF SELECT COMMITTEE.

MR SPEAKER, AND GENTLEMEN OF THE ASSEMBLY: Your committee, to whom was referred for consideration and investigation the following resolution, to wit:

Resolved, That a select committee of seven be appointed by the Speaker of the Assembly to fully investigate the charge and words used by Assemblyman Bretz, in the Joint Assembly for the election of United States Senator, on January 18, 1893, wherein Mr. Bretz used the words in said Joint Assembly, as follows, to wit: "We believe that this change was brought about by the corrupt use of money, and we believe that Marion Cannon is the negotiator." And that said committee is fully empowered to investigate

said charge, to send for persons and papers, and is required to report to the Assembly the result of its investigation.

Beq leave to report, as follows:

That they have taken and given ample time in the matter of said investigation to any and all persons who desired to be heard therein, either as to facts or arguments.

That Thomas V. Cator appeared as counsel for Assemblyman Bretz, and no one appeared as counsel for any other person.

From such consideration and investigation we find:

That the charge made by Assemblyman Aaron Bretz, as set forth in said resolution, and which was made in the Joint Assembly for the election of United States Senator, in the Assembly Chamber, on January 18, 1893, was false and untrue in every respect.

That the charge so made was groundless and malicious, inasmuch as from the evidence we find no probable cause for the utterance of the words used in said Joint Assembly by the said Aaron Bretz as aforesaid.

We find that there was not the slightest evidence adduced before said committee that money, or any corrupt means whatsoever, or that any means other than those the most honorable, were used to procure the election of Stephen M. White as United States Senator.

We find that not the slightest taint of corruption, or wrongdoing in any respect, attaches to either Hon. Marion Cannon or Hon. T. J. Kerns, in the matter of said election of said United States Senator.

Wherefore, in view of said facts, and in view of the circumstances surrounding the making of said charge, your committee respectfully recommends that said Assemblyman Aaron Bretz should receive the severest censure of the Assembly, and that he should be expelled therefrom, and his seat declared vacant.

REPORT OF SELECT COMMITTEE.

MR. SPEAKER: Your select committee, consisting of Mr. Shanahan, the Chairman of the select committee on investigation of charges made by A. Bretz, have examined the testimony of H. J. T. Jacobsen, with the assistance of the shorthand reporter, and have made and offer the following correction to the long-hand transcript of the testimony taken in the investigation of the said Bretz:

Strike out all after the word "might," on line thirteen, page fifty-nine, printed transcript, and up to and including the word "myself," on line nineteen, same page, and insert the following: "might not be difficult to secure something of that kind." And he asked me what my ambitions were, and I said, 'I would like to get a foreign mission.' 'Well,' he said, 'that is not within reason, but possibly a consulate or something of that kind might be arranged.' Then I told him that I was very friendly disposed towards Mr. White, and I would probably vote for him if it was not that we Populists had a candidate, and had pledged ourselves to vote for him until our case was hopeless; 'later on I may vote for White myself.'"

MR. SPEAKER: He is not here. Since the last rap of your gavel on yesterday, Edward B. Price, one of our number, one of the ablest, brightest, and best among us, the bud of whose youth had just burst into manhood, the light of truth just breaking on his earnest soul, passed to that land from which no traveler ever returns, but where the meanest mind is more than Shakespeare,

Where one look
Shows more than here the wise can find,
Though toiling slow from book to book,
Where life is knowledge,
Love is sure,
And hope's brief promise made secure.

E. B. Price has gone from before the bar of this House, to appear before that bar where his trial will be just, but where justice is tempered with mercy.

REPRIMANDED.

Mr. Bretz was called before the bar of the House and reprimanded by the Speaker, in words as follows:

In accordance with a resolution adopted by this Assembly on the nineteenth day of January, 1893, it becomes my unpleasant duty to call you before the bar of this House, and reprimand you for the use of certain language used in the Joint Convention of this body and the Senate of this State, convened on the eighteenth day of January of this year.

You were elected upon the eighth day of last November as a member of this Assembly by the joint vote of the Democrats and Populists of Alameda County, and on the second day of January took the oath of office and entered upon the discharge of your duties as Assemblyman from the Forty-seventh District. Shortly thereafter, you, with six of your associates, of whom Mr. Kerns was not a member, held a caucus and selected as the People's party nominee for United States Senator one Thos. V. Cator, and under such circumstances entered the Joint Convention for the election of United States Senator, held on the eighteenth of January.

At the time you were called upon to cast your vote for such Senator you knew the following facts: That Mr. Kerns was not a member of the caucus selecting Mr. Cator as Populist candidate for Senator; that he was under great personal and political obligations to Mr. White, the Democratic nominee for United States Senator; that his inclinations were very strong toward the support of Mr. White; that about nine or ten o'clock on the morning of the eighteenth Mr. Kerns had declared his intention of supporting Mr. White, and after roll call that Mr. McGowan, a Republican Assemblyman from San Francisco, was not present, and that a call of the House had failed of adoption; that the Democratic Senator, Goucher, although sick, was present, and that upon that ballot Mr. White would receive a clear majority of at least two votes, and would be elected. You, yourself, was pledged to vote for a Democrat in case a Populist could not be elected, and

you knew that Mr. Kerns was under similar obligations, if not even more urgent ones, to Mr. White.

After the roll had been called, and it appeared that Mr. White had been elected Senator by a clear majority of three, you arose in your place and, as was your right, demanded the privilege of changing your vote and explaining your reasons therefor, presumptively, for the purpose of redeeming your promise given to the Democrats of Alameda County. You did not do so, but availing yourself of a privilege accorded to members here for the purpose of their own protection, you gave utterance to the words, the truth of which you have been put to the proof. Even if these words were true, their utterance under such a false pretense was such a breach of the obligations of a gentleman and an officer as invokes the censure of all honorable men upon your action. But the charge then made by you was untrue, and an impartial committee, among whom was a member of your own party, joining in the report, after the fullest investigation, in which you were accorded counsel of your own choice, pronounced the charge so made by you groundless and malicious, and we can but conclude that at the time you arose to your feet you did so in pursuance of a plan conceived in your mind before the convention met, gaining your right to be heard by the use of a wilful deception, deliberately conceived and executed in accordance with that plan, and taking advantage of the privilege thus obtained, you uttered a charge against honorable men in the presence of the multitude then assembled here, the malignity of which can only be measured by the enormity of the crime implied by your accusation.

Under these circumstances, and for this offense, the Assembly of this State, by a vote, has imposed upon me the duty of reprimanding you. I have not adequate words at my command to express the utter abhorrence all honorable men must feel toward a person guilty of the infamous crime you so lightly charged, and I will only say that in deliberately and with premeditation, at such a time and place, having made such charge, without the slightest evidence to sustain it, and having failed to express the slightest contrition or regret for so doing, though its groundlessness has been abundantly proven, you have shown yourself to possess either a vindictiveness of nature that must excite commiseration, or a fanaticism that is positively deplorable. If the former be the case, it is a matter between you and your God; if the latter, it is impossible for me to express the depth of my regret at your unfortunate condition. You stand suspended from all your duties and privileges as a member of this body, from and including Tuesday, January 31, 1893, until and including Monday, February 6, 1893. You may be seated.

RESOLUTION.

By Mr. O'Keefe:

WHEREAS, Owing to the uncessing inclemency of the Sacramento weather, it becomes absolutely necessary, as a matter of convenience, as a matter of protection to the health of every member, and to the acceleration of committee work, to have conducted in the basement of the Capitol the business of restaurant, where meals can be had at all times; therefore, be it

Resolved, That John Doe is hereby authorized to conduct a restaurant in the basement of the Capitol; *provided, however*, that he shall not sell, dispose of, or give away any intoxicating beverage of whatever nature.

During the forty-second fiscal year, by the authority of the Attorney-General, the firm of Langhorne & Miller was employed to bring suits against certain Harbor Commissioners and the sureties on their official bonds, to recover sums of money aggregating \$114,596 72. Upon said trial said Langhorne & Miller successfully established the liability for the full amount, of the defendants, all of whom were solvent.

Your committee further finds that said defendants, through their agents and attorneys, secured the enactment of a law (see Statutes 1891, page 268) which released them from all liability except in the sum of \$18,000.

The committee holds that if the money recovered had been paid into the Harbor Commissioners' fund the claim of Langhorne & Miller for legal services is a proper demand against the said fund, and should not be paid out of the General Fund.

Inquiry elicited the fact that the money so recovered was paid to the Attorney-General more than a year ago, pursuant to an Act of the Legislature of 1891, approved on March 31st, and is still in his possession. Your committee is of the opinion that the action of the Attorney-General in retaining possession of the money is unwarranted and unjustifiable, and will not recommend the payment of the claim of Messrs. Langhorne & Miller unless the money so recovered is converted into the General Fund.

The adoption of the following resolution is therefore recommended:

Resolved, That the Controller of the State be and he is hereby directed to make a formal demand for all the money recovered and paid to the Attorney-General in any of the suits in which Langhorne & Miller appeared as attorneys for the People of the State of California, together with the interest thereon for the period during which the money has been in his possession; *provided,* that a reasonable time shall be allowed in which the money should have been paid into the State Treasury.

W. P. MATHEWS, Chairman.

By Mr. Carlson:

WHEREAS, According to statement furnished by the State Treasurer, the county of San Diego has paid into the State Treasury the sum of \$1,156,439 92 as taxes during the past thirteen years, and has paid millions of dollars to the State of California during the past forty-two years without ever having received any appropriation for any improvement or building there, and as the Committee on Commerce and Navigation of the Assembly, together with that of the Senate, at the joint meeting held last Tuesday night, unanimously decided on recommending to each house that the Commerce and Navigation Committee of each, in order to investigate the necessities as to whether \$200,000 should be appropriated for the construction of piers and a seawall by the State Harbor Commission at San Diego, the said committee (nearly every one of whom has never seen said harbor and know nothing of its necessities) should, by a personal inspection and investigation of same, decide whether to recommend said appropriation, or nothing; and as it is better to expend a few dollars in a careful investigation of the matter than to expend hundreds of thousands of dollars in an improvement which said committee may find to be unnecessary and unjustifiable, therefore, be it

Resolved, That a sub-committee of three of the said committee be and is hereby authorized and directed to investigate the necessity for said appropriation by an inspection of said location, and while absent on same, from Friday night to Monday evening, the said committee is granted leave of absence.

REPORT OF SPECIAL COMMITTEE.

PUBLIC BUILDINGS AND GROUNDS.

ASSEMBLY CHAMBER, SACRAMENTO, February 4, 1893.

MR. SPEAKER: Your special committee, consisting of three members of the Committee on Public Buildings and Grounds, who, in connection with a similar committee of the Senate, who was directed to visit and examine the building for the insane at Ukiah, Mendocino County; also, the Home for the Feeble-Minded at Glen Ellen, in the county of Sonoma, beg leave to report that they have made a personal inspection of the Mendocino County buildings, and are pleased to say that they found everything there done in a most thorough and workman-like manner. The material is all of the very best quality, and everything connected with the building shows a careful supervision by the Board, and especially by the Chairman of the Building Committee, who is himself a mechanic and builder, and for this reason the State has a building of which it may well be proud, while the Commissioners may congratulate themselves on having so faithfully discharged so important a trust.

Your committee are especially pleased with the location of this building, situated as it is in the center of a tract of one hundred and thirty acres of beautifully wooded and watered land, capable of being made a lovely park at a small cost, it contains abundance of water, which is conveyed to the building by pipes, giving ample supply for all purposes, and with a pressure of more than two hundred feet.

Your committee, in view of the crowded condition of the various asylums for the insane, would recommend that appropriations be made for its speedy completion and furnishing, thus giving a beautiful home for that class of our unfortunates, and relieving the crowded condition of the various other institutions.

Your committee, as directed, then visited the Home for the Feeble-Minded, at Glen Ellen, and found the building overcrowded—so much so that some ninety of the girls are sleeping upstairs over the laundry building. We found the place neat and clean, and from our observations, extremely well managed, the food abundant, of good quality, and well prepared. This building is most beautifully located, with excellent drainage and pleasant surroundings. The tract contains some seventeen hundred acres, a fine fruit orchard, and a vegetable garden, furnishing ample supplies for the use of the Home. In view of the crowded condition of the Home, your committee would recommend such appropriations as may be required for the construction of an additional wing to the building for the use of the girls.

CURTIS, Chairman.

RESOLUTION.

By Mr. Curtis:

Resolved, That John M. Curtis, A. G. Bennett, Grant I. Taggart, and John W. Wilcox, Clerk, and members of the Special Committee on Public Buildings and Grounds, who were directed to visit the Insane Asylum at Ukiah, also the Home for the Feeble-Minded at Glen Ellen, are allowed mileage for the following amounts, distance traveled, going and coming, four hundred and forty-four miles, making for each the sum of forty-four dollars and forty cents, and that the Controller of State is hereby directed to draw his warrants in favor of—

REPORT OF SPECIAL COMMITTEE.

EDUCATION, AND PUBLIC BUILDINGS AND GROUNDS

ASSEMBLY CHAMBER, SACRAMENTO, February 4, 1893

MR. SPEAKER: Your special committee, consisting of the Chairman and two members of the respective Committees on Education, and Public Buildings and Grounds, to which was added the honorable Speaker, F. H. Gould, of the House, who were directed to visit the State Normal School at San José, beg leave to report that they performed that pleasant duty, and that they were most fortunate in timing their visit of inspection, arriving there on Commencement Day, and having the pleasure of witnessing the exercises and the graduating of some forty of the pupils, soon to take their places in the great work of education.

Your committee found much to commend in the management of the school, its thorough discipline, and competent teachers.

Your committee feels that if the maxim be true that "the stability of our republic rests upon the intelligence of its people," then our Legislature should deal with our educational institutions in the most liberal manner.

Your committee made a most thorough examination of the building, and found that some improvements are absolutely necessary. The system of heating and ventilation in the old building is worn out, being some twelve years old, and now worthless for purposes for which constructed. We would recommend appropriations for a new steam-heating plant.

Your committee also finds that, owing to the rapid increase in the number of pupils, it is absolutely necessary that at least two teachers be added to the staff, necessitating an increase in the general appropriation for the school, also, that the basement should have an asphaltum floor; also, that an exercising house, or gymnasium, be erected on the school grounds.

Your committee also visited the abandoned State property, situated in Santa Clara, formerly the Home for the Feeble-Minded, and made a careful examination of the same, but will make no recommendations in regard to it, leaving the matter for the consideration of the full committee.

Your committee also visited the State Insane Asylum at Agnews, was well received by the Directors, shown through the building and grounds, and well pleased with the management of the same. It is clean and well conducted, the Resident Physician seeming to your committee the proper man for the place.

Your committee, however, feels that it was a mistake to locate the asylum at that place, as it has no drainage. In fact, the location seems to be low and marshy, and for sanitary reasons, if for no other, condemn the location. Any recommendations in the matter are left to the full committee.

Your committee also visited the Asylum for the Deaf, Dumb, and Blind, located at Berkeley, and while we were unfortunate in not finding the Superintendent, Dr. Wilkinson, at home, we were shown through the building and over the grounds, and

found everything in first-class condition, and congratulate that class of our unfortunate citizens on the able management of their schools and home. We make no suggestions in regard to this institution, leaving the matter to the respective committees

Respectfully submitted.

SARGENT,
Chairman Committee on Education.
CURTIS,
Chairman Committee on Public Buildings and Grounds.

REPORT OF STANDING COMMITTEE.

ON COMMERCE AND NAVIGATION.

ASSEMBLY CHAMBER, SACRAMENTO, January 26, 1893.

MR. SPEAKER: Your Committee on Commerce and Navigation, to whom was referred Assembly Bill No. 20—An Act making an appropriation for the construction of a seawall, thoroughfare, and piers, in the harbor of San Diego—have had the same under consideration, and respectfully report the same back, and recommend that it do pass.

GODCHAUX, Chairman.

REPORT OF SUB-COMMITTEE.

ASSEMBLY CHAMBER, SACRAMENTO, February 8, 1893.

MR. SPEAKER: The Sub-Committee of Commerce and Navigation of the Assembly, who were instructed by resolution adopted by the Assembly on February 3, 1893, to investigate as to the necessity for an appropriation of two hundred thousand dollars for the building of wharves, seawall, and thoroughfare by the State Harbor Commission at San Diego, beg leave to report to the Assembly as follows:

The said sub-committee visited San Diego, and made a thorough and careful investigation of the harbor, wharves, tide lands, and all points of importance and interest in connection with the information sought to be obtained.

The harbor of San Diego was found to be ample, commodious, safe, and capable of accommodating the commerce of a great commercial city, second to San Francisco.

That with the construction and opening of the Nicaragua Canal, the whole State of California is interested in the construction of wharves and a thoroughfare at San Diego.

by the State Harbor Commission there, for with the same being built and owned by the State, all of California having shipping business with San Diego, either as a terminal or as a stopping port for vessels bound between San Francisco and the Nicaragua Canal, will feel the benefit of low wharf rates and the accommodation resulting from the State's ownership, which will at the same time cause the present private wharf owners there to reduce their monopolistic rates and cause them to change from their present state of partiality to a spirit of accommodation resulting from the competition of the State's wharves. At the same time the State will receive an enormous revenue from a strip of tide lands three hundred feet in width and two miles in length, which, by the seawall thoroughfare proposed, will become such that the revenue derived will equal the interest on over a million dollars, for the said most valuable strip of State tide land, controlled by the State Harbor Commission there, is situated immediately adjoining and lengthwise with the principal and most valuable portion of the business part of the city of San Diego.

The appropriation will result in improvements which will pay a handsome interest to the State, as well as prove of inestimable value to the shipping interests of the entire State, and is a most meritorious business proposition, and we urgently and earnestly recommend that the said appropriation be granted, by passage of Assembly Bill No. 20

GODCHAUX, Chairman.

STATEMENT.

Mr. Androus made the following statement, which was ordered printed in the Journal:

MR. SPEAKER: On yesterday I introduced a resolution in reference to certain lands near Pomona, in Los Angeles County, and upon examination into the matter I find that unintentionally on my part I may have cast some reflections upon the Surveyor-General of this State, and which I would consider a gross injustice to that efficient officer, and I do now ask the consent of this body to withdraw said resolution from the files.

Resolved, That a sub-committee of three of the said committee be and is hereby authorized and directed to investigate the necessity for said appropriation by an inspection of said location, and while absent on same, from Friday night to Monday evening, the said committee is granted leave of absence

Visited the Harbor of San Diego, and investigated into the necessities as to whether money should be appropriated for the construction of piers and a seawall by the State Harbor Commissioners.

That there is now due the members of your sub-committee, and the clerk thereof, each one hundred and twenty-four dollars and fifty cents, for mileage traveled, viz.: one thousand two hundred and forty-five miles, and we recommend the adoption of the following resolution, *vide*..

SWAMP AND OVERFLOWED LANDS—MINORITY REPORT.

Mr. Jacobs presented the following, which was ordered printed in the Journal:

MR. SPEAKER: Not being able to agree with the other members of your Committee on Swamp and Overflowed Lands in their recommendation for passage of Assembly Bills Nos. 595 and 596, the minority of that committee begs to submit in brief some of its reasons why the same should not pass, and why Assembly Bill No 205 should in their place and stead.

1. There is no necessity for twin bills, separate from the Political Code. That Code contains the laws concerning the reclamation of swamp and overflowed land, and such additions as this Legislature sees fit to make should become parts of the Political Code, so that all statutes on the same subject may be construed together.

2. There can be no necessity for making a Board of Public Works distinct from the managers of the different districts formed under the Acts.

3. In my judgment there can be no necessity to give a Board of Public Works such powers as are given in Assembly Bill No. 596:

(a) The plan is double, when it should be single and harmonious with the Political Code.

(b) Fifty thousand dollars are appropriated for salaries of the Commissioners and their employes, when they can have little to do except to pass on the work of engineers. Practically their offices are sinecures.

(c) In my opinion each district should govern its own affairs, and it is not likely that the Board of Public Works could aid much in the management.

4. Section 1 of Assembly Bill No. 595 provides only for drainage districts. The work to be done also requires levees, and the provisions in that regard should be fitted to the Political Code.

5. Section 2 of Assembly Bill No. 595 provides for five Directors and a Treasurer. In my opinion a County Treasurer should take care of the money and not leave it to a Treasurer of a district; and three Trustees are sufficient to do the business of a district.

6. Why organize a "State Board of Public Works" to inaugurate an Act of reclamation necessarily local?

7. Why divide a district into five divisions. (See lines 31, 32, 33, 34, page 2.)

8. The election of a Director in each division will, I think, be found impracticable (lines 34 and 35, page 2), and the whole machinery of that section (3) is ponderous, when it should be simple.

9. The order of a Board of Supervisors cannot be made to operate outside the county in which the members were elected, and an election called outside their county would be null and void. (See closing paragraphs of Section 3.)

10. The elections to be held in such district (section 4) cannot be enforced, or if it can, an interested party may colonize voters, and the owners of land who live outside their voting precincts can have no vote in naming the Directors.

11. Cities and towns may be as much benefited by acts of drainage and reclamation as farm lands, and in such cases may be included, and the voting population of such city or town would be able to control acts of legislation—might adopt or reject the proceeding at pleasure. To this I cannot give my assent.

12. Why provide that the State Board of Public Works shall have the power to appoint Directors in case of vacancies, even if that would be constitutional. (See Section 11 of Assembly Bill No. 595.)

13. Why should the State Board of Public Works be required to devise plans and estimate the cost of works necessary for any drainage district as provided in Section 12. That whole section shows that the plan devised is bad policy. The Directors are the men principally interested, and they must have a more intimate knowledge of the facts. If the State Board is to do all the work, why have Directors at all?

14. Section 13 of Assembly Bill No. 595 shows the power given to the Board of Directors, and I submit that, as the work must proceed under the direction of the State Board, the work of Directors may as well be done by a single agent (say the engineer), and save \$5 per day for the Directors.

15. Section 17 of Assembly Bill No. 595 seems to me particularly objectionable:

(a) It takes action by the Board of Directors and the State Board to determine what moneys are to be raised.

(b) The moneys are to be raised annually, when it should be raised only as needed.

(c) The assessment of lands in a district is a difficult matter. It includes the lands in cities as well as farming lands. Let us suppose one district includes Sacramento, and each lot owner is assessed, and the benefits to each small lot must be estimated when the lot is fully protected by levees without such drainage. The act must be done annually, when it will take one man a year to make one assessment under that section. I think it will be found to be next to impossible.

(d) Then assessments must be made by three Commissioners for each district, to be paid as other employes. How are other employes paid?

16. Section 23 provides for the collection of assessments by action, and I am inclined to the opinion that the office of attorney for the collection of assessments from the mouth of the San Joaquin to the north side of Colusa County, both sides of the Sacramento, would need no other client than the Board of Directors of that district to make his fortune, if this bill shall become a law.

Instead of Assembly Bills Nos. 595 and 596, I am of the opinion that we should take up Assembly Bill No. 205, amendatory to the Political Code, and consider and amend the same, and adopt some plan that will save the State and the people, now suffering from overflow of their lands, so much money as the ponderous character of the provisions of Assembly Bills Nos. 595 and 596 will carry with them.

These bills seem to me to be constructed in part to provide fat berths for somebody, and I recommend that the bills do not pass, and that they take up and consider Assembly Bill No. 205.

All of which is respectfully submitted.

I. W. JACOBS.

MEMORIAL RESOLUTIONS.

By Mr. Sims:

MR. SPEAKER: The joint committee of the Senate and Assembly appointed to draft suitable resolutions in memory of Hon. E. B. Price, respectfully submit the following:

Resolved by the Senate and the Assembly of the State of California, That in the death of the Hon. E. B. Price, late a member of this Legislature, the people of the State of California have lost a diligent, faithful, and patriotic public servant—a citizen who in public, as well as in private life, buried self far out of sight, and wrought for the good of others. No taint of gain ever touched his hand; no surrender of principle ever marred the colors of the banner he bore. The great purpose of his life was just planned out; but he was stricken down in the midst of duty, before his ambitions could be realized, or the aspirations of his life fulfilled.

Resolved, That his career furnishes a shining example of one who, choosing his life work, loved it with an unwavering love, believed in it with an unalterable and tireless devotion, and attained to eminence before he had rounded two-score years.

Resolved, That to the bereaved family of the deceased we tender our deep and heartfelt sympathies.

Resolved, That copies of these resolutions be transmitted to his family, and be entered in full in the Journals of the Senate and Assembly

REPORTS OF STANDING COMMITTEES.

ON ENROLLMENT.

ASSEMBLY CHAMBER, SACRAMENTO, February 13, 1893.

MR. SPEAKER: Your Committee on Enrollment beg leave to report that the following bill has been correctly enrolled: Assembly Bill No. 50—An Act to limit the time within which franchises or privileges for the construction, extension, or operation of street railroads may be granted by Boards of Supervisors of the several counties, and cities and counties, of this State—and was presented to the Governor February 13, 1893, at three o'clock P. M.

O'NEILL, Chairman.

ON WAYS AND MEANS.

ASSEMBLY CHAMBER, SACRAMENTO, February 14, 1893.

MR. SPEAKER: Your Committee on Ways and Means deems it a duty to bring to the notice of this Assembly certain willful neglect of duty, official misconduct, and misdemeanor in the office of Hon. W. H. H. Hart, Attorney-General of the State of California.

Your committee represents and charges that said W. H. H. Hart has, at sundry times during the past two years, willfully and persistently neglected his official duty as the legal adviser of the State officials, thereby necessitating the employment of special counsel, and imposing a heavy and unnecessary expense upon the State.

That the said W. H. H. Hart has, as your committee has been informed and believes, employed special counsel when it was unnecessary to do so, presumably for the benefit of an intimate friend and associate, and that for such services he has approved of unreasonable and exorbitant claims.

Your committee further represents and charges that said W. H. H. Hart, on account of suits instituted by the State against certain Harbor Commissioners, received, in satisfaction of judgment, the following sums:

July 25, 1891, People vs. Phillips.....	\$7,725 82
August 1, 1891, People vs. Blanding.....	6,601 56
October 25, 1892, People vs. Knight.....	2,404 36
October 25, 1892, People vs. Blanding.....	1,120 00
Total.....	\$17,851 74

That said W. H. H. Hart has, for a period of nearly two years, retained in his possession the bulk of this money, in violation of the law now in force and effect, and that he failed and neglected to make any mention of the said money in his annual report, dated September 15, 1892.

That by the action of this Assembly, and a formal demand made by the Controller, said W. H. H. Hart was apprised of his dereliction of duty, and notified to pay into the State Treasury the amount of money now in his possession which belongs to the State, but has refused to comply with the demand, and is therefore guilty of official misconduct and misdemeanor in office.

Your committee, in conclusion, respectfully asks, at the hands of this honorable body, that the rights of the State be vindicated and the integrity of the public service be preserved by an investigation of the official acts and conduct of the said W. H. H. Hart, and the passage of the following resolution is recommended:

Resolved, That the Speaker be and he is hereby authorized to appoint a special committee of five, whose duty it shall be to inquire into the official conduct and acts of W. H. H. Hart, Attorney-General of the State of California, and that said committee have full power to send for persons and papers, and that they report to this Assembly by impeachment or otherwise.

W. P. MATHEWS, Chairman.
JULIUS KAHN.
C. W. TINDALL.
JOHN C. LYNCH.
T. J. KERNS.
P. H. MACK.
J. M. LARUE.

Mr. Tindall had read the following set of resolutions adopted by the Council of Federated Trades of Sacramento:

SACRAMENTO, February 14, 1893.

Hon. FRANK H. GOULD, *Speaker of the Assembly*.

DEAR SIR: At a regular meeting of the Sacramento Council of Federated Trades, held Monday evening, February 13th, the following resolutions were unanimously adopted, and, as per instructions, I inclose copy of the same.

Most respectfully,

W. F. GORMLEY, President

WHEREAS, The Hon. Frank H. Gould, Speaker of the Assembly, did, as subsequent events showed, introduce, by request, believing it to be in the interest of the State, Assembly Bill No. 456—An Act to amend section one thousand eight hundred and seventy-four of an Act entitled "An Act to establish a Political Code," approved March 12, 1872, relating to the public schools; and whereas, on having his attention called by delegates to this Council that said bill might have a detrimental effect to the publication of the State series of school text-books, Mr. Gould did promptly and willingly withdraw the same; and whereas, he has by such commendable action, together with remarks made

by him relative to the matter on the floor of the Assembly, clearly proven that he is a staunch and earnest friend of the State series of school books; therefore, with the hope, and that all members of the Legislature shall, as they have in the past, establish, as Mr. Gould has, their fealty to the State school books as against the "ring," which in every way is endeavoring to destroy and thwart, by means of legislation, the publication of said books, be it

Resolved by the Sacramento Council of Federated Trades, That Speaker Gould's action in withdrawing the bill is warmly commended, and the thanks of the Council are herewith extended Mr. Gould; and be it further

Resolved, That a copy of these resolutions be furnished the press for publication, and that a copy thereof be also presented to Mr. Gould, with the request that the resolutions be read in open Assembly.

REPORT OF JOINT COMMITTEE.

To the Senate and Assembly of the State of California.

The Governor's message suggests that the Legislature investigate the question of the fitness of a blind man to hold and administer the office of Superintendent of the Industrial Home for the Adult Blind, a State institution located in Alameda County, and by law placed under the control of a Board of five Directors, appointed by the Governor, and to serve during his pleasure. An investigation of the question submitted should not be had at all, unless it can be conclusive of some issue, and productive of some authoritative result. At the outset, the committee of investigation considers the conclusion, and the nature and force of the results. As a proposition of law, if the Legislature should act by bill, inhibiting a blind man, and excluding him from that position, such Act would be null. Men are not to be lawfully excluded from any civil trust or employment of a public nature because of physical defects. Such exclusion is of necessity aimed at a class, and any individual therein can secure an adjudication by showing that men of that class have performed, and do perform satisfactorily, the duties and functions of the trust and employment covered by the inhibition. Upon such showing, which can be easily made in the case of blind men, respecting their success as teachers of letters and mathematics, music, and the handicrafts, as administrative officers of public institutions like this, and as executives in high public trusts in this country and in Europe, the Courts would say that the law cannot close any avenue against the blind in which it is proved that they can successfully administer a public office or a civil trust.

It is plain, therefore, that if this committee and this Legislature reached a judgment adverse to the blind, as a class, such judgment could not be reflected in the law.

This brings your committee to narrow its view from the inspection of a class to consideration of the fitness of the individual incumbent of the superintendency of the Industrial Home for the Adult Blind of this State.

It appears from the reference to the subject in the Governor's message, that there is a difference of opinion in the Board of Directors upon the propriety of superintendency by a blind man, a majority of the Directors favoring a blind man in that place, and a minority opposing it. We are again in doubt about the right of authoritative interference by the Legislature in a matter so clearly belonging to executive jurisdiction.

As legislation against a class to exclude it from public employment would be void, would legislation against a specified member of the class be of effect? We think it would be ineffective. If we should specialize such legislation to the incumbent Superintendent, and by name exclude him from the position he holds, such would be regarded as invading the constitutional authority of the executive, and would be void.

The inquiry made by this committee has developed some facts which belong to the public, and their enlargement as a contribution to the general knowledge upon subjects effecting an eleemosynary institution, and the interests of a defective class, deprived of one of the capital senses, will no doubt arrest the attention of the thoughtful, and contribute to the welfare of the unfortunate.

In the division of the Board of Directors upon the employment of a blind Superintendent, we find that the Directors longest in service and most familiar with the

institution and its needs, constitute the majority and favor the blind Superintendent, who has had charge of the Home since 1888.

We find that the two minority members were not familiar with such institutions, and had never visited this one, nor made any study of the ways of the blind, nor gained familiarity with the history of the training of the blind in letters and handicrafts, previous to their appointment. We find that they were prepossessed against a blind Superintendent, and at the outset offered such prepossession in opposition to the experience of the majority members, and regardless of the facts of record in the institution.

We find that the President of the Board, belonging to the majority, has brought to bear, in discharging his duties, a lifetime of personal experience with the blind, and years of study of their means of self-support and the methods of administering institutions in which the blind handicrafts are taught. We find that the other members of the majority have for years devoted their time and thought to this institution, and are thoroughly familiar with its changes of policy, and actuated, apparently, entirely by a desire to increase its usefulness to its intended beneficiaries. Without making any invidious comparison between the minority and majority, we state the facts, which seem to demonstrate that the judgment of the majority is entitled to at least respectful examination.

Finding that this country has the greatest institutions of this character for the blind, we find, also, that, as a rule, they have been founded by blind men, and their high advancement has been reached and maintained under the superintendency of blind men. This is true of the leading institutions in New York and Pennsylvania, both of which were, in the beginning, private foundations left to develop naturally on the line of greatest benefit to the blind.

We believe that California is the first State in the Union to officially recognize the experience and facts furnished in the record of these institutions that were private and not public in their origin, and, though both New York and Pennsylvania have admitted the beneficially public nature of the work done in the private foundations in those States, by making stated financial contributions to them from the public funds, the States have left their management in the hands of blind Superintendents. California is, we believe, the first to put a blind officer at the head of a purely public institution. The fitness of the selection can be judged only by the records of the institution itself. The opinions of people who know the blind only by the general sympathy felt for the defective classes, a sentiment that may not be any safe guide at all in providing for them, are of no value in reaching a determination. Nor are the opinions of those who have lost sight in adult age to be at all followed. It is a fact that the greater the age at loss of sight, the more certain is the unfortunate of the incapacity of the blind. Such blind people, having had years of eye sight, and all of its advantages, in the pursuit of a vocation, upon losing it treat the loss as they would that of an arm or leg, which cannot grow again, and which cannot be substituted by any of the remaining members.

The difference between the loss of a leg and that of the eyes is that the loss of a leg is a physical loss only, while that of the eyes is the loss of one of the capital senses, leaving the others unimpaired to replace it. This faculty of replacement and adaptation declines with age, and in that decline lies the need of these institutions for the adult blind, who find themselves helpless and unable to turn to a vocation for support without this assistance. It is true that in some cases the aged blind do acquire confidence and a manifest self-reliance and undiminished capacity, but these cases are exceptional.

With those who lose their sight in infancy or youth, or are blind congenitally, the case is entirely different. The sense of sight was in their possession so short a time that they relied on it but little. They miss it briefly, and what it revealed to them remains as a nebulous memory, not even to be mourned over. The other senses gain acuteness; palpitation becomes capable of the most delicate discrimination; they read with the ends of their fingers, and practically see through a consensus of their remaining senses, which, when brought together in the place vacated by sight, seem almost to add a sixth to the list of senses. It is from the ranks of such blind men that the teachers and Superintendents of these institutions are drawn, and we find no case in which they have failed of success.

So much by way of explanation of the fact that in the California institution, and in others, are found many blind men who lost their sight in adult age, who do not believe that a blind man can superintend such an institution. To them the loss of sight is not merely the loss of a sense, it is an impairment of their use of hand and foot, a limitation physical in its nature upon all their activities. Feeling their own incapacity, they project to all who are sightless a generalization that is entirely without warrant, though natural and innocent in its origin.

In the California institution a majority of the inmates lost their sight at an age when it meant impoverishment by destroying their power as producing and self-sustaining members of the community, and in their helplessness the State comes to their relief. They are in the institution because they cannot wholly help themselves, because they are incapable of usefully and independently managing their own affairs. They are to be slowly and patiently led to overcome their helplessness and made partially, at least, self-supporting. They feel that fate has foreclosed on them, and the darkness that is around them is peopled by visions of complaint and discontent. Feeling their own weakness, incapacity, dependence, and unhappiness, they cannot conceive contentment, strength, capacity, and happiness in any other blind. Now, the verdict of experience is that when these disabled, discontented, unhappy blind are placed in an institution superintended by a man with eyesight, they remain helpless and dependent, for he has

no relation to them but the sympathetic, when the proper relation should be practical and sympathetic also. A self-reliant, self-supporting, independent blind man only can combine the two, therefore blind men only have brought such institutions to the standard of complete success.

With this statement of what occurs to us as the principles involved, we pass to the actual condition of things at the California Industrial Home for the Adult Blind, as shown by the record of that institution from its inception. It was opened for the reception of inmates and the beginning of operations in November, 1885. For the space of thirty-three months thereafter it was in charge of Superintendents with full sight. In August, 1888, it was put under the superintendency of the present incumbent, Mr. Joseph Sanders, who has been blind from early childhood, and is a graduate of the leading industrial school of this kind in the world, that has always been superintended by a blind man.

Your committee, pursuant to the resolution under which this investigation was held, examined sixty-two witnesses, of whom a large portion were inmates of the institution whose management is questioned. All sources of information which could in any degree reflect any light upon the subject embraced in the resolution, were sought and examined in the prosecution of our inquiries. We are persuaded that local political conditions at Oakland, the site of the Home for the Adult Blind, had much to do in stimulating the discontent which we found among the inmates at the time of our visit to the institution. It appears that at a late primary election held in Oakland that one of the Trustees was a candidate for office. While it does not appear that he personally solicited the votes of the inmates of the Home, it does appear that he was voted for by the inmates with remarkable unanimity, and without respect to the party affiliations of those who exercise the right of suffrage.

The witnesses Tuck, Coogan, Nelson, and Taylor are gentlemen of a high degree of intelligence, and appear to be acting in concert to overthrow the management. Mr. Tuck was formerly an inmate but is now expelled. It appears in the testimony of Senator Earl and Assemblyman Dodge that two of the inmates, Messrs. Tuck and Nelson, called upon these two gentlemen, who were then candidates for the respective offices of Senator and Assemblyman, and stated to each of them that they were a committee from the Home of the Adult Blind, that there were forty-five votes at the Home, and that it would be to the interest of these two candidates to visit the Home. We are overwhelmed with the conviction that the purpose of these two gentlemen so visiting these candidates at that time, was for the purpose of securing a promise to change the management of the Home, and that it was an implied threat to unite the vote of the inmates of the Home against them if they refused to make such promise.

Much of the testimony given by the inmates was in relation to the food. Upon this subject there is much conflict of evidence. We are of the opinion from all the evidence that the food has been usually, but not uniformly, good and wholesome. Occasionally, without fault of the management, it has been bad. This might occur, as you are aware, in the best regulated families. In institutions of this character, through the avarice and cupidity of those who contract to furnish provisions to public institutions, it is impossible to absolutely protect the State and the beneficiaries of such institutions from temporary impositions of designing contractors. It appears, however, in this case, that when the attention of the Superintendent was called to the defective character of the food, that he endeavored at once to remove the cause of rational objection.

The evidence is somewhat replete with complaints by inmates that an offensive system of espionage is maintained by the Superintendent. Your committee reports that the evidence on this point is wholly insufficient to support such accusation, that the discipline is mild, and yet the rules and regulations appear to be enforced with firmness.

There were charges of favoritism made. As to this charge your committee is of the opinion that men who become blind at adult age are exceedingly sensitive and are often very morose. As was well remarked by one blind witness, their condition seems to intensify fault-finding, and it was a matter of observation with your committee that as a class they are more captious and discontented than seeing people.

We are of the opinion that opportunities are accorded some in the business of broom making that are not accorded to others, but as far as we prosecuted our inquiries in this matter, it appears that all assignments of duty and allotments of work were made by the Superintendent upon a basis of adaptation. You are aware that some of the inmates are better workmen than others. Those who are the most active and learn the quickest have the best opportunities. This is so of seeing people as well as with blind people. If an increase in the industrial character of the institution is to be considered as an element in ascertaining its efficiency, and is in line with the purpose for which this benevolent institution is established, then we say that the evidence shows that the output has greatly increased under a blind Superintendent, and that under such Superintendent the increase in wages per hand, in income, and shop force has very largely increased, as will appear on page one hundred and seven of the testimony taken in this investigation.

From a personal inspection of the grounds we find them well kept, and the buildings thereon neat and orderly maintained.

The property upon which the Home is situated was purchased originally for the sum of \$26,000. It is now worth more than double that amount.

The chief trouble in arriving at a conclusion by your committee, was the practical unanimity of the female inmates against the management. One or two of them seems to have given the superintendency of such institution some thought and investigation.

It is, however, our opinion, taking this class of testimony, which was largely directed to the incompetency of the Superintendent on account of blindness, and the character of the food, that it is wholly insufficient to justify a finding that the Superintendent is incompetent or the food unwholesome, except at times, and then merely temporarily, as hereinbefore indicated.

CONCLUSION.

Your committee therefore recommend:

First—That the present management be retained

Second—We commend to the Governor, through the Legislature, the reappointment of Mr. Greenhood to succeed himself as a Trustee

Third—We advise this Legislature to so amend the law governing the Home that only three Trustees residing in Alameda County shall be appointed on the Board, and that the other two shall be citizens of the State, residing in other counties than Alameda.

We beg to close this report with the following statement made by the President of the Board of Trustees before your committee: "It should be a matter of pride rather than the subject of contention in California, that this State has availed itself first of all in the Union of the results of a century of experience by putting a blind man at the head of a purely State institution. The record made here by a blind Superintendent, goes out to inspire the blind and give them hope of a career in every nation where effort is made to better their condition."

We sincerely hope that the self-sacrificing efforts made by those who projected this institution, and who have devoted their time to its management, shall not, on account of any slight and inconsequential disagreement among those in control, be unavailing, but that all activities which can promote the charitable and beneficent purpose for which the institution was established may be evoked, and that the success of this institution may continue to be the pride of our great commonwealth.

COMMUNICATION.

Mr. Tindall presented the following, which was ordered printed in the Journal:

A PLEA FOR PROGRESS

To the honorable Messrs. of the House, now in session at Sacramento.

We send greeting, through the Hon. Chas. W. Tindall, member of the Assembly from Mendocino, who has long been well known in this county—in youth, earnest and enterprising; in manhood, diligent and discreet in business, ever mentally reaching forward to the higher and nobler gifts of destiny, yet who, like many of us in the rush and crowd of business, may not have studied or even read much on some important questions of the day, that now wait consideration at the bar of legislation—to him, our chosen representative, and to you, we would say, through his courtesy and your permission, let the voice of the home tide be heard.

From you, loyal members of the Assembly, many anxious hearts are waiting a favorable consideration of the question relating to woman's franchise, waiting, waiting at the vestibule of your God-given, manly intelligence for a just and righteous response. May not the year 1893 mark an era in the Legislature of California, where the noblest and grandest feature of constitutional reform shall be enacted, that can grace the legal annals of our State?

Shall not franchise for the noble mothers and sisters of this proud golden land be ably championed, in their favor, by every member of the chosen body of Assemblymen that now compose the House? Another '93 will never smile on deeds demanded now.

Let the grand discovery of worlds of latent ability to enact, encourage, and constitute, a long-prayed for and much-needed law, enhance the majesty of your decisions.

Mendocino County has more than four hundred lady taxpayers! A fair case of "taxation without representation." You doubtless smile, and lightly say: "Can we be men and suffer such disfranchisement?"

"Shall not intelligence, wit, honor, wealth, citizenship, and loyalty merit our best efforts to pass a bill for the full enfranchisement of women?"

Aye, so let it be. Don't let the good thought get strangled in a sea of pecadillos or lawyers' quibbles; seek a right and sure path, which is always to be found somewhere—in every case—amend the Constitution if need be.

Shall woman in possession of intellectual, financial, and judicial ability continue in this age of progress to have no vote for electors chosen from her domain; no vote for the educational enterprises or office holders; no vote for municipal officials, whose decisions may affect her surroundings?

Shall we, of the Golden State, longer ignore the golden rule? Are not our *mothers* and *sisters* endowed with the glory of virtue, knowledge, and wisdom as worthy to-day the right of franchise as are our honored fathers and brothers?

O privileged men, legislators, fathers, would you like to pay taxes with never a vote at elections, or enjoy citizenship with never a citizen's ballot?

Why longer keep silence, or pretend not to hear the voice of conviction that through a vista of years has rung his chimes to every honest heart, clanging equal rights for loyal citizens, irrespective of sex, shade, or color? Our ancient veteran fathers so realized it, only custom, darkly blind, annulled the truth. Let us of to-day lift the veil of blind ignorance, and unveil anew the Goddess of Truth and Liberty, and, by this recognition, the glorious dawn of enlightened womanhood will beam with new luster upon an enlightened nation, when there will be equal rights for man and woman at the ballot.

You say, perchance, rude ways of some men will disturb the gentler mind on voting days. Good laws dispel disturbance. When *she* advances to deposit *her* ballot, there will be no rude demeanor, then mutual wishes for a nation's good will prevail.

Happy will be the man who writes his score in favor of woman's franchise, and happier he who lives to see her cast the ballot.

The way to reach desired ends seems often dark and impracticable, but there is somewhere and somehow a straightforward path to it. Make up the mind in favor of granting full franchise, and clouds in the legal horizon will disappear, giving place to the gold and silver tintings of constitutional prosperity and progress.

We pray you, let the noble women who wait your words of wisdom hear that the House echoes their earnest appeal for woman's franchise. Let strong hearts sustain it as an Assembly composed of gifted and learned young statesmen should, rather than let the passage of so important a bill be deferred, perhaps, till another generation appears, causing deeper moans, by the lapse of time, where woman's franchise has been unduly, cruelly delayed.

The honor of *advancing* so just a cause should be yours. Achievements are often performed decisively and unexpectedly, and they achieve greatness for the performer; with greatness, too, *results* productive of great good to humanity.

Sweet is the memory of a good deed, helping a friend in need, or an enemy in trouble, but sweeter, far, the satisfaction in having aided to dispel a great injustice that has long hampered the advancement of the community.

What cups of joy for many a heart in this State would overflow with life-giving elixir in praise and orison, were this term's closing session bells to ring out the welcome news of the enfranchisement of woman—to the varied elements, full and clear.

Will you not so deem it, well, soulfully, and in faith with some of your best constituents, to grant the women's sacred petition, asking for franchise, doing all in your power to promote the passage of the bill?

Respectfully submitted.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, {
SACRAMENTO, February 16, 1893 }

To the Assembly of the State of California

I desire to call your attention to some measures which I think deserve your prompt and careful attention. To the present time bills have been introduced in the Legislature calling for appropriations which, including the General Appropriation Bill, will amount to sixteen million dollars. It is my desire that every just claim against the State, and every appropriation for necessary expenses in conducting the State institutions, should be allowed. The experience of the Board of Examiners, and other State officials, in dealing with the various unliquidated claims against the State, has convinced every one of them of the pressing necessity of legislation to carry into effect the provisions of section six of article twenty of the Constitution, relative to suits against the State. It is a well-known fact that the time of past Legislatures, and of the Board of Examiners, has been very largely consumed in the examination of doubtful claims against the State, many of which involve difficult questions of law and fact. The report of the Board of Examiners, laid before you at this session, shows that a very large number of claims have been examined by the Board, and as to many of them, it had been unable to either approve or reject, it being impossible to make such a thorough examination as would result in exact justice to the claimant, and at the same time protect the interest of the State. I see no reason why claims against the State should stand upon any different footing, at least as to the manner of examination and adjustment, from claims against private individuals. The State ought always to be willing, and it is manifestly to her interest, that such claims should be passed upon by the ordinary process of law. In fact, the exemption of the State from suit, though generally regarded as a privilege, is, in my judgment, decidedly injurious to her interests in many respects, especially the right to plead the statute of limitations. As the law now stands, claims which would be regarded as stale if presented to a private individual, may and constantly are presented over and over again to the Legislature.

At different times the Legislature has passed Acts authorizing individuals to sue the State. If the principle in those Acts is good, it ought to be extended so as to apply to all cases which may be brought within its scope.

My attention has been called to Senate Bill No. 401 and Assembly Bill No. 374, which authorize suits against the State for all claims not allowed by the Board of Examiners. I have carefully examined these bills, and am of the opinion that if made the law, the interests of all legitimate claimants will be thereby promoted and the true interests of the State thoroughly guarded.

DEFICIENCIES.

It is customary to insert a clause in the General Appropriation Bill whereby officers and employes of the State are prohibited from creating a deficiency in excess of the appropriation, except in cases of actual necessity, and only then upon the unanimous consent, first obtained, of the Board of Examiners. It has been found to work most admirably, and in the interest of the State, so far as it applies. But there should be a general law to the same intent. An inspection of the file shows that Senate Bill No. 502 and Assembly Bill No. 550 have been introduced, and are intended to cover this point. The State needs all the protection that such a law affords, and I urge the passage of the measures mentioned above.

EXEMPTION FROM EXAMINATION.

My attention has been called to the fact that many bills have been introduced, making appropriations for various purposes, exempting the same from the provisions of section six hundred and seventy-two of the Political Code, which means that immediately upon the passage of these bills by the Legislature, the State Controller shall draw his warrant for the amount therein named, and the State Treasurer shall pay the same, and that they shall not pass the scrutiny of the Board of Examiners, the same as provided by law in all other cases. I look upon this principle as an exceedingly vicious one, and recommend to your honorable bodies that no appropriation having this clause in the bill should receive your sanction.

COYOTES

At the last session of the Legislature a law was passed providing for the payment of the sum of five dollars out of the State Treasury for each coyote destroyed. No one at that time had an idea that it would prove such a burden upon the taxpayers of the State. The last quarterly report of the State Controller shows that there have been paid out during that quarter over fifty thousand dollars for coyote scalps. It is fair to presume that during the next two fiscal years the State will be called upon to pay out over four hundred thousand dollars, and the amount may reach half a million, for this purpose. I recommended in my message to your honorable bodies that the law be repealed, and Senate Bill No. 77 and Assembly Bill No. 87 have been introduced by some of your honorable members looking to such repeal.

In this connection, I desire to say that as I consider the fifty-cent limit still binding upon me, I most earnestly recommend that you consider the amount that will necessarily be paid out in pursuance of the provisions of this law, if permitted to stand, as a part of the necessary expenses of the State, and that the amount above named be considered in excess of the appropriations which you are called upon to make. I am convinced that the State has paid, and will continue to pay, for scalps taken without this State. If a bounty is to be paid, it should be largely reduced in amount, and greater safeguards thrown around the proofs required as a guard against the possibility of fraud. The Board of Examiners is helpless. If a claim presented is correct in form, it must be allowed, for all evidence is destroyed before the claim is presented to the Board.

PUBLIC BUILDING IN SAN FRANCISCO

Senate Bill No. 5 has already passed the Senate, and is now before the Assembly. This bill authorizes the appropriation of three hundred thousand dollars for the erection of a public building in San Francisco, for the accommodation of the various State officers and employes located in that city. The idea of concentrating these officers in some one building is certainly worthy of favorable consideration, first, on account of the convenience to the people of the State, as it is almost impossible for any one not very familiar with San Francisco to expect to find all of them in much short of a week's time; again, the rent for this purpose is simply enormous, as it amounts to over two thousand dollars per month. If the State is to pay twenty-four thousand dollars a year for rent, it becomes a grave question whether it is an economical proposition or not, especially as it is presumed that all State officers should be at the State Capitol, where abundant room could easily be supplied. But, as a matter of convenience and economy, there should be some relief in some direction. It has occurred to me that, with a moderate appropriation, good and sufficient accommodations could be provided in the new building now being erected by the State Board of Harbor Commissioners. The location is central, convenient, and eminently proper. One hundred thousand dollars ought to be sufficient to provide accommodations for every purpose, with the possible exception of that of the Supreme Court of the State, the location of which ought probably to remain nearer the New City Hall. I ask your very careful consideration to this proposition.

In view of the fact that at least eleven million dollars will be required for the maintenance of the various State offices and institutions during the next two years, and that at least eight hundred thousand dollars will be required to put the several uncom-

pleted public institutions in condition for successful operation, and especially in view of the enormous amount of appropriations asked for, I do most earnestly urge that appropriations for the absolute necessities of the State should be first considered and allowed before those of a general character.

H. H. MARKHAM, Governor.

THIRD READING OF BILLS.

Senate Bill No. 93—An Act to amend sections two and five of "An Act to provide for the maintenance and support of the public parks heretofore created within the various cities, and cities and counties, of the State, and amend the existing Acts in relation thereto," approved March 14, 1889.

Resolved, That the rules be suspended, and that on Tuesday, February 21st, after the reading of the Journal, the roll be called and each member be allowed to call up one bill, with the consent of the author, which shall be placed on the special file, *provided*,

ASSEMBLY CHAMBER, SACRAMENTO, February 17, 1893.

MR. SPEAKER. Your Committee on Ways and Means had under consideration Assembly Bills Nos. 165 and 166, making appropriations to pay the salary of Deputy Commissioner of Immigration and Commissioner of Immigration, and report the same back, with the recommendation that they do not pass.

The law authorizing the creation of these two offices expressly states that their salaries must be paid from fees collected by them. It also provides that all moneys collected by the Commission of Immigration shall constitute an especial fund, to be designated as the Leprosy Fund, and that no such account of salary and office expenses shall be audited in excess of the amount of Leprosy Funds on hand, and no liability shall accrue to the State for any deficiency relating thereto.

In 8th Sawyer, page 640, the Circuit Court held that the fees could not be collected. A Commission of Immigration mandamus John P. Dunn. The case of P. S. Forrester vs. John P. Dunn was heard in Department One of the Supreme Court, September 1, 1884. The Court, after citing the law, says "It is apparent, from the reading of the Act, that it is not the intention of the Legislature that the salary and office expenses of the Commissioner should be paid out of any money in the treasury, being the excess of moneys collected beyond salary and office expenses prior to the passage of the Act of March 15, 1883, but that the salary and office expenses of the Commissioner, after that Act went into effect, should be paid only out of the funds made up from fees collected, fines, etc., which were required by its terms to be paid into the treasury, without any deduction for salary and office expenses. The petitioner took office April 1, 1883, after the amendatory law went into operation, and, as we construe the laws, can, at most, only claim to be paid his salary, etc., out of the moneys paid into the treasury after March 15, 1883."

The Commissioner accepted an appointment October 10, 1885, knowing that the Court had held that the collection of fees was unconstitutional, and that no other provision had been made for the payment of his salary. Your committee is therefore of the opinion that the Commissioner of Immigration has no valid claim against the State.

COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL No. 679.

An Act providing for primary elections in this State.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. The committee or body authorized by the rules or customs of a political party to call primary elections of or for said party within any county, city and county, city, or town, shall, upon the filing with the President or Secretary of such committee a written petition signed by at least fifty electors, members of such party, cause the Secretary of such committee to give notice (in ample time to carry into effect the provisions of this Act), by publication, in one or more newspapers in general circulation in such county, city and county, city, or town, or by posters posted in conspicuous places therein. Said publication or posting shall give notice to all members of such party that those who desire the nomination of such party for the various offices to be filled at the forthcoming election, including candidates for the County Central Committee or delegates to conventions, shall present their names to the Secretary, together with the necessary fee, as fixed by said committee, not later than a certain day to be fixed by said committee, designating the office for which said person desires the nomination, or for the position of committeeman or delegate. After the expiration of the day so fixed, the Secretary shall cause to be printed a ballot, of uniform size, kind, and quality, containing the names of the various candidates arranged alphabetically, under the designation of the various offices for which they are, respectively, candidates, indicating therein the number of candidates to be voted for opposite the title of each office mentioned. All tickets shall

be numbered consecutively, and the number shall correspond with the number on the stub, which shall be attached to said ballot. All ballots shall be bound in stub books of such number as may be directed, suitable for the district for which it is to be used. The committee may make such further provisions relating to said ballots as may be deemed advisable, *providing always*, that each ballot shall contain the number of the ticket, and a place for the elector voting the same to write his name in. The name of the elector shall be written on the ticket by the elector himself, and shall be his signature, and any person who shall willfully sign a name of any elector other than his own on any such ticket shall be guilty of forgery, and on conviction thereof, shall be subject to the penalty provided therefor; and the ticket shall be so arranged and folded that it will display the name of the person voting the same, and the number of the ticket, and not its contents, and so that portion of the ticket containing name and number may be removed from the ticket without defacing the ticket.

SEC. 2. The Secretary shall then cause to be mailed, postpaid, not later than a certain day, to be fixed by said committee, to each member of such party, whose name appears on the list of such party, and also on the last printed Great Register, and none others, one of these tickets, and shall write on the stub of such ticket, which shall be by him retained, the name of the person to whom said ticket has been mailed or presented personally. Any member of the party to whom a ticket has not been mailed or given, may apply in person for, and receive personally and not otherwise, his ticket from the Secretary, or he may apply through the mail therefor, when the same must be sent to him through the mail. The envelope inclosing said ticket shall be addressed to the person at the Post Office address as indicated in such Great Register, or to the address as changed under the provisions of section twelve hereof. Ample time shall be given after mailing the ballot by the Secretary, to enable the elector to receive, mark, and remail the same to the Secretary or Assistant Secretary, as herein provided.

SEC. 3. In any city, or county, or city and county, or town, where, in the judgment of the County Committee, the number of electors are too numerous to be included in one district for the convenient canvassing of such ballots when returned, the said committee shall divide said city, city and county, or county into different districts, and to that end may adopt Assembly or Senatorial districts, or adopt other subdivisions, as they deem advisable. Within each of such districts shall be appointed an Assistant Secretary, and a room or place therein shall be designated as the place where all ballots for such district shall be received and canvassed, and all envelopes inclosing ballots sent from the Secretary shall contain, in addition to the ballot, a postpaid envelope, properly addressed to the Secretary or the Assistant Secretary of the district where such person so addressed resides, in which envelope the elector is to inclose his ballot after the same has been marked. All envelopes used in returning ballots shall be made of such color and material and so addressed that they may be plainly distinguished from all other letters, in order that the United States postal authorities may be able to comply with all directions relating thereto, and the words "Ballot Envelope" shall be written or printed on such envelopes.

SEC. 4. On each ballot shall be plainly printed a notice giving the latest date (which date shall be fixed by the Central Committee) at which any ballot can be deposited in the United States mail, and the date shall be fixed so that each elector shall have a reasonable time after the receipt of his ballot in which to mark and mail it to the Secretary. And it shall be the duty of the Secretary to see that all members of the party whose names appear on the party list and on the last printed Great Register receive tickets personally or through the mail within the time fixed by said committee. Every ballot shall have a space to the right of every name placed thereon, in which to make a cross (X), which shall indicate that the person writing the same, in ink or with a pencil, votes for the person whose name is opposite to said cross (X) or mark so made. In case of loss or destruction of such ticket the elector may apply to the Secretary for a new ticket, and the Secretary shall cancel the number on the stub of the ticket so lost or destroyed, and place over the number so erased the number of the new ballot. The Secretary must require an affidavit of the facts of the loss or destruction of such ballot before issuing the new one. Any false representations made to obtain a new ballot shall be a felony.

SEC. 5. The Central Committee shall fix the time when the ballots shall be removed from the Post Office or delivered by the postal authorities, and shall fix the place to which the ballots shall be taken to be opened and canvassed. The call for the primary election must contain the time and place, as aforesaid.

SEC. 6. No room or place shall be designated as the place for the reception and canvassing of such ballots unless the same is of such capacity that a reasonable number of persons may be accommodated therein (in such a way that the ballot-box shall be in their open view), and each candidate whose name appears on said ballots shall be entitled to at least one representative bystander in every room in which ballots are being received and canvassed, to the exclusion of all persons, excepting the Secretary and Inspectors, two of whom shall be appointed by the committee to act, without pay, *provided, however*, that a two-thirds majority of all the local candidates of the county may designate the Inspectors, who shall have charge over and supervision in receiving and canvassing said ballots, in conjunction with the Secretary or Assistant Secretary, during the time ballots are being received and canvassed, and shall, together with the Secretary or Assistant Secretary, constitute the Primary Election Board.

SEC. 7. In all places where there exists a free United States postal delivery system, said Secretary shall direct the postal authorities when to deliver all letters containing

ballots, and inclosed in envelopes marked "Ballot Envelope," and the time so fixed shall be on the day fixed for canvassing ballots, and immediately before the hour for opening and canvassing the same. The Secretary shall make the necessary arrangements with the United States postal authorities for the retention in the Post Office of such letters until the time fixed for their delivery; *provided, however*, that in any case the postal authorities are unable to comply with the provisions of this section, then the provisions of section eight of this Act shall be followed.

SEC. 8. In sparsely settled districts, or where there is no postal delivery, or when the postal authorities are unable to carry out the provisions in section seven of this Act, the Central Committee must provide a box at the Post Office, which box must be locked and sealed in such manner that the envelopes containing ballots may be placed therein, but cannot be removed therefrom without breaking the seal, and direct that all letters containing ballots, as aforesaid, shall be placed therein, and retained until the time fixed for opening and canvassing said ballots, when the box containing said ballots may be received by the Secretary or Assistant Secretary from the Post Office, in the presence of the bystanders and candidates, or representatives of candidates, and taken immediately to the place fixed for opening and canvassing the said ballots. If the postal authorities refuse to permit a box into which these marked envelopes have been deposited by the postal authorities, as they are received at the Post Office, to be removed from the Post Office, then the Secretary shall provide another box into which he shall direct the postal authorities to place all such letters. And it shall be a felony to willfully remove any of said ballots from the Post Office at any time before the time fixed for their removal.

SEC. 9. After the reception of the box containing such ballots at the place fixed to canvass the same, the Election Board shall cause the ballot-box to be opened in public, and in the presence of the bystanders. The letters containing the ballots shall then be taken out and counted, and shall thereafter be opened, but not the ballot therein contained, and the Secretary shall check off the names on the Great Register, as they are read from the ballot, and mark them "voted" as they are opened, *provided*, the signature of the ballot agrees with the name on the stub from which the ticket was taken; if it does not the ballot shall be rejected. The name and number shall thereupon be removed from the ballot, the ballot being so arranged that this can be done, and the ballot shall then be replaced in the ballot-box. After the ballots are all returned to the ballot-box, the names and numbers having been removed therefrom, the Election Board must then proceed to take the ballots out of the ballot-box one at a time, and to open and canvass the ballots publicly, one by one, in the presence of the bystanders, and announce the result of the same, openly and aloud, keeping a tally list thereof.

SEC. 10. The ballots, as soon as all the names marked thereon as voted for are read, and a record thereof made, must be strung on a string by one of the Inspectors, and must not thereafter be examined by any person (they may be examined by the Central Committee, however, in case of contest or recount); but as soon as all are counted must be carefully sealed in a strong envelope, and directed to the Secretary of the committee, at the office of the committee, and delivered by the Board to the Secretary, with the tally list, showing fully the result of such canvass, who shall preserve the same. After the election for which said primary election was held the ballots may be destroyed.

SEC. 11. No person shall be furnished a ticket or be allowed to vote whose name does not appear on the last printed Great Register.

SEC. 12. Any elector who has changed his Post Office address or residence since the Great Register was printed, may apply in person or by letter to the Secretary of his party and have the address and residence changed to accord with such change, at any time before the day for mailing the ballots to the electors, but not afterwards.

SEC. 13. To enable the Secretary to properly classify the electors, with reference to the party to which they may belong, the committeeman from each ward or precinct, together with such members of the party as may be designated by the Central Committee, shall make out a list of all electors residing in his or their ward or precinct, belonging to their party. The names of such electors thus classified shall be placed on said list, giving the Great Register number and residence of each person. All persons whose names appear on such enrollment or list shall be considered a member of such party, and entitled to tickets and all notices emanating from the Secretary as herein provided for. To assist the Secretary in making such lists, all electors are hereby directed to notify the Secretary of the party to which he may be belong. Any elector whose name is not on said list, and who failed to so notify the Secretary before the expiration of the time for sending ballots to electors, shall not complain that no ballot was sent to him, and any elector knowingly and willfully causing his name to be put on the list of more than one political party, shall be guilty of a felony. Every elector may challenge the name of any person on said list, by making affidavit, that according to his best information and belief, the person challenged belongs to a political party different from that on the list of which his name appears. Upon filing said affidavit with the Secretary, the Secretary shall give notice to said elector thus challenged, that he must, within ten days from the date of the service on him of said notice, file an affidavit that he does belong to the party on whose list his name appears, and that his name does not appear on the list of any other party. SEC. 15. The Secretary of any political party shall, on demand, furnish to the Secretary of any other political party a true copy of the list of all electors belonging to the party which he represents, as they appear on the list of said party, and if it should appear that the name of any elector appears on more than one list as belonging to more than one party, it shall be the duty of the Secretary of each party on whose list such name appears to erase the same and to forthwith notify such elector that his name has been removed from the list and placed as doubtful, and to enable him to be placed on any list he shall be required to make affidavit, clearly showing the party to which he does belong, and his name shall not be placed on any list unless such affidavit is so furnished. The Secretary or Assistant Secretary of any party who shall willfully refuse to place on said list any name when directed so to do by the provisions of this Act, or who shall erase, remove, or cancel any name, or who shall fraudulently place any name on said list not entitled to be placed thereon, or shall in any manner fraudulently doctor up or change said list, or who shall willfully refuse to furnish any ballot to any one entitled thereto, shall be guilty of a felony, and shall be punished by imprisonment in the State Prison not less than one nor more than five years. The Secretary or any Assistant Secretary may be removed and a new one appointed at any time by the Central Committee.

SEC. 16. Every elector shall have the privilege of having his name erased from the list of any party at any time he may desire, and of having it placed on the list of any other party; and the Secretary of the party on whose list such elector's name appears, shall, on demand of such elector, furnish him with a certificate that his name has been canceled on said list, *provided, however*, the party on whose list he may desire to have his name placed may require him to subscribe and swear to such test as may be provided by the Central Committee of the party on whose list he may desire to place his name.

SEC. 17. It shall be a felony to counterfeit or fraudulently publish, print, circulate, or use any ballots or envelopes as provided herein.

SEC. 18. The Central Committeemen of any political party elected, as herein provided, shall be called together by the Chairman of the committee under which the primary election was held immediately after the canvassing of the vote. When so assembled the committee shall be and constitute a party convention, with all the powers and duties appertaining to conventions, and also all rights, powers, and privileges, as provided by the laws of this State. Said convention shall certify as its candidates for office those persons elected under the primary law hereby established, and shall be and constitute a convention for all the purposes mentioned in and required by the provisions of section one thousand one hundred and eighty-seven of the Political Code of this State.

SEC. 19. Any public question may be submitted to the party voters upon said ballots, or a primary election may be called exclusively for the submission of questions of public or party interest at any time, according to the provisions of this Act.

SEC. 20. The President, Secretary, and Assistant Secretaries of any political party, and all Inspectors while acting as such, shall be and they are hereby authorized to administer oaths in any and all cases where, by the provisions of this Act, an oath may be administered or is required.

SEC. 21. Any person found guilty of violating any of the provisions of this Act in any Court of competent jurisdiction, shall, in addition to the penalty provided therefor, be removed from any office which he may then hold, and shall thereafter be disfranchised and forever debarred from holding any office of honor or profit under the laws of this State.

REPORTS OF STANDING COMMITTEES.

ON ENROLLMENT

ASSEMBLY CHAMBER, SACRAMENTO, February 21, 1893.

ON MILITARY AFFAIRS.

ASSEMBLY CHAMBER, SACRAMENTO, February 23, 1893.

MR. SPEAKER. Your Committee on Military Affairs, to whom permission was granted to visit San Diego, Los Angeles, Fresno, and Stockton, beg leave to report as follows: That they have visited all companies located in the above-named places, and have made careful and critical inspections, and have found the discipline and soldierly conduct of the officers and men excellent and worthy of high praise. With the exception of one at Los Angeles, we found the armories poorly adapted to the purposes for which they are used. We recommend that armories be erected by the State as far as possible, as it will be a saving in large sums of money now paid for rents.

The arms in many cases are in poor condition, having been a long time in use, but as these are received from the General Government under the law of Congress, nothing can be done by the State in bettering their condition. We find that not more than forty per cent of the arms now in the hands of the National Guard are serviceable.

The uniforms are in bad condition, and should be renewed immediately. The appropriations asked for by the Adjutant-General for the maintenance of the National Guard should be allowed, as we are satisfied they are as low as the demands for an efficient military organization will warrant. In many instances the officers and enlisted men are compelled to furnish out of their private means funds for maintenance of their organizations. We found the company of the Naval Battalion at San Diego made a very creditable appearance, and is entitled to the kindly consideration of the people of the State.

Your committee respectfully recommend the adoption of the following

Resolved, That the Controller of the State be and he is hereby directed to draw his warrant upon the appropriation for the contingent expenses of the Assembly in favor of C. D. McCauley, for the sum of four hundred and ninety-three dollars and sixty cents (\$493 60), for the purpose of paying to Messrs. McCauley, McElroy, Jacobsen, and A. Norton, Clerk, each one hundred and twenty-three dollars and forty cents (\$123 40), for mileage due them upon their visit to San Diego, Los Angeles, Fresno, and Stockton, and return, under the resolution heretofore adopted

McCAULEY, Chairman.

Referred to Committee on Mileage.

REPORT OF JOINT COMMITTEE ON MEMORIAL SERVICES IN MEMORY OF THE
LATE JAMES G. BLAINE.

SENATE CHAMBER, SACRAMENTO, February 23, 1893.

MR. SPEAKER: The joint committee appointed in accordance with the following resolution:

Resolved by the Assembly, the Senate concurring, That a special time be set apart for a memorial address to be delivered in joint session of the Senate and Assembly in honor of the memory, life, and services of the Hon. James G. Blaine, and that a committee of six, three to be appointed by the President of the Senate and three by the Speaker of the Assembly, be appointed to select the time of and speaker on such occasion

Respectfully reports as follows:

In compliance with previous arrangements of the joint committee, memorial services commemorative of the death of James G. Blaine were held in the Assembly Chamber at ten o'clock and thirty minutes A. M. Wednesday, February 22, 1893 (Washington's Birthday), the Senate and Assembly meeting in joint convention.

The Speaker's and Clerks' desks were draped in mourning

Hon. It. B. Carpenter, President pro tem. of the Senate, presided.

The following programme, deemed by the committee appropriate to the occasion, was rendered.

1. Funeral March (*Chopin*), by the orchestra. Entrance of Senators, Assemblymen, and State officers.

2. Reading and adoption of memorial resolutions

The joint committee presented the following resolutions, which were read by Hon. F. G. Finlayson, Chairman of the Joint Committee:

WHEREAS, The people of California have heard with profound regret the announcement of the death of that illustrious American citizen, the Hon. James G. Blaine; therefore, be it

Resolved, That the members of the Legislature of this commonwealth, in joint convention assembled, do express their sense of the National loss sustained and their estimate of the private character and public service of the peerless statesman in this tribute to his memory. James G. Blaine was the ideal American statesman. His mental grasp of public questions was unequalled, and his sympathies, like his patriotism, were ever broad and responsive. In thirty-seven years of almost continuous public life, embracing, in its measure, the duties of a legislator in the State of Maine, service in both houses of Congress, and positions in the Cabinet of the United States. His

consistent and able support of every leading proposition tending to the advancement of this country to the highest position among the renowned nations of the world, won for him a recognition reserved only for the greatest of men. Diligent study, ample resources of intellect, and above all, an alert sense of patriotism, enabled him to comprehend, long before the clay was removed from the eyes of other statesmen, that unrestricted immigration from Asia to this land would inevitably degrade American labor on the Pacific Coast, and with the ready courage of his conviction, he fought in the minority for the industrial supremacy of the Caucasian race. His superb service, rendered in that recent struggle for human civilization, will ever be remembered by a grateful people in California. Voicing the sentiments of the people of California, we express our profound regret over the loss of this illustrious American statesman, and express the hope that his example of fidelity to free institutions will speak to future generations.

To the family of the lamented statesman, we tender sincere sympathy in their bereavement, and as an expression of our feeling, it is directed that a copy of the memorial be transmitted to Mrs. Blaine.

Mr. Dodge moved the adoption of the resolutions by a rising vote.

So ordered.

The President of the Joint Convention thereupon declared the resolutions adopted by unanimous vote.

3. "Not Dead, but Sleepeth" (*White*), bass solo, by W. H. Kinross; male chorus of eighteen members from the Sacramento Choral Society, accompanied by the orchestra.

4. Invocation. Rabbi J. Leonard Levy, of the Congregation B'nai Israel, Sacramento, was introduced and delivered the invocation, as follows.

Almighty God and Father! Thou art the first, and Thou art the last, and beside Thee there is no God. Wherever we turn our eyes, or bid our thoughts take flight, there art Thou, here in Thy majesty, there in Thy power, everywhere in Thy love. Whether we gaze, adoringly, on the heavens, fretted with golden fire, or on the tiny blade of grass, seeking the sun's rays and the refreshing breezes; whether we stand amazed by the vast ocean, when its angry waves are lashed into a fury by the tempest, or by the purling brook, on whose bosom plays the dainty riddle; whether we listen overawed to the far-resounding peal of the thunder, or to the gentle rustling of the leaves when the southern zephyr "makes the trees clap their hands," whether we contemplate the forest giant, adorned with a crown of foliage, or the tiny petal of the rose, bejewelled with the glistening dewdrop, or whether we feel Thy presence in public and private joys and sorrows, we are always impressed that Thou alone art God, that Thou art forever the same, that Thy years end not, that with Thee, majesty, power, and love are eternal.

Contrasting these, Thy infinite qualities, with the transient character of man's days on earth, we are led to ask, "Lord, what is man that Thou art mindful of him, the Son of Man that Thou takest heed of him?" On the side of his physical nature he is like the beasts that perish, but on the side of his spiritual nature, since he partakes of Thy divine essence, he is little less than the angel, endowed with aspirations and longings, yearnings, and desires, that indicate that he is not wholly of this earth.

Lord God! we invoke Thy help that these cravings be rightly directed. We pray that more and more our natures be awakened to the force of the reasonable hope of that life, when, divested of our earthly bodies, we shall awaken in Thy presence, perhaps to see the deeds done in our days of nature in their right light, perhaps to analyze the motives with which we performed them.

We recognize that there is also an immortality on earth for Thy children, O God. We feel that it largely depends on man himself whether his name be inscribed on shifting sand or on imperishable marble, that it depends on us alone, and upon the right use made of our faculties and the means at our disposal, whether, when we lie in the silent grave, when the tombstone has crumbled into dust as our bodies, and the grass thereabouts has withered, and the banks of flowers faded—whether our names be forgotten on the tongues of men, whether, like balloons with which children play, death makes a puncture in us and, falling into nothingness, we be entirely gone forever—or whether we shall have gotten for ourselves a name which death cannot touch, which age cannot impair, which clouds cannot conceal, nor storms blight.

Help us, O God, to strive for this immortality on earth, even as we desire eternal life with Thee. Send us Thy light and Thy truth, and may they restrain our selfish passions and inspire us with generous sentiments. Teach us to feel that the elixir of eternal life is a specific composed of benevolence, sincerity, and unselfishness, to be used not only towards those of our own creed, race, and position, but towards all men, for we are all Thy children.

We thank Thee for this hope within our breasts, and for the possibility of its fulfillment. We thank Thee for the many examples which Thou hast furnished us in the form of illustrious men and women, by contemplating and imitating whom we feel that Thou wilt suffer our hopes to be realized.

It was because in our judgment our departed brother, in honor of whose memory we are here assembled to-day, was graced with noble qualities that we admired him—that we praised him living and treasure his memory dead. Yet we know, O God, that Thou dost expect more, if this demonstration of affection is to be more than a sterile tribute.

We know that Thou wouldst have us become inspired with his devotion, and we therefore beseech Thee to aid us to love what he loved, to struggle and fight for what he

defended, to seek and strive for this great nation, to set America above our chief joy. As he was in all things actuated by a pure love of our country, as he was inspired with a deep and earnest longing to see her traditions honored, her institutions supported, and her people united, so, O God, may we be moved by like loyalty, integrity, and patriotism. Into Thy safe-keeping we commit his spirit, in the full and certain hope that his righteousness will bring an exceeding great reward.

Thou who healest the broken-hearted and bindest up their wounds, send Thy heavenly comfort to those who mourn. Be a father to the orphan, and a protector to the widow from the garden of whose existence the fairest tree has been plucked. Fill the hearts of all mourners with love and reverence of Thee to serve Thee with a perfect heart, so that when it shall please Thee to call them unto Thee their end shall be peace.

We ask Thy blessing on all assembled here to-day. They are all Thy children, and for all we ask Thy fatherly protection and benediction.

And bless our own land. May the hopes of all her founders and servants be realized. May her citizens recognize that National prosperity, without moral nobility, is as a gem in the forehead of a skull, that righteousness alone exalts a nation. May liberty continue to be our presiding genius; not liberty to do wrong unpunished, but liberty to listen to the voice of conscience, liberty to choose Thee, O God, for our master; liberty to excel in truth, purity, honor, integrity, virtue, duty. May America ever be the land of the brave and the home of the free. May this great fabric never fall. Cleanse all the administrations of National affairs. May those in office be upright, hating deceit. May legislators unselfishly and patriotically serve their country, and not their own ends. Take under Thy protection the President of the United States, and those dear to him, and all who administer the public affairs of this vast commonwealth, the Governor, and officers of this State and city, that through them order may be preserved, and peace, right, and liberty be fostered. Lord! hasten the day of blessed promise, when men shall truly regard each other as brothers, when hand shall meet hand in friendship, and heart speak to heart in love; when swords shall be beaten into plowshares, and spears into pruning-hooks; when there shall be learned no more war; when shadows of ignorance, and superstition, and hatred shall have fled, and the bright light of knowledge, religion, and love shall illumine men's minds, when all shall acknowledge Thee as the One Common God and Father, Thou who art One and Thy Name, the One and Eternal God! Amen.

6. Memorial poem.

Ruth E. Newland, M D., was introduced, and delivered the memorial poem, as follows:

FATE.

The Ladder of Life found a resting place
Against the Ship of State;
At the foot of the ladder stood a tiny child
Awaiting the Angel of Fate.
His little hand had taken hold
Of the first round of the ladder of life,
To climb to the top with steps so bold
Midst greed, and gain, and strife
The years went by, and a sturdy boy
Had climbed one third of the way;
His eyes were shining with peaceful joy,
His lips said, "The honors will pay."
The years rolled on, 'twas a manly form
That had gained a round or two;
He had battled with life through every storm,
With every honor in view.
He had gained the deck of the Ship of State,
His hand turned the wheel to steer
The ship from the rocks of destiny's fate,
But his eyes were honest and clear.
He saw in the future his country's fame
Among the nations of earth,
He saw among these a statesman's name,
And fate had given it birth.
He started again the ladder to climb
With hand firm, honest, and strong;
And said, "The last round, I will gain it in time,
And mount it midst peans of song
From my countrymen's lips, they'll never forget
The work I've been trying to do,
And the Sun of my Life will never set
Till I've carried my life's work through."
At the foot of the ladder stood the Angel of Fate,
And she said, "It can never be;
The last round of the ladder comes too late
To thy hand, my charge, for thee.

The one for thy hand is not for this earth—
It is not of the Ladder of Time;
It will be touched in glory with Eternity's birth
When the Celestial Hills you climb "
'Twas a sad old man that heard those words,
For avarice, and greed, and gain
Had kept his hand from gaining that round—
This is the "Life of James G. Blaine."

The Last Round of the Ladder

Then the Angel of Fate winged her flight to Heaven,
And stood at the Golden Gate
To open it wide to a soul forgiven
Of sin; and there to await
The coming of him who her charge had been
Since a babe in his cradle had lain.
The question was asked, "Who will be seen
When he enters?" "It is James G. Blaine."
I wish to be there to welcome him home,
To give him his just and due,
To our home in bliss we wish him to come,
For he has been good and true.
The question was asked, "While living on earth
Can you tell the work he has done?"
"Oh, yes, for he was given the name at his birth—
The name of America's Son "
He has never failed in his upward flight
From the first round of the Ladder of Life;
To battle for truth, to battle for right,
He has always been first in the strife.
His life was a gem of clear whiteness,
He was gentle, and kind, and true;
His life has been lived with steel brightness
In all he's been trying to do.
I saw him first as a gentle child
At the foot of the Ladder of Life,
I have sheltered him midst tempests wild
Of greed, and gain, and strife;
I have been by his side as he touched each round,
In climbing the Ladder of Fame;
I have kissed his brow when I heard the sound
Of each groan of anguish and shame.
When the roar of the cannon, of shot and shell,
Told of conflict, of war, and of strife.
The heart of the statesman in his bosom did swell,
Then his country had need that his life
Should be spent in the work of political toil
With tongue, pen, and soul in the van,
He ne'er failed in duty, he ne'er did embroil.
But was ever the peace-making man.
I have stood by his side when each feather in wing
Seemed to quiver with anguish and sorrow;
I have turned aside malice, and have taken the sting,
And have whispered, "Just wait till the morrow."
Of closing his life, to see him walk in
At the entrance when the gates open wide,
When those glorious forms with no taint of sin
Walk in glory close by his side.
That heavenly throng of angels so bright
Will each stand with close-folded wings—
Will be mute with surprise in the realms of light,
And the seraphs will all cease to sing,
For a soul has come from the "Sorrowful Star,"
Has come home to the bosom of God
They have heard of that life midst its tumult and war,
And the straight path of duty he trod;
Then we'll give him a welcome, we will open the gate,
Each harp will be ready and sweet—
For the one to precede him is the Angel of Fate,
With laurels to lay at his feet.
But one of them all to his touch will be given,
It seems with earth's memories rife;
It has come to his hand midst the glories of heaven.
It's the "Last Round of the Ladder of Life."

7. "Sleep On, Beloved" (*Bliss*), by the chorus (unaccompanied).

8. Memorial address.

Hon. G. G. Goucher, Senator, of Fresno, was introduced, and delivered the memorial address, as follows:

MR. PRESIDENT AND FELLOW-COUNTRYMEN: We are gathered here to lay upon the grave of James G. Blaine a fresh garland of glory, plucked from the warm hearts of seventy million Americans.

In tendering this tribute to the illustrious dead, we have honored ourselves in selecting a day that commemorates him who "was first in war, first in peace, and first in the hearts of his countrymen." The stricken procession of unsheltered heads, bowed forms, and tear-stained faces of other Americans in Pennsylvania, in Maine, in the District of Columbia, has not passed unobserved by the great-hearted host who populate the Golden State. Divested of partisan jealousy, we have assembled at the bier of a great statesman, and from this solemn presence and consecrated spot we send across the rivers, the mountains, and the valleys to the confines of the roaring Atlantic assurances of our sympathy and announcement of our sadness.

Over our own hearts the sable, hovering pinions of sorrow have been spread, and their black shadows have eclipsed the California sunshine in our breasts.

We discover in the conclusion of such a sacred message to our Eastern brethren the silent summons to return our minds to this occasion and this place. Surprising, yet pleasing, is the discovery that when our minds concentrate again upon this occasion and its cause, the desolating touch of sadness and sorrow begins to flee under the pursuit of a strange enjoyment. This feeling cannot be analyzed except through the reinforcement which comparison may afford.

None can stand on the seashore and watch the distant incoming waves, their dancing crests sparkling in the jewels that seem kisses stamped there by the tender and softened light of the stars, without feeling happiness in the thought that such beauty will come rolling and smiling shoreward forever.

None can gaze upon the hillsides through the sweetened air of springtime and see the manifold bloom that a great God has unfolded, like a gorgeous carpet, without the entrancing reflection that such vision is to be repeated through countless centuries.

None can look upward to the sublime heavens and feast his soul upon the distant diamonds, that seem like angels' eyes, without rejoicing in the knowledge that this shining coronet belongs to all time and all generations.

Inspired by these feelings that captivate the heart and command the intellect, it is appropriate to seek their relatives in history.

Whenever peril, from either within or without, has appeared against our country, the emergency has always sent out in freedom's vanguard the man or the men for the hour. We have had our Warren, and our Washington; we have had our Lawrence, and our Sumter; we have had our Patrick Henry, and our Harry Lee, we have had our Winfield Scott, and our Farragut, we have had our Grant, our Sherman, and our Sheridan, and also our Webster, our Clay, and our Calhoun.

Yet, to no heart pulsating on our soil has ever come inconsolable sorrow that these men lived, or that in the fullness of their years and their honors they bowed to heaven's decree and died.

In her great and matchless names we may see the supreme safety of the Stars and Stripes, and the unbroken ramparts that stand eternal guard around the Union of the States.

We may then appropriately feel that, in tendering our tribute to the great dead, we are but lifting their names to an immortal station in the cloudless sky of our Nation's love.

We may upon such occasion take selfish payment for our own action in the reward for which reason furnishes security that the uncounted generations yet hidden behind the future's mystic curtains, will ever turn their patriot eyes upon the name we are humbly striving to distinguish to-day.

No Nation can sustain itself without some source of patriotism which inspires the young people of the land.

When the true American statesman, in the evening of his impaired strength, turns his failing eyes toward the temple of American liberty, and feels the stronger beating of his dying heart, his patriotic hope will always gather about it the raiment which falls as gently as a snowflake and as welcome as a sunbeam from the shining names of his country's fallen and buried guides.

Without the name and record of Washington how could we teach our boys the inspiring lesson which has sent our flag like the rainbow of promise before all liberty-loving people on earth?

Without Captain Lawrence how could we explain to our growing sons the story that no flag can fall which is supported by salutation coming through the frosts of death as they seek to seal and lock the lips?

Without Marion how could we hope that young American eyes would open like full moons as their memory lifts the great story of his sacrifices into a monument forever dedicated to the cause of freedom?

Without Webster and Clay, Calhoun and Corwin, Lincoln and Sumner, Benton and Douglas, where will we go to arouse the sleeping eloquence of the romping and smiling children, now our thoughtless heirs, yet soon to be our dignified successors?

And to-day let us find enjoyment in the knowledge that James Gillespie Blaine has

risen above death to the sublime station from whence his brilliant qualities and his untiring devotion to the American Union will always send a blessing down to electrify the young American and to persuade him to noble action.

To the constellation of great Americans we must now consent to send its newest, if not, indeed, its best and brightest jewel. There let that name live, shedding the stimulating rays of its own deserving upon the growing millions which are to lead this nation upward and onward to undying fame.

Some time in tamer hours it may be proper to recall the fact that Mr. Blaine was born in West Brownsville, Washington County, Pennsylvania, on January 31, 1830. Certainly it is not inappropriate to say that the Irish people, whose blood and brawn have been brave and free on every field that has heard the voice of freedom for a thousand years, furnished Mr. Blaine his honored parentage. But when he was born his country was the world, and his relatives were the decent inhabitants of all civilized countries.

Mr. Blaine's education was like his superb ambition. It was broad, expansive, and completely American.

What satisfied so many minds was but the budding of hope in him. His fine literary inclination led him to journalism, and journalism led him to his long-loved State of Maine. His remarkable talent for successful discussion upon great National problems enticed him into the noisy and active battle of politics, and there he soon became the leading knight, whose banner always measured the course of march, and whose clarion voice always sounded reviving music to the sinking hopes of his followers.

Naturally he was sent to Congress, and there he found a wider field for his unrivaled powers, and, as easily as he had conquered in smaller stations, he won his triumphs in the new and greater.

The marked features of his Congressional career are in the brilliant and dashing method of winning victory from apparently hopeless conditions. He was the triumphant Alexander of political campaigns, the unequalled Bonaparte of debate; yet he was ever the hero of mercy to a fallen cause or a beaten antagonist.

Some there are who embrace the very excess of celebration in the hour of triumph, but Blaine was too tender of the feelings of those whom his victories had prostrated to ever smile in their presence at his own successes.

Thus it was an open way for him to stand a welcome visitor at the hearts of his adversaries. Beyond the confines of our beloved country his name became a symbol of fear to those who meant us harm. In foreign countries he excited mingled surprise and admiration in the ranks of those trained and veteran diplomats whose opinions are worthy of quotation. To Gladstone and Salisbury at London, to Bismarck and Caprivi at Berlin, to Gortchakoff at St. Petersburg, and to Andrassy at Vienna, he introduced the fresh and lustrous vigor of diplomacy, which came with a glittering shield and polished helmet from the West.

All Americans have been proud to concede that Blaine was one of the most ardent lovers of America that any generation produced. But some have doubted whether his great heart was endowed with that sentiment and poesy which go out like the bubbling waters of a crystal spring to our famous fellow-countrymen. An insight to his heart in this regard is afforded by the beautiful closing words which Blaine uttered in memory of his friend, the lamented Garfield.

I quote them now because they uncover the tender heart that lay within the breast of James G. Blaine:

"Masterful in his mortal weakness, he became the center of a nation's love, enshrined in the prayers of a world. But all the love and all the sympathy could not share with him his suffering. He trod the wine press alone. With unflinching front he faced death. With unflinching tenderness he took leave of life. Above the demoniac hiss of the assassin's bullet he heard the voice of God. With simple resignation he bowed to the divine decree.

"As the end drew near, his early craving for the sea returned. The stately mansion of power had been to him the wearisome hospital of pain, and he begged to be taken from his prison walls, from its oppressive, stifling air, from its homelessness and its hopelessness. Gently, silently, the love of a great people bore the pale sufferer to the longed-for healing of the sea—to live or to die, as God should will, within sight of its heaving billows, within sound of its manifold voices. With wan, fevered face tenderly lifted to the cooling breeze, he looked out wistfully upon the ocean's changing wonders; on its fair sails, whitening in the morning light, on its restless waves, rolling shoreward, to break and die beneath the noonday sun, on the red clouds of evening, arching low to the horizon; on the serene and shining pathway of the stars. Let us think that his dying eyes read a mystic meaning which only the rapt and parting soul may know. Let us believe that in the silence of the receding world he heard the great waves breaking on a farther shore, and felt already upon his wasted brow the breath of the eternal morning."

In conclusion, let us remember that Blaine's great soul, like Garfield's, has floated above into the eternal rewards that fall upon good men's heads, in that union which is around the throne of God.

Like Garfield, he has left the pains of earth for a glorious destiny. Like the name of Garfield, his name has ascended to the zenith of American fame, and there it will shine forever, inspiring the flower of American manhood to hasten to the front on that broad and splendid highway which leads to the best permanent progress for the American Union.

The Judiciary Committee offered the following Committee Substitute for Assembly Constitutional Amendment No. 2:

COMMITTEE SUBSTITUTE FOR ASSEMBLY CONSTITUTIONAL AMENDMENT No. 2.

A resolution to propose to the people of the State of California an amendment to the Constitution of the State, relative to revenue and taxation.

Resolved, That the Legislature of the State of California, at its regular thirtieth session, commencing on the second day of January, A. D. eighteen hundred and ninety-three, two thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby propose that article thirteen of the Constitution of the State of California be amended to read as follows.

ARTICLE 13—REVENUE AND TAXATION.

SECTION 1. The Legislature shall provide for the levying of taxes and raising of revenue, and the collection of the same, in the manner which it deems to be just, subject, however, to the provisions of this article.

SEC. 2 All taxes shall be uniform upon the same class of subjects within the territorial limits of the authority levying the tax, and shall be levied and collected, and assessments made under general laws.

SEC. 3 Land, and the improvements thereon, shall be separately assessed. Cultivated and uncultivated land of the same quality, and similarly situated, shall be assessed at the same value.

SEC. 4 Every tract of land containing more than six hundred and forty acres, and which has been sectionized by the United States Government, shall be assessed, for the purposes of taxation, by sections or fractions of sections. The Legislature shall provide by law for the assessment, in small tracts, of all lands not sectionized by the United States Government.

SEC. 5 The word property, for the purposes of taxation, is hereby declared to include moneys, credits, bonds, stocks, dues, franchises, notes, mortgages, evidences of indebtedness, solvent debts, and everything capable of transfer or ownership. Growing crops, property used exclusively for public schools, and such as may belong to the United States, this State, or to any county or township, city and county, or city or town, within this State, shall be exempt from taxation. The Legislature may, in its discretion, provide for a reduction from the value of any property of the debts due from the owner of the property.

SEC. 6. The power of taxation shall never be surrendered or suspended by any grant or contract to which the State shall be a party.

SEC. 7. The Legislature shall have the power to provide by law for the payment of all taxes on real property by installments.

SEC. 8. The Legislature shall by law require each taxpayer in this State to make and deliver to the County Assessor annually a statement, under oath, setting forth specifically all the real and personal property owned by such taxpayer, or in his possession, or under his control, at twelve o'clock M., on the first Monday of March.

SEC. 9. A State Board of Equalization, consisting of one member from each Congressional District in this State, shall be elected by the qualified electors of their respective districts, at the first general election to be held after the adoption of this amendment, and at each general election every four years thereafter, whose term of office shall be four years, whose duty it shall be to equalize the valuation of the taxable property in the several counties of the State for the purpose of taxation. The Boards of Supervisors of the several counties of the State shall constitute Boards of Equalization for their respective counties, whose duty it shall be to equalize the valuation of the taxable property in the county for the purpose of taxation; *provided*, such State and County Boards of Equalization are hereby authorized and empowered, under such rules of notice as the State Board may prescribe as to the action of the State Board, to increase or lower the entire assessment roll, or any assessment contained therein, so as to equalize the assessment of the property contained in said assessment roll, and make the assessment conform to the true value in money of the property contained in said roll; *provided*, that no Board of Equalization shall raise any mortgage, deed of trust, contract, or other obligation by which a debt is secured, money, or solvent credits, above its face value. The State Board of Equalization elected in eighteen hundred and ninety-four shall continue in office until their successors, as herein provided for, shall be elected and shall qualify.

All taxes levied by or under the authority of the laws of this State, shall constitute liens upon the property above mentioned in this section, at the same time, in the same manner, and with the same effect as upon other kinds of property, and the taxes upon the property above mentioned in this section shall become due and delinquent at the same time, respectively, as taxes upon other kinds of property. Delinquent taxes upon such property shall be collected in the manner prescribed by law.

SEC. 11. Income taxes may be assessed to and collected from persons, corporations, joint-stock associations, or companies resident or doing business in this State, or any one or more of them, in such cases and amounts, and in such manner as shall be prescribed by law.

REPORTS OF STANDING COMMITTEES.

ON WAYS AND MEANS.

ASSEMBLY CHAMBER, SACRAMENTO, February 21, 1893.

MR. SPEAKER: Your Committee on Ways and Means, to whom was referred Senate Bill No. 480—have had the same under consideration, and report the same back with a recommendation that it do pass, and that it be substituted for Assembly Bill No. 483.

Also: Senate Bill No. 320—have had the same under consideration, and respectfully report the same back, and recommend that it do pass, and be substituted for Assembly Bill No. 319.

W. P. MATHEWS, Chairman.

So ordered.

Also:

ASSEMBLY CHAMBER, SACRAMENTO, February 23, 1893.

MR. SPEAKER: Your Committee on Ways and Means begs leave to submit the following report concerning the amount of appropriations recommended:

The General Appropriation Bill, according to estimates made by the committee, foots up in round numbers \$4,461,490. To this must be added not less than \$300,000 for the coyote scalp bounty, which is the lowest estimate possible, even if the law should be amended reducing the bounty by one half. Other estimates are as follows: For orphans, half orphans, etc., \$560,000, for aged persons in indigent circumstances, \$510,000, for inmates in Veterans' Home, \$60,000; for School Fund estimates, \$4,114,558.

If the committee's estimates are accepted, the following represents the aggregate amount of the appropriations necessary to defray the expenses of the State government for the forty-fifth and forty-sixth fiscal years:

Total General Fund estimates.....	\$5,891,490 00
School Fund estimates.....	4,114,558 00

Total.....	\$10,006,048 00
------------	-----------------

The Controller's estimates for the same purpose aggregate \$9,775,448; but he did not include certain necessary appropriations, which have been recommended by the committee, as follows:

Support Viticultural Commission.....	\$30,000 00
Salaries State Library officials.....	15,360 00
Military.....	3,500 00
Maintenance Mendocino Asylum.....	70,000 00
Maintenance Southern California Asylum.....	50,000 00
Maintenance Whittier Reform School.....	160,000 00
Maintenance Preston Reform School.....	70,000 00

Total.....	\$308,860 00
------------	--------------

With these necessary appropriations added to the Controller's estimates, we have an aggregate of \$10,174,308.

The committee, in determining its estimates, cut out certain appropriations required by law which will not be necessary if certain pending legislation is enacted. It is not safe to reckon on reducing the expenditures in this manner, however, and it is probable that the calculations ought to be based on the Controller's estimates.

Your committee is of the opinion that it will be necessary to appropriate, in round numbers, \$800,000, for new buildings. We have recommended an appropriation of \$120,000 to pay the outstanding indebtedness, and of \$68,325 to pay interest on outstanding bonds held in trust for the benefit of the State School and University Funds. We have also recommended sundry appropriations, aggregating in round numbers \$400,000, swelling the grand total to \$11,562,633. In making the tax levy, a deficiency that now exists in the General Fund, and which amounts in round numbers to \$250,000, must be provided for. The tax levy must therefore be large enough to raise a revenue of \$11,812,633.

The following recapitulation will give a definite idea of the aggregate amount of the appropriations necessary, if the recommendations of your committee are adopted:

General Fund estimates in General Appropriation Bill.....	\$6,059,750 00
School Fund.....	4,114,558 00
New buildings.....	800,000 00
To refund debt.....	120,000 00
To pay interest.....	68,325 00
Sundry appropriations.....	400,000 00
Deficiency in General Fund.....	250,000 00

Total.....	\$11,812,633 00
------------	-----------------

The assessable property of the State in 1892 amounted to \$1,275,816,223. There is a permanent tax of 1 cent for the support of the University. A tax levy of 49 cents, after

deducting the 9½ per cent for delinquencies, etc., as provided by law, will raise for two years \$11,315,214 14. It will thus be seen that the amount of appropriations already recommended exceeds the amount that can be raised by a 50-cent tax levy by nearly \$500,000.

Your committee earnestly calls attention to the fact that, in order to keep the appropriations within the 50-cent limit, it will be necessary to cut down appropriations already recommended favorably by nearly \$500,000, and it will also be necessary to defeat all measures involving appropriations not approved by this committee.

An Act regulating the sale of the lands uncovered by the recession or drainage of the waters of inland lakes, and unsegregated swamp and overflowed lands, and validating sales and surveys heretofore made.

The People of the State of California, represented in Senate and Assembly, do enact as follows :

SECTION 1. Any person desiring to purchase any of the lands uncovered by the recession or drainage of the waters of inland lakes, and inuring to the State by virtue of her sovereignty, or the swamp and overflowed lands not segregated by the United States, shall make an application therefor to the Surveyor-General of the State, which application shall be accompanied by applicant's affidavit that he is a citizen of the United States, or has declared his intention to become such, a resident of this State, of lawful age, that he desires to purchase such lands (describing the same by legal subdivisions, or by metes and bounds if the legal subdivisions are unknown) under the provisions of this Act, that he desires to purchase the same for his own use and benefit, and for the use and benefit of no other person or persons whomsoever, and that he has made no contract or agreement to sell the same, and that he does not own any State lands which, together with that now sought to be purchased, exceeds six hundred and forty acres.

SEC 2 Upon the filing of said application, the Surveyor-General, when the land has not been sectionized, shall authorize the County Surveyor of the county where the whole or the greater portion of the land lies, to survey the same, who shall make an actual survey thereof, at the expense of the applicant, establishing four corners to each quarter section, and connecting the same with a United States survey; and he must, within thirty days, file with the Surveyor-General a copy, under oath, of his field notes and plat, and a statement, under oath, showing whether or not the land is occupied by any actual settler.

SEC 3. If the surveyor thus authorized shall fail to make his return to the Surveyor-General within the time specified in the preceding section, the Surveyor-General may designate another person to make the said survey.

SEC 4 No application to purchase land under this Act shall be approved by the Surveyor-General until the expiration of ninety days from the filing thereof in his office, and meanwhile the land shall be subject to the adverse claim of any actual settler who has resided thereon when the said application was filed.

SEC 5 The swamp and overflowed lands designated in this Act shall be sold and patented at the same price, and on the same terms and manner of payment as at present provided for swamp and overflowed lands. All moneys received for said swamp and overflowed lands shall be paid into the Swamp Land Fund of the county in which the lands are situated, and shall be treated and disposed of in the manner as moneys arising from the sale of segregated swamp and overflowed lands. If any of the lands are suitable for cultivation without reclamation, such lands shall be sold only to actual settlers in tracts not exceeding three hundred and twenty acres. Lands uncovered by the recession or drainage of the waters of inland lakes shall be sold at two dollars and fifty cents per acre, upon the same terms of payment as for swamp and overflowed land. All moneys derived from the sale of such uncovered lands shall be paid into the School Fund of the county where the land lies.

SEC 6. Any of the lands designated in this Act, which, by reason of periodical overflow, need and are susceptible of reclamation, may be reclaimed by the formation of districts, in the same manner and subject to all of the provisions of law regulating the reclamation of swamp and overflowed lands, *provided*, that the Board of Supervisors of the county in which the lands, or the greater part thereof, are situated, must first determine, upon proper petition presented therefor, by the holders of the title, or evidence of title, representing one half or more of any body of such land, that such reclamation is necessary and feasible.

SEC 7. When land has been sold under this Act, no contest shall be maintained against the purchaser on the ground that the land is not of the character stated in the application.

SEC 8. All uncanceled certificates of purchase and patents heretofore issued, and payments heretofore made, for any lands as swamp and overflowed lands, which lands

belong to any of the classes described in section one of this Act, whether or not such lands were segregated or sectionized, shall, for all purposes, be valid, and shall have the same force and effect as if such lands had been at all times subject to sale as swamp and overflowed lands; *provided, however*, that any and all contests now existing between settlers and holders of certificates of purchase shall not be affected by the provisions of this Act.

SEC 9. All plats of any of the lands described in section one of this Act, which have been heretofore made under authority of the United States Surveyor-General, and which plats designate the same as swamp and overflowed lands, shall be deemed valid and effectual as surveys of such lands from and after the date thereof.

REPORTS OF STANDING COMMITTEES—(RESUMED).

ON WAYS AND MEANS.

ASSEMBLY CHAMBER, SACRAMENTO, February 25, 1893.

MR. SPEAKER: Your Committee on Ways and Means submitted a report on February 24th, in which it was shown in detail that the amount of appropriations already recommended exceeds the amount that can be raised by a fifty-cent tax levy by nearly five hundred thousand dollars.

Your committee desires to supplement that report with the statement that the estimates made therein did not include one hundred and forty-one thousand four hundred and thirty-five dollars for the Interest and Sinking Fund for the forty-fifth fiscal year, and a similar amount for the forty-sixth fiscal year. It will thus be seen that if appropriations already recommended are made the amount that a tax levy of fifty cents will produce will be exceeded by nearly eight hundred thousand dollars.

The School Superintendent in each county must apportion all State and county school moneys as follows:

First—He must ascertain the number of teachers each district is entitled to by calculating one teacher for every seventy school census children, or fraction thereof, not less than twenty school census children, as shown by the next preceding school census, *provided*, that all children in any asylum and not attending the public schools, of whom the authorities of said asylum are the guardians, shall not be included in making the estimate of the number of teachers to which the district in which the asylum is located is entitled.

Second—He must ascertain the total number of teachers for the county, by adding together the number of teachers assigned to the several districts.

Third—Five hundred dollars shall be apportioned to each district for every teacher assigned to it; *provided*, that to districts having ten and less than twenty school census children, shall be apportioned four hundred dollars, *provided further*, that to districts having over seventy school census children and a fraction of less than twenty, there shall be apportioned twenty dollars for each census child in said fraction.

Fourth—All school money remaining on hand after apportioning to the districts the moneys provided for in subdivision three of this section, must be apportioned to the several districts in proportion to the average daily attendance in each district during the preceding school year. Census children, wherever mentioned in this chapter, shall be construed to mean those between the ages of five and seventeen years.

Fifth—Whenever, in any school year, prior to the receipt by the counties, cities, or cities and counties of this State, of their State, County, or City School Fund, the school districts or cities shall not have sufficient money to their credit to pay the lawful demands against them, the County, City, or City and County Superintendent shall give the Treasurer of said county, city, or city and county, an estimate of the amount of school money that will next be paid into the County, City, or City and County Treasury, stating the amount to be apportioned to each district. Upon the receipt of such estimate, it shall be the duty of the Treasurer of said county, city, or city and county, to transfer from any fund not immediately needed to pay claims against it, to the proper School Fund, an amount not to exceed ninety per cent of the amount estimated by the Superintendent, and he shall immediately notify the Superintendent of the amount so transferred. The funds so transferred to the School Fund shall be re-transferred by the Treasurer to the fund from which they were taken, from the first money paid into the School Fund after the transfer.

1874. In the adoption of text-books, all County, City, and City and County Boards of Education shall be governed by the following rules:

First—Any books hereafter adopted as a part of a uniform series of text-books must be continued in use for not less than four years.

Second—No change of text-books must be made at any other time than in the months of May or June of the year in which the change is made, and no changes shall be made to take effect till the beginning of the school term commencing after the thirtieth day of June of that year; and no books other than those published by the State shall be adopted by the Board of Education of any county, city, city and county, or be used as text-books in any of the public schools of this State in the subjects of reading, orthography, English grammar, arithmetic, geography, United States history, physiology, and civil government.

Third—At least sixty days' notice of any proposed change in text-books must be given by publication in a newspaper of general circulation, published in the county, if there be one, in which such change is to be made. If there be no newspaper published in the county, then such publication shall be made in any newspaper having a general circulation in the county. A copy of the newspaper containing such publication, with such notice marked, must, immediately after the first publication thereof, be by the Secretary of the Board transmitted to the State Board of Education, and the same, when received, must be filed by the Secretary of said State Board. Said notice shall state what text-books it is proposed to change; that sealed bids or proposals will be received by the Board for furnishing books to replace them, the place where and the day and hour when all bids or proposals will be opened, and that the Board reserves the right to reject any and all bids or proposals. Seventh—The publisher or publishers whose proposals shall be accepted, must enter into a written contract with the Board of Education making the award, and shall give a good and sufficient bond in a reasonable sum, to be fixed by the Board of Education, for the faithful performance thereof. Publishers of books already in use may bid under the provisions of this section as well as others, and such bids, if satisfactory, may be accepted by the Board.

Eighth—High schools shall be exempt from the provisions of this section.

Third—Whenever any City, City and County, or County Board of Education shall present to the State Board of Education a recommendation showing that the holder of a Normal School diploma has had a successful experience of two years in the public schools of this State subsequent to the granting of such diploma, the State Board of Education shall grant to the holder thereof a document signed by the President and Secretary of the State Board, showing such fact, the said diploma accompanied by said document of the State Board attached thereto, shall become a permanent certificate of qualification to teach in any primary or grammar school in the State, valid until such time as the said diploma may be revoked, as provided in subdivision thirteen of section fourteen hundred and eighty-nine of this Code.

Fourth—Upon presentation of the diploma and document referred to in subdivision third of this section to any City, City and County, or County Superintendent of Schools, said Superintendent shall record the name of the holder thereof in a book provided for that purpose in his office, and the holder thereof shall thenceforth be absolved from the requirement of subdivision first of section sixteen hundred and ninety-six of this Code.

Fifth—Said diploma of graduation from any Normal School in this State when accompanied by a certificate, granted by the Faculty of the State University, showing that the holder thereof, subsequent to receiving said diploma, has successfully completed the prescribed course of instruction in the Pedagogical Department of the State University, shall entitle the holder to a high school certificate, authorizing the holder to teach in any primary or grammar school, and in any high school in this State, except those in which the holder would be required to teach languages other than the English.

SEC. 71 There is hereby added to the Political Code of the State of California three new sections, to be known and numbered as sections one thousand six hundred and sixty-nine, one thousand six hundred and seventy, and one thousand six hundred and seventy-one. Said sections shall read as follows:

Section 1669. High schools may be established and maintained in the manner provided in sections one thousand six hundred and seventy and one thousand six hundred and seventy-one of the Political Code.

Section 1670 *First*—Any city, incorporated town, or school district having a population of one thousand inhabitants or more, may, by a majority vote of the qualified electors voting at the election held for the purpose of determining the establishment and maintenance of such high school, establish and maintain a high school at the expense of such city, incorporated town, or school district.

Second—Whenever a majority of the heads of families, as shown by the last preceding school census, in any city, incorporated town, or school district, having one thousand or more inhabitants, shall unite in a petition to the Board of Education, or Board of School Trustees of said city, incorporated town, or school district, for the establishing and maintaining of a high school therein, said Board of Education or Board of School Trustees shall petition the County Superintendent of Schools to call an election in said city, incorporated town, or school district, for the determination of the question.

Third—Within twenty days after receiving said petition from said Board of Education or Board of School Trustees, the County Superintendent of Schools shall call an election therein for the determination of the question, and shall appoint three qualified electors thereof to conduct said election. Said election shall be called by posting notice thereof in five of the most public places in said city, incorporated town, or school district, and by publication in a daily or weekly paper therein, if there be one, for not less than fifteen days. Said election shall be conducted in the manner prescribed for conducting school elections. The ballots at such elections shall contain the words "For High School," and the voter shall write or print after said words on his ballot the word "Yes" or the word "No." It shall be the duty of said election officers to report the result of said election to the County Superintendent of Schools within ten days subsequent to the holding thereof.

Fourth—When a majority in each district, as shown by the last preceding school census, of the heads of families residing in two or more school districts in the same county shall unite in a petition to the County Superintendent of Schools for the establishing and maintaining of a union high school district, he shall, within twenty days after receiving said petition, call an election for the determination of the question, and shall appoint three qualified electors in each of the districts petitioning to conduct the election therein. Said election shall be held separately and simultaneously at the public school house in each of the districts petitioning, and shall be called by posting notices thereof in three of the most public places in each district, one of which places shall be the public school house in each district, at least ten days before said election. Said election shall be conducted by the officers appointed for that purpose, in the manner provided by law for conducting school elections. The ballots at such election in each district shall contain the words "For the Union High School," and the voter shall write or print after said words on his ballot the word "Yes" or the word "No." It shall be the duty of the said election officers in each district to canvass the vote at said election, and

report the result to the County Superintendent of Schools within five days subsequent to the holding of said election.

Fifth—If a majority of the votes cast in the election provided for in subdivision three of this section in said city, incorporated town, or school district shall be in favor of establishing and maintaining a high school therein, it shall be the duty of the County Superintendent to call a meeting of the Board of Education or Board of School Trustees of said city, incorporated town, or school district, within fifteen days after receiving the returns of the election held therein, by giving at least ten days' notice, in writing, to every member of said Board of Education or Board of School Trustees. The Board of Education or Board of School Trustees shall, at said meeting, determine the location and the name of the high school.

Sixth—If a majority of the votes cast in the districts petitioning for a union high school shall, in the aggregate, be in favor of establishing and maintaining a union high school therein, the County Superintendent shall, within fifteen days after receiving the returns of the election held therein, direct the Board of School Trustees in each of said districts to call a meeting of the qualified electors of their respective districts, in the manner provided in subdivision twenty of section sixteen hundred and seventeen of the Political Code. At said meeting the qualified electors shall in each district select three representatives. The representatives so chosen shall meet in conjunction with the County Superintendent of Schools at a time and place to be named by the Superintendent, for the purpose of determining the location and name of the union high school. At such meeting the Superintendent shall be the Chairman, and shall be entitled to vote and participate in all its proceedings. No change of location of any high school, when once established, shall be made except upon a petition to the County Superintendent of Schools, signed by two thirds of the heads of families of the high school district, and then only in accordance with all of the provisions for the original location of the school as contained in subdivisions five and six of this section.

Seventh—In any city, incorporated town, or school district which shall have established a high school, the Board of Education or Board of School Trustees shall constitute the High School Board, and shall have the management and control of said high school.

Eighth—In union high school districts the High School Board shall be composed of the Clerks of the Boards of Trustees of the respective districts uniting; *provided*, that should the union high school district consist of but two school districts, the Union High School Board shall be composed of the Boards of Trustees of both said districts.

Ninth—The Union High School Board shall meet within ten days subsequent to the locating and naming of the union high school by the parties selected for that purpose, and shall organize by electing a President and a Clerk from their own number, to serve until the second Saturday of July next succeeding their election; and thereafter the Board shall meet and organize in the same manner on the second Saturday of July of each and every year.

Tenth—The respective High School Boards shall hold regular monthly meetings at the high school building, at such time as may be provided in the rules and regulations adopted by them for their own government. Special meetings may be held at the call of the President of the respective Boards. Upon the request, in writing, signed by a majority of any Board, the President of said Board shall call a meeting thereof. Of all special meetings of any Board the members thereof shall have at least two days' notice issued and served by the Clerk thereof. At special meetings no business shall be transacted other than as specified in the call therefor.

Eleventh—The powers and duties of the High School Boards shall be such as are now, or may hereafter be assigned by law to Boards of Education or Boards of School Trustees, including the provisions of sections one thousand eight hundred and eighty to one thousand eight hundred and eighty-eight, inclusive, of the Political Code, relating to the voting and issuance of bonds, except as otherwise provided in this section.

Twelfth—The course of studies for the respective high schools shall be prepared by the High School Board, and, except in cities and incorporated towns, shall be subject to the approval of the County Board of Education. Said course of study shall embrace a period of not less than three years, and it shall be such as will prepare graduates therein for admission into the State University. The text-books to be used shall be adopted by the High School Board, subject to the same restriction as is provided for the adoption of the course of study. The State series shall be used in grades and classes for which they may be adapted.

Thirteenth—Graduates of the grammar schools shall be admitted to the high schools without examination. Other applicants of the high school district may be admitted in accordance with such rules as may be prescribed by the High School Board. The High School Board may admit pupils not residing in any high school district, upon the payment of such tuition fees as they may deem proper, and all moneys collected from this source shall be paid into the fund provided for the support of the high school.

Fourteenth—In any city, incorporated town, school district, or union high school district which shall have voted to establish and maintain a high school, it shall be the duty of the High School Board therein to furnish to the authorities whose duty it is to levy taxes, on or before the second Monday of September, an estimate of the cost of purchasing a suitable lot, of procuring plans and specifications, and erecting a suitable building, of furnishing the same, and of fencing and ornamenting the grounds for the accommodation of the school, and of conducting the school for the school year. It shall be the duty of said Board, each and every year thereafter, to present to said

authorities, on or before the second Monday of September, an estimate of the amount of money required for conducting the school for the school year.

Fifteenth—When such estimate shall have been made, it shall be the duty of the authorities in said city, incorporated town, school district or union high school district, to levy a special tax upon all of the taxable property of said city, incorporated town, school district, or union high school district, sufficient to raise the amount required by said High School Board, as shown by said estimate. Said tax shall be computed, entered upon the tax roll, and collected in the same manner as other taxes are computed, entered, and collected.

Sixteenth—Should the High School Board of any city, incorporated town, school district, or union high school district refuse or neglect to make the estimate provided for in subdivision fourteen of this section, it shall be the duty of the Superintendent of Schools, upon the petition of five qualified electors thereof, to make such estimate.

Seventeenth—Should the authorities whose duty it is to levy the tax, as provided in subdivision fifteen of this section, refuse or neglect to make the levy provided for, it shall be the duty of the County Auditor to make such levy, and add it to the tax roll of said city, incorporated town, school district, or union high school district.

Eighteenth—All moneys collected from the levy of the tax provided for by this section shall be paid in cities and incorporated towns into the treasury thereof, to the credit of the High School Fund; and said moneys shall be paid out by the Treasurers of said cities or towns upon the warrants of the High School Board, signed by the President and Clerk thereof.

Nineteenth—All moneys collected from said levy in school districts, or union high school districts, shall be paid into the County Treasury to the credit of the District High School Fund, or the Union High School Fund, respectively, and shall be paid out on the order of the High School Board, signed by the President and Clerk thereof, as other school moneys are paid out.

Twentieth—Nothing in this section shall be construed as preventing all of the school districts in any county from uniting to form one or more county high schools; *provided*, that when any city, incorporated town, school district, or union high school district, shall vote to maintain a high school, such territory shall be exempt from taxation to support a county high school; *and provided further*, that when any city, incorporated town, school district, or union high school district, shall establish a high school, prior to the submission of the proposition to establish a county high school, the electors of such city, incorporated town, school district, or union high school district, shall be excluded from voting upon said proposition.

Twenty-first—When the boundaries of school districts shall for any cause be changed, such change shall not affect the high school district.

Twenty-second—Any school district adjacent to a high school district may be admitted to said high school district by action of the Board of Supervisors of the county, upon such terms as may be agreed upon between the Trustees of the school district seeking admission, and the High School Board, whenever a majority of the heads of families, as shown by the last preceding school census, shall present to said Board of Supervisors a petition for such annexation, accompanied by a petition signed by a majority of the members composing the High School Board of the district to which admission is desired.

Twenty-third—When the average daily attendance of pupils in any high school during the whole of any school year, after the first school year, shall be ten, or less than ten, the Superintendent of Schools shall suspend the school in said district, and shall report the fact to the Board of Supervisors. Upon receiving such report from the Superintendent, the Board of Supervisors shall declare the high school lapsed, and shall cause the property thereof to be sold. All moneys received from the sale of the property of the high school district, and all moneys in the treasury to the credit of said high school, shall be distributed by the County Superintendent to the districts composing the high school district, in proportion to the assessed valuation of property in said district.

Twenty-fourth—When, in consequence of distance or of convenience in traveling, it is more convenient for pupils residing in any high school district to attend the high school in another high school district, the High School Board of the latter district may admit such pupils to the high school in their district. The High School Board in the district in which such pupils reside, shall, upon demand, give to the High School Board of the district in which such pupils attend, a warrant upon the fund of their district in payment of the tuition of said pupils, equal to the amount charged for the tuition of non-resident pupils, as provided in subdivision thirteen of this section.

Twenty-fifth—(1) When a majority of the heads of families residing in two or more adjacent districts, not in the same county, shall unite in a petition to the County Superintendents of their respective counties for the establishing and maintaining of a joint union high school district, it shall be the duty of said Superintendent, within twenty days after receiving said petition, to call an election in the district or districts in his county petitioning, for the purpose of determining the question, and appoint three qualified electors in each district petitioning, to conduct the election therein. Said election shall be called and conducted in all respects as specified in subdivision fourth of this section, and the result thereof shall be reported by the election officers in each district to the Superintendents of the counties in which the districts are situated, within five days subsequent to the holding of said election.

(2) If a majority of the votes cast in the district shall, in the aggregate, be in favor of establishing a joint union high school, the County Superintendent in each county shall, within fifteen days after receiving the returns of the election, direct the Board of

Trustees in the district or districts, in his respective county, to call a meeting of the qualified electors, as provided in subdivision sixth of this section. At said meeting the qualified electors in each district shall select representatives, as provided in said subdivision. The representatives so chosen shall meet at a time and place, to be agreed upon among themselves, for the purpose of determining the location and name of the school.

(3) The Joint Union High School Board shall be composed as provided in subdivision eighth of this section, and their powers and duties shall be such as are specified in this section for Union High School Boards, *provided*, that the estimate provided for in subdivision fourteenth of this section shall be furnished to the authorities in each of the counties in which the districts uniting are situated, and *provided further*, that the portion of such estimate to be raised in each district shall be in proportion to the taxable property therein, as shown by the last preceding assessment roll thereof.

(4) All the provisions relative to the levy and collection of the tax necessary to raise the amount estimated as provided, shall apply to the levy and collection of the tax for joint union high schools, *provided*, that the amount collected in each district shall be paid into the treasury of the county in which said district is located, to the credit of a fund to be known as the Joint Union High School Fund, and shall be paid out as provided in subdivision nineteenth of this section.

1671 *First*—There may be established in any county in this State, one or more county high schools; *provided*, that at any general or special election held in said county after the passage of this Act, a majority of all the votes cast at such election, upon the proposition to establish a high school, shall be in favor of establishing and maintaining such county high school or schools at the expense of said county.

Second—The Board of Supervisors, at any general election to be held in any county after the passage of this Act, upon the presentation of a petition signed by fifty or more qualified electors, taxpayers of said county, must submit the question of establishing and maintaining a county high school to the qualified electors thereof. The Board of Supervisors, if they deem it expedient, may order a special election for such purpose. Said election shall be conducted in the manner prescribed by law for conducting elections. The ballots at such election shall contain the words "For County High School;" and the voter shall write or print thereafter on the ballot the word "Yes" or the word "No."

Third—If the majority of all the votes cast on the proposition to establish a county high school are in the affirmative, it shall be the duty of the Board of Supervisors, within thirty days after canvassing said vote, to locate the school in some suitable and convenient place in said county. The Board of Supervisors shall also estimate the cost of purchasing a suitable lot, erecting a building, and furnishing the same, for the accommodation of such school, together with the cost of conducting such school for the next twelve months; *provided*, that the High School Board may rent suitable rooms for the accommodation of the school. If rooms can be obtained in public school buildings in the place in which said school shall be located, such rooms shall be given the preference.

Fourth—When such estimate shall have been made, the Board of Supervisors shall thereupon proceed to levy a special tax upon all of the assessable property of the county, except as provided in subdivision twentieth of section one thousand six hundred and seventy of the Political Code, sufficient to raise the amount estimated as necessary for the purchasing of a lot, procuring plans and specifications, erecting a building, furnishing the same, fencing and ornamenting the grounds, and the cost of running said school for the following twelve (12) months. Said tax shall be computed, entered on the tax roll, and collected in the same manner as other taxes are computed, entered, and collected, and the amount so collected shall be deposited in the County Treasury, and be known and designated as the County High School Fund, and shall be drawn from the treasury as other moneys so appropriated are drawn.

Fifth—When the Board of Supervisors shall have properly provided and completed the building, together with the necessary fencing of the lot so purchased, they shall cause the same to be deeded to the County Board of Education, who shall hold the same in trust for the county.

Sixth—It shall be the duty of the County Board of Education to furnish to the Board of Supervisors, annually, an estimate of the amount of money needed to pay all of the necessary expenses of running said school; to adopt the necessary text-books (the State series shall be used in grades and classes for which they are adapted), to adopt and enforce a course of study for said schools, to employ suitable teachers, janitors, and other employes, and discharge such employes when deemed advisable by them; and to do any and all other things necessary to the proper conduct of the school. The course of study shall be such as will, when it is completed by the student, fit him for admission to the University of California.

Seventh—It shall be the duty of the Board of Supervisors to include in their annual tax levy the amount estimated by the County Board of Education as needed to pay the expenses of conducting the county high school; and such amount, when collected and paid into the County Treasury, shall be known as the "County High School Fund," and may be drawn therefrom in the following manner, for the purpose of defraying the expenses of conducting said county high school: The County Board of Education shall draw their order on the County Superintendent of Schools, in the manner and form provided by law for School District Trustees drawing orders on their District School Funds, and the County Superintendent shall draw his requisition on the Auditor, who shall draw his warrant on the County Treasurer in favor of the person or persons

to whom the amount called for in such requisition is due. All orders, requisitions, and warrants drawn on the "County High School Fund," in all other respects, except as specified in this Act, shall be subject to the law governing school districts.

Eighth—In case the qualified electors of any county deem it expedient to establish and maintain more than one county high school, then such additional school or schools may be established and maintained in the manner prescribed in this Act for establishing and maintaining a county high school.

Ninth—All high schools shall be open for the admission of graduates holding diplomas from the county grammar schools of the county, and to all pupils of the county who can pass the examination for admission. The examination for admission shall be conducted by the County Board of Education and the Principal of the county high school.

Tenth—All proceedings for the establishment of county and union high schools had prior to the passage and approval of this Act, are hereby validated and declared legal; and said high schools shall continue, under the provisions of the law under which they were established, until the first day of July, one thousand eight hundred and ninety-three; thereafter they shall be conducted in accordance with the provisions of this Act.

SEC. 72. Sections one thousand seven hundred and fifty-seven and one thousand seven hundred and sixty-nine; and also "An Act to authorize the establishment of county high schools, and provide for their support," approved March the tenth, one thousand eight hundred and ninety-one, and "An Act to provide for the establishment of high schools in the State of California," approved March the twentieth, one thousand eight hundred and ninety-one, and Acts or parts of Acts in conflict with the provisions of this Act, are hereby repealed.

REPORT OF SPECIAL COMMITTEE.

MR. SPEAKER: Your special committee, consisting of four members of the Committee on Public Buildings and Grounds, who were directed by this House to visit various State institutions, beg leave to report that they visited the State Reform School at Whittier, and found it in splendid condition, so far as its management is concerned, but crowded to its full capacity, requiring, in the near future, that additional buildings shall be erected. Also visited the State Normal School situated at Los Angeles, and found it well conducted, and a credit to the State and to its Board of Directors. Also visited the State Insane Asylum at San Bernardino, and found the building well constructed and most pleasantly located.

Your committee also visited the Catholic Orphan Asylum in Los Angeles, which, though not a State institution, we deemed worthy of a visit from your committee, because of the fact that the State provides for the care and maintenance of the orphans and half orphans housed there. We found the entire building a model of neatness and in every way a credit to its management and an honor to the State, containing and caring for four hundred and twenty children ranging from one to twelve years of age.

In conclusion, your committee feel that the State, while appropriating large sums of money for the various educational and charitable institutions, can derive the satisfaction of knowing that it is well applied and intelligently expended, and that no taxpayer can have cause to object to these expenditures for the maintenance of our less fortunate people, and for the education of the youth of our State.

We deem it necessary that the appropriation asked for the Whittier Reform School and the Normal School in Los Angeles, also the asylum of San Bernardino, should be allowed.

CURTIS, Chairman.

RESOLUTION.

By Mr. Curtis:

Resolved, That John M. Curtis, J. G. Gallagher, J. M. LaRue, and S. J. Duckworth, the special committee of the Committee on Public Buildings and Grounds, who were directed to visit the State Reform School at Whittier, also the State Normal School at Los Angeles; also the State Insane Asylum at San Bernardino, be allowed the following sums as mileage:

John M. Curtis	\$126 60
J. G. Gallagher	126 60
J. M. LaRue	126 60
S. J. Duckworth	126 60

And the Controller of State is hereby directed to draw his warrant on the Contingent Fund of the Assembly in their favor, and the State Treasurer is hereby directed to pay the same.

CURTIS, Chairman

MR. SPEAKER: Your Committee on Public Morals, to whom was referred Senate Bill No. 438—An Act making it unlawful to refuse admission to places of amusement—have had the same under consideration, and we find that under the law, as it now stands, no person conducting himself in a lawful manner can be legally excluded from any place of amusement, who presents a valid ticket of admission thereto, and any person so excluded has a right of action for damages. REPORTS OF STANDING COMMITTEES.

ON STATE PRISONS AND REFORMATORY INSTITUTIONS.

ASSEMBLY CHAMBER, SACRAMENTO, March 1, 1893.

MR SPEAKER: Your Committee on State Prisons and Reformatory Institutions, to whom was referred Senate Bill No 463—An Act directing the State Prison Directors of the State of California to employ at least twenty prisoners in the construction of roads to the State Prison at San Quentin—have had the same under consideration, and respectfully report the same back, and recommend that it do pass.

ON PUBLIC BUILDINGS AND GROUNDS

ASSEMBLY CHAMBER, SACRAMENTO, March 1, 1893.

MR SPEAKER: Your Special Committee on Public Buildings and Grounds, to whom was referred the investigation of the charges preferred against the contractors of the Home of the Feeble-Minded at Glen Ellen, Sonoma County, herewith submit the inclosed report—have had the same under consideration, and respectfully report the same back, and recommend that it do pass.

CURTIS, Chairman.

Report of Special Committee.

MR SPEAKER: Your special committee which, in connection with a similar committee from the Senate, were appointed and directed to investigate certain charges made relating to the construction of some of the buildings at the Home for the Care and Training of the Feeble-Minded, located at Glen Ellen, Sonoma County, beg leave to submit the following report:

Your committee visited the premises at Glen Ellen, and proceeded at once to inspect and thoroughly examine the buildings in question; that thereafter, at regularly appointed meetings, and in pursuance to the issuance of subpoenas, witnesses whom, in the judgment of your committee, were material to aid in determining the charges, appeared and gave testimony, which testimony accompanies this report, and among whom were the following: George W. Gibbs, Trustee; F. W. Lougee, Trustee; and Hon A. P. Overton, Trustee, and Chairman of the Building Committee, together with being a practical builder, and all of whom are men of sterling integrity and business capacity.

In addition to the foregoing witnesses, we examined Victor Hoffmann, Jr, the complaining witness, though laboring under some disadvantage in doing so, inasmuch as he refused to answer some of the questions propounded, and which were, in the judgment of your committee, relevant, that we might the better reach the bottom of the charges, and in this connection we are constrained to say, and we do hereby disapprove of said last named witness' manner and general conduct before said committee, the same being discourteous and disrespectful.

Your committee finds, as follows:

First—That the charges made to the Controller of State by said Victor Hoffmann, Jr., were not founded in fact, and are not borne out by the testimony, but, on the contrary, in the opinion of your committee, is the result of animus.

Second—That the testimony of all the witnesses goes to show that the building is constructed in accordance with the specifications, with only slight changes, and which were made with and by the authority of the Board of Trustees, said changes being of no advantage to the contractor nor detriment to the State, and which changes, under the circumstances, are allowed by law.

Third—We have inspected the buildings, and find that the State may well congratulate itself upon having a building as cheaply and as well constructed as any of like character in the State, either public or private.

Fourth—Answering the charges set forth by Victor Hoffmann, Jr, to wit that the specifications were forged, with the view to serve the purpose of the contractor, beg to say, your committee, together with the Controller, compared the alleged forged specifications with the original which was filed with the Controller, and find the charge without foundation, the two being identical and exact copies, and no changes or erasures appearing.

Fifth—Your committee having duly and carefully considered the charges set forth in said complaint, and the testimony taken in connection therewith, conclude that there is not a scintilla of evidence to warrant any of the said charges, the testimony to the contrary being conclusive, and we therefore freely and fully exonerate the contractor from any and all charges set forth.

We submit herewith a copy of the charges, together with the report of the expert sent to inspect the premises at Glen Ellen, by the Controller; also, a copy of the transcript of the testimony taken before the committee
All of which is respectfully submitted.

REPORT OF SPECIAL COMMITTEE.

ASSEMBLY CHAMBER, SACRAMENTO, February 27, 1893

MR. SPEAKER: Your special committee appointed to visit the Golden Gate Park, and confer with the Park Commissioners relative to improvements in course of progress, contemplated improvements, and proposed amendments to the law now governing said park, beg leave to report that we visited the park in company with said Commissioners, Messrs. Stow and Hammond, on February 26, 1893.

It is needless to say that the management of the park, both from an artistic and financial view, is all that the most progressive and intelligent citizen could fairly demand. The most scrupulous care is invariably taken by the Commissioners, that the public money intrusted to them by the law is expended to accomplish results pleasing and satisfactory to even the most exacting taxpayer.

In proof of these conclusions we have only to cite the facts that the books of the Commissioners have on many occasions been subjected to a most scrutinizing research, with only conclusions complimentary to the Commissioners revealed, and that upon the investigation of the expenditures of the public money it was found that the work done received less money than similar work when done for private purposes.

We gladly avail ourselves of this opportunity to testify to the disinterested regard, prompt and energetic attention, and painstaking care with which Messrs. Hammond, Stow, and Austin have discharged the duties of their office, and we commend them most highly for the zeal they have displayed in the work of their office.

It may be truly said that under the present management many new and attractive features and permanent improvements have been added. The park has become now, under the policy of the present capable Commissioners, a beauty spot, where toiling labor can rest in the struggle of life to view the beautiful scenes of nature, where the overburdened humanity of our great city can breathe the pure air, enjoy the songs of birds, revel captives to the sweet strains of music, and where, free from labor's annoyance, can be obtained the healthful and ennobling influences of a life in close communion with nature in her most entrancing forms.

Senate Bill No. 572, introduced by Senator Maher, and Assembly Bill No. 727, introduced by Assemblyman Kennedy, are designed to amend the present law so as to allow needed changes in the management and government of the park. It is first proposed to add the word "musicians" to the present law, so as to allow the payment of a claim for music furnished. It must not be implied from this demand for a change in the law that it is the intention of the Commissioners to pay for all the services rendered by musicians. On the contrary, the public pay but a pittance of the money now expended for music. Nearly the whole sum for such service is paid by a few of the street railway companies, under a contract most advantageous to the public.

It is also proposed to empower the Commissioners to enter into leases, except to railroad companies, with the term thereof not to exceed ten years. The reasons for such a change are obvious. Under the proposed law leases more to the advantage of public interest can be made. It is contemplated to further amend the law so that additional safeguards can be made.

The object of section four of the bills referred to is to establish a minimum and maximum rate of a levy of "not less than six nor more than ten cents upon each one hundred dollars assessed valuation of taxable property." This is a wise provision, and is desired to enable the Board of Supervisors to give the needed funds for the improvement of the park.

We heartily indorse the proposed changes, and trust that the Legislature will aid the present Commissioners in their most beneficial work by the enactment of the bills referred to.

As Golden Gate Park is situated near the largest city in the State, as the people of the whole State take a most decided interest in it, and many visitors from all parts of our State enjoy the benefits, as its growth and development have made it an institution grand enough to be claimed by the whole State, we respectfully suggest that the State should make a liberal and generous appropriation for the park.

REPORT OF SPECIAL COMMITTEE.

MR. SPEAKER: Your committee to whom was referred the following resolution, to wit: *Resolved*, That a committee of five be appointed by the Speaker of the Assembly to investigate the charges made through the columns of the San Francisco "Chronicle" against Assemblyman H. H. Johnson

Beg leave to report as follows:

On calling the committee to order, Messrs. McPike and Clunie appeared as counsel for Assemblyman H. H. Johnson, and Messrs. Richards and Shortridge appeared as counsel for J. W. Rea.

Your committee has given the matter the most careful and exhaustive consideration, having allowed the widest margin in the examination of witnesses and admission of testimony, and have listened to arguments in the premises.

From such investigation and consideration we find:

That the charge made by J. W. Rea against Assemblyman H. H. Johnson, that he offered to sell his vote for one hundred dollars, in the matter of the Railroad Commission and other subjects, and to secure the votes of other members of the Assembly for a like consideration, has not been substantiated by the evidence adduced, such evidence not being sufficient to remove from the minds of your committee all reasonable doubts as to the truth of said charge.

That the testimony in support of said charge seems to have been largely biased by business connections, or political affiliations, to such an extent that it has not brought with it the weight of conviction.

That sufficient motive seems to have been lacking on the part of Johnson in the offer charged, and the probability small that an offer to include others in such a transaction would have been made without communication with or acquaintance of such persons.

That the charge so made was malicious, inasmuch as said J. W. Rea testified that the same would not have been made but for the fact that certain acts of said Rea as Railroad Commissioner were about to come before the Legislature for consideration; and we find that it was for the purpose of intimidating the said Johnson and members of the Assembly that such charge was made, and not for the purpose of bringing the guilty to judgment.

Wherefore, in view of the circumstances surrounding said charge, the personal and political bias in the character of the testimony by which said charge was sought to be substantiated, the malice shown in the bringing of such charge by the said J. W. Rea, the apparent lack of sufficient motive, and improbability of such action on the part of Assemblyman H. H. Johnson, your committee, sitting not only as judges, but in a capacity similar to that of a jury sworn to render an impartial verdict, where the life or liberty of an individual was at stake, and valuing reputation at little less than either, and bound to give the defendant the benefit of any reasonable doubt, find that Assemblyman H. H. Johnson did not offer to sell his vote to said J. W. Rea for one hundred dollars, or for any other consideration, in the matter of the Railroad Commission and other subjects, nor did he offer to secure the vote of any other member of the Assembly for or in behalf of said J. W. Rea, or for any purpose whatever.

SUBSTITUTE FOR ASSEMBLY BILLS Nos. 54, 573, AND 659

Introduced by Committee on Swamp and Overflowed Lands

An Act to provide for the organization and government of levee districts created for the protection of land from overflow of innavigable running streams of water, and arroyos subject to overflow in times of rain or melting snow.

The People of the State of California, represented in Senate and Assembly, do enact as follows

SECTION 1 Whenever a majority of freeholders, or of residents and taxpayers, or as many as fifty freeholders, or residents and taxpayer, owning lands or residing within a district injuriously affected by overflow from any innavigable running stream, or any arroyo or arroyos, in which water does or does not at all seasons of the year flow, liable to overflow by reason of heavy storms of rain or melting snow, or that will be benefited by the prevention of the overflow of any innavigable stream of running water, or from the overflow of an arroyo or arroyos, in which water does or does not at all seasons of the year flow, desire to provide for the overflow of any such stream or

arroyos, they may propose the organization of a district under the provisions of this Act, and when so organized, such district shall have the powers conferred, or that may hereafter be conferred, by law upon said levee districts.

SEC. 2. A petition shall first be presented to the Board of Supervisors of the county in which the lands or the greatest portion thereof is situated, signed by the required number of freeholders of such proposed district, which petition shall set forth and particularly describe the proposed boundaries of such district, and shall pray that the same may be organized under the provisions of this Act. The petitioners must accompany the petition with a good and sufficient bond, to be approved by the said Board of Supervisors, in double the amount of the probable cost of organizing such district, conditioned that the bondsmen will pay all such costs in case said organization shall not be effected. Such petition shall be presented at a regular meeting of said Board, and the Board shall thereupon fix the time for the hearing of said petition, and said petition shall be published for at least two weeks before the time at which the same is to be heard, in some newspaper or newspapers designated by said Board, printed and published in the county where said petition is presented, and, also, a notice shall be published in connection with said petition, stating the time of the meeting at which said petition will be heard. At the time fixed for the hearing of such petition, said Board of Supervisors shall hear the same, and may adjourn such hearing from time to time, not exceeding four weeks in all, and on the final hearing may make such changes in the proposed boundaries as they may find to be proper, and shall establish and define such boundaries, *provided*, that said Board shall not modify said boundaries so as to except from the operation of this Act any territory within the boundaries of the district proposed by said petitioners, which may appear to said Board of Supervisors to be injuriously affected, or liable to be injuriously affected by the overflow of the stream of water in said district. Said Board shall also make an order dividing said district into five divisions, as nearly equal in size as may be practicable, which shall be numbered, first, second, third, fourth, and fifth, and one Director shall be elected from each district. Said Board of Supervisors shall then give notice of an election to be held in such proposed district, for the purpose of determining whether or not the same shall be organized under the provisions of this Act. Such notice shall describe the boundaries so established, and shall designate a name for such proposed district, and said notice shall be published for at least three weeks prior to such election, in a newspaper published within said county; and if any portion of said proposed district lie within another county or counties, then said notice shall be published in a newspaper published within each of said counties. Such notice shall require the electors to cast ballots which shall contain the words "Levee District—Yes," or "Levee District—No," or words equivalent thereto; and also the names of the persons to be voted for to fill the various elective offices hereinafter prescribed. No person shall be entitled to vote under the provisions of this Act, unless he shall possess all the qualifications required of electors under the general laws of this State; *provided*, that no lands already embraced in reclamation, levee, or protection districts shall be included in such boundaries.

SEC. 3. Such election shall be conducted in accordance with the general election laws of the State; *provided*, that no particular form of ballot shall be required. The said Board of Supervisors shall meet on the second Monday next succeeding such election, and proceed to canvass the votes cast thereat, and if upon such canvass it appear that at least a majority of all the votes cast are "Levee District—Yes," the said Board shall, by an order entered on their minutes, declare such territory duly organized as a levee district, under the name and style theretofore designated, and shall declare the persons receiving respectively the highest number of votes for such several offices to be duly elected to such offices. Said Board shall cause a copy of such order, duly certified, to be immediately filed for record in the office of the County Recorder of each county in which any portion of such lands are situated, and must also immediately forward a copy thereof to the Clerk of the Board of Supervisors of each of the counties in which any portion of such district may lie; and no Board of Supervisors of any county including any portion of such district shall, after the date of organization of such district, allow another district to be formed including any of the lands in such district, without the consent of the Board of Directors thereof, and from and after the date of such filing the organization of such district shall be complete, and the officers thereof shall be entitled to enter immediately upon the duties of their respective offices, upon qualifying in accordance with law, and shall hold such offices respectively for one year, or until their successors are elected and qualified. For the purposes of the election above provided for, the said Board of Supervisors must establish a convenient number of election precincts in said proposed district, and define the boundaries thereof, which said precincts may thereafter be changed by the Board of Directors of such district.

SEC. 4. An election shall be held in such district one year from the first election held, as provided in the foregoing section, and on the same day each succeeding year thereafter, at which election a Board of five Directors for the district shall be elected. The five persons receiving the highest number of votes for the office of Director shall be elected thereto. Within ten days after receiving their certificates of election, hereinafter provided for, such officers shall take and subscribe the official oath, and file the same in the office of the Board of Supervisors of such county. Each member of said Board of Directors shall execute an official bond in the sum of five thousand dollars, which said bond shall be approved by the Judge of the Superior Court of said county where said organization was effected, and shall be recorded in the office of the County Recorder thereof, and filed with the Secretary of said Board. All official bonds herein

provided for shall be in the form prescribed by law for the official bonds of county officers.

SEC 5. Fifteen days before any election held under this Act subsequent to the organization of any district, the Secretary of the Board of Directors shall cause notices to be posted in three public places in each election precinct, of the time and place of holding the election, and shall also post a general notice of the same in the office of said Board, which shall be established and kept at some fixed place to be determined by said Board, specifying the polling places of each precinct. Prior to the time for posting the notices, the Board must appoint for each precinct, from the electors thereof, one Inspector and two Judges, who shall constitute a Board of Election for such precinct. If the Board fail to appoint a Board of Election, or the members appointed do not attend at the opening of the polls on the morning of election, the electors of the precinct present at that hour may appoint the Board, or supply the place of an absent member thereof. The Board of Directors must, in its order appointing the Board of Election, designate the house or place within the precinct where the election must be held.

SEC. 6. The Inspector is Chairman of the Election Board, and may—

First—Administer all oaths required in the progress of an election.

Second—Appoint Judges and Clerks, if, during the progress of the election, any Judge or Clerk cease to act. Any member of the Board of Election, or any Clerk thereof, may administer and certify oaths required to be administered during the progress of an election. The Board of Election for each precinct must, before opening the polls, appoint two persons to act as Clerks of the election. Before opening the polls, each member of the Board and each Clerk must take and subscribe an oath to faithfully perform the duties imposed upon them by law. Any elector of the precinct may administer and certify such oath. The polls must be opened one hour after sunrise on the morning of the election and be kept open until sunset, when the same must be closed. The provisions of the Political Code concerning the form of ballots to be used shall not apply to elections held under this Act.

SEC. 7. Voting may commence as soon as the polls are opened, and may be continued during all the time the polls remain open, and shall be conducted as nearly as practicable in accordance with the provisions of chapter nine, of title two, of part three, of the Political Code of this State. As soon as the polls are closed the Judges shall open the ballot-box and commence counting the votes; and in no case shall the ballot-box be removed from the room in which the election is held until all the ballots have been counted. The counting of ballots shall in all cases be public. The ballots shall be taken out, one by one, by the Inspector, or one of the Judges, who shall open them and read aloud the names of each person contained therein, and the office for which every such person is voted for. Each Clerk shall write down each office to be filled, and the name of each person voted for for such office, and shall keep the number of votes by tallies as they are read aloud by the Inspector or Judge. The counting of votes shall be continued without adjournment until all have been counted.

SEC. 8. As soon as all the votes are read off and counted a certificate shall be drawn up on each of the papers containing the poll list and tallies, or attached thereto, stating the number of votes each one voted for has received, and designating the office to fill which he was voted for, which number shall be written in figures and in words at full length. Each certificate shall be signed by the Clerk, Judge, and the Inspector. One of said certificates, with the poll list and the tally paper to which it is attached, shall be retained by the Inspector, and preserved by him at least six months. The ballots shall be strung upon a cord or thread by the Inspector, during the counting thereof, in the order in which they are entered upon the tally lists by the Clerks, and said ballots, together with the other of said certificates, with the poll list and tally paper to which it is attached, shall be sealed by the Inspector in the presence of the Judges and Clerks, and indorsed "Election Returns of (naming the precinct) Precinct," and be directed to the Secretary of the Board of Directors, and shall be immediately delivered by the Inspector, or by some other safe and responsible carrier designated by said Inspector, to said Secretary, and the ballots shall be kept unopened for at least six months. If any person be of the opinion that the vote of any precinct has not been correctly counted, he may appear on the day appointed for the Board of Directors to open and canvass the returns and demand a recount of the vote of the precinct that is so claimed to have been incorrectly counted.

SEC. 9. No list, tally paper, or certificate returned from any election shall be set aside or rejected for want of form if it can be satisfactorily understood. The Board of Directors must meet at its usual place of meeting on the first Monday after each election to canvass the returns. If, at the time of meeting, the returns from each precinct in the district in which the polls were opened have been received, the Board of Directors must then and there proceed to canvass the returns; but if all the returns have not been received, the canvass must be postponed from day to day until all the returns have been received, or until six postponements have been had. The canvassing must be made in public, and by opening the returns and estimating the vote of the district for each person voted for, and declaring the result thereof.

SEC. 10. The Secretary of the Board of Directors must, as soon as the result is declared, enter in the records of such Board a statement of such result, which statement must show:

First—The whole number of votes cast in the district, and in each division of the district.

Second—The names of the persons voted for.

Third—The number of votes given in each precinct to each of such persons.

Fourth—The number of votes given in each division for the office of Director. The Board of Directors must declare elected the persons having the highest number of votes given for such office. The Secretary must immediately make out and deliver to such person a certificate of election, signed by him and authenticated with the seal of the Board. In case of a vacancy in the office of Director, the vacancy shall be filled by appointment by the Board of Supervisors of the county where the office of such Board of Directors is situated, from the division in which the vacancy occurred. A Director appointed as above provided shall hold his office until the next regular election for said district, and until his successor is elected and qualified.

Sec. 11. On the first Wednesday in the month next following their election, the Board of Directors shall meet and organize as a Board, elect a President from their number, and appoint a Secretary. The Board shall have power, and it shall be their duty to establish the channel of any unnavigable stream, or any arroyo or arroyos in which water does or does not at all seasons of the year flow, liable to overflow by reason of heavy storms of rain or melting snow, or that will be benefited by the prevention of the overflow of any unnavigable stream of running water, or from the overflow of any arroyo or arroyos in which water does or does not at all seasons of the year flow, within their district, to adopt and establish a system of works for the prevention of the overflow of any unnavigable stream, or arroyo or arroyos, liable to overflow by heavy storms of rain or melting snow, or to make new channels for any such stream, streams, arroyo, or arroyos within their districts, to construct levees, deepen channels, or make new channels, and do all things necessary to prevent the overflow of any unnavigable streams, arroyo, or arroyos subject to overflow, in which water does or does not at all seasons of the year flow in their district, and to repair and maintain the same. Said Board shall be also authorized to make and execute all necessary contracts, employ and appoint such agents, officers, and employes as may be required, and prescribe their duties, and to establish equitable by-laws, rules, and regulations necessary for the carrying on of the business here contemplated.

Sec. 12. The Board of Directors shall hold regular meetings at their office at such times as shall be determined upon by the by-laws regularly adopted by said Board of Directors, and such special meetings as may be required for the proper transaction of business; *provided*, that such regular meetings shall not be held oftener than once in each month, *and provided, also*, that all special meetings must be ordered by a majority of the Board. The order must be entered of record, and five days' notice thereof must be given by the Secretary to each member not joining in the order. The order must specify the business to be transacted, and none other than that specified must be transacted at such special meeting. All meetings of the Board must be public, and three members of the Board shall constitute a quorum for the transaction of business. On all questions requiring a vote there shall be a concurrence of at least three members of said Board. All records of the Board shall be open to the inspection of any elector during business hours. The Board and its agents and employes have the right to enter upon any land in the district to make surveys, and may locate the line of any river bed, levee, or other works necessary under the provisions of this Act, and said Board shall have the right to acquire, either by donation, purchase, or condemnation, any lands or other property necessary for the construction, use, maintenance, repair, and improvement of any works constructed or being constructed under the provisions of this Act. In case of condemnation the Board shall proceed in the name of the district, under the provisions of title seven of part three of the Code of Civil Procedure, and said provisions are hereby made applicable for that purpose. In case of purchase, the bonds of the district hereinafter provided for may be used, at their par value, in payment of the purchase price thereof. All property acquired under the provisions of this Act, by any district created hereunder, required in carrying out the provisions of this Act, is hereby declared to be a public use, subject to regulation and control of the State in the manner prescribed by law.

Sec. 13. The legal title to all property acquired under the provisions of this Act shall immediately and by operation of law vest in such district, and shall be held by such district in trust for, and is hereby dedicated and set apart to the uses and purpose set forth in this Act, and said Board is hereby authorized and empowered to hold, use, acquire, manage, occupy, and possess said property as herein provided.

Sec. 14. The said Board is hereby authorized and empowered to take conveyances or other assurances for all property acquired by it under the provisions of this Act, in the name of such levee district, to and for the uses and purposes herein expressed, and to institute and maintain any and all actions and proceedings, suits at law or in equity, necessary or proper in order to fully carry out the provisions of this Act, or to enforce, maintain, protect, or preserve any and all rights, privileges, and immunities created by this Act, or acquired in pursuance thereof. And in all Courts, actions, suits, or proceedings, the said Board may sue, appear, and defend in person or by attorneys, and in the name of such levee district.

Sec. 15. For the purpose of constructing the necessary levees, channels, or other things or appliances that may be deemed necessary to prevent the overflow of any unnavigable stream of water, or any arroyo or arroyos in which water does or does not at all seasons of the year flow, liable to overflow by reason of heavy storms of rain or melting snow, or that will be benefited by the prevention of the overflow of any unnavigable stream of running water, or from the overflow of an arroyo or arroyos in which water does or does not at all seasons of the year flow, and acquiring the necessary

property, rights of way, privileges, or otherwise carrying out the provisions of this Act, the Board of Directors of any such district must, as soon after such district has been organized as may be practicable, estimate and determine the amount of money necessary to be raised, and shall immediately thereupon call a special election, at which shall be submitted to the electors of such district possessing the qualifications prescribed by this Act, the question whether or not the bonds of said district shall be issued in the amount so determined; and notice of such election must be given by posting notices in three public places in each election precinct in said district for at least twenty days, and also by publication of said notice in some newspaper published in the county where the office of the Board of Directors of said district is required to be kept, once a week for at least three successive weeks. Such notices must specify the time of holding the election, the amount of bonds proposed to be issued, and said election must be held, and the result thereof determined and declared in all respects as nearly as practicable in conformity with the provisions of this Act governing the election of officers, *provided*, that no informalities in conducting such an election shall invalidate the same, if the election shall have been otherwise fairly conducted. At such election the ballots shall contain the words "Bonds—Yes," or "Bonds—No," or words equivalent thereto. If a majority of the votes cast are "Bonds—Yes," the Board of Electors shall immediately cause bonds in said amount to be issued. Said bonds shall be payable in lawful money of the United States, in installments, as follows, to wit: At the expiration of eleven years, not less than five per cent of said bonds, at the expiration of twelve years, not less than six per cent; at the expiration of thirteen years, not less than seven per cent; at the expiration of fourteen years, not less than eight per cent; at the expiration of fifteen years, not less than nine per cent, at the expiration of sixteen years, not less than ten per cent; at the expiration of seventeen years, not less than eleven per cent, at the expiration of eighteen years, not less than thirteen per cent, at the expiration of nineteen years, not less than fifteen per cent; and for the twentieth year, a percentage sufficient to pay off said bonds, and shall bear interest at the rate of six per cent per annum, payable semi-annually, on the first day of January and July of each year. The principal and interest shall be payable at the office of the County Treasurer of the county in which said levee district is situated. Said bonds shall be each of the denomination of not less than one hundred dollars, nor more than five hundred dollars, shall be negotiable in form, signed by the President and Secretary, and the seal of the Board of Directors shall be affixed thereto. They shall be numbered consecutively as issued, and bear date at the time of their issue. Coupons for the interest shall be attached to each bond, signed by the Secretary. Said bonds shall express on their face that they were issued by authority of this Act, stating its title and date of approval. The Secretary shall keep a record of the bonds sold, their number, the date of sale, the price received, and the name of the purchaser. Said Secretary shall, on the first Mondays of July and January of each year, file a copy of said record, duly certified, with the Board of Supervisors of the county in which said district was created.

SEC. 16. The Board may sell said bonds from time to time, in such quantities as may be necessary and most advantageous, to raise money for the construction of said canals and works, the acquisition of said property and rights, and otherwise to fully carry out the objects and purposes of this Act. Before making any sale the Board shall, at a meeting, by resolution, declare its intention to sell a specified amount of the bonds and the day, and hour, and place of such sale, and shall cause such resolution to be entered in the minutes, and notice of the same to be given by publication thereof at least twenty days, in a daily newspaper published at the county seat in which such district is located, and in any other newspaper, at their discretion. The notice shall state that sealed proposals will be received by the Board, at their office, for the purchase of the bonds, till the day and hour named in the resolution. At the time appointed, the Board shall open the proposals and award the purchase of the bonds to the highest responsible bidder, and may reject all bids, but said Board shall in no event sell any of the said bonds for less than ninety per cent of the face value thereof.

SEC. 17. Said bonds, and the interest thereon, shall be paid by revenue derived from any annual assessment upon the real property of the district; and all the real property in the district shall be and remain liable to be assessed for such payments as herein-after provided.

SEC. 18. The Board of Directors must, between the first day of July and the first Monday of September of each year, make an assessment of all the property within the district subject to taxation under the laws of this State, and in the manner required to be done by the County Assessor of each county, except that the valuation of property must be made in such a manner as that the property most benefited by the improvements to be made shall bear the highest rate of valuation, each parcel of taxable property to be valued in accordance with the proportionate benefit receivable by reason of the works constructed or to be constructed, *provided*, that no tract of land shall be assessed at less rate than two dollars and a half per acre. Ten days before the first Monday of September of each year, said Board of Directors shall meet as a Board of Equalization, and remain in session for one week, or until all complaints regarding the assessment of property in the district shall have been heard, with powers and duties the same as required of the Board of Supervisors of each county, under the general laws of this State, when sitting as a Board of Equalization.

SEC. 19. The Board of Directors of each levee district within the county must, on or before the first regular meeting of the Board of Supervisors in September of each year,

furnish the Supervisors and Auditor of such county, respectively, an estimate, in writing of the amount of money required by such district for the payment of interest upon the bonds of the district for the ensuing year; and also the amount required to be applied upon the principal of said bonds. They must ascertain this amount by computing the whole amount of interest and principal due on all sold outstanding bonds of the district at the time such estimate shall be made. They must also furnish, at the same time, to the Board of Supervisors, the corrected assessment roll of said levee district for that year, and the property so assessed by such Board of Directors shall be entered upon the assessment roll of the county by the County Assessor at the valuation fixed by the said Board of Directors, and to be taxed for levying purposes for such levee district.

SEC. 20. The Board of Supervisors of each county in which there shall be any levee district established under this Act, must annually, at the time of levying other county taxes, levy a tax upon each district, to be known as a levee district tax, for each of said districts, sufficient to cover the amount of expenditures necessary to pay the interest on the issued bonds of said district, and the amount required to be raised to be applied on the principal of said bonds, which amount the Supervisors must determine by deducting fifteen per cent from the equalized value of the last assessment roll of the property furnished to them by said Board of Directors within said district, and the amount required to be raised divided by the remainder of the assessment roll, which will fix the tax to be levied. But if a fraction of a cent occur, it must be taken as a full cent on each one hundred dollars. If the Supervisors fail to levy the tax as herein provided, then the County Auditor must levy such tax and add it to the assessment roll. All moneys derived from this tax in each district must be paid into the County Treasury of the county in which said district is situated to the credit of such Levee District Fund.

SEC. 21. The amount of such taxes so levied shall be entered upon the general assessment roll of said county, and shall be collected by the County Collector of such county at the same time and in the same manner as other county taxes are assessed and collected, and no County Assessor, Tax Collector, or County Treasurer must charge or receive any fees or compensation whatever, for collecting, receiving, keeping, or disbursing any of the levee district taxes, but the whole moneys collected must be paid to the County Treasurer.

SEC. 22. The assessment upon real property is a lien against the property assessed, from and after the first Monday in March for any year, and such lien is not removed until the assessments are paid on the property sold for the payment thereof.

SEC. 23. Upon the presentation of the coupons due to the Treasurer, he shall pay the same from said Bond Fund. Whenever, after ten years from the issuance of said bonds, said fund shall amount to the sum of one thousand dollars, the Board of Directors may direct the Treasurer to pay such an amount of said bonds not due, as the money in said fund will redeem, at the lowest value at which they may be offered for liquidation, after advertising for at least four weeks in some daily newspaper in each of the cities herein-before named, and in any other newspaper which said Board may deem advisable, for sealed proposals for the redemption of said bonds. Said proposals shall be opened by the Board in open meeting, at a time to be named in the notice, and the lowest bid for said bonds must be accepted, *provided*, that no bond shall be redeemed at a rate above par. In case the bids are equal, the lowest numbered bond shall have the preference. In case none of the holders of said bonds shall desire to have the same redeemed, as herein provided for, said money shall be invested by the Treasurer, under the direction of the Board, in United States gold-bearing bonds, or the bonds of the State, which shall be kept in said Bond Fund, and may be used to redeem said district bonds whenever the holders thereof may desire.

SEC. 24. After adopting a plan of said levees, channels, and works, the Board of Directors shall give notice by publication thereof, not less than twenty days in one newspaper published in each of the counties composing the district (*provided*, a newspaper is published therein), and in such other newspapers as they may deem advisable calling for bids for the construction of said work, or of any portion thereof. If less than the whole work is advertised, then the portion so advertised must be particularly described in such notice. Said notice shall set forth that plans and specifications can be seen at the office of the Board, and that the Board will receive sealed proposals therefor, and that the contract will be let to the lowest bidder, stating the time and place for opening said proposals, which, at the time and place appointed, shall be opened in public, and as soon as convenient thereafter the Board shall let said work, either in portions or as a whole, to the lowest responsible bidder, or they may reject any and all bids and readvertise for proposals, or may proceed to construct the work under their own superintendence, with the labor of the residents of the district. Contracts for the purchase of material shall be awarded to the lowest responsible bidder. Any person or persons to whom a contract may be awarded shall enter into a bond, with good and sufficient sureties, to be approved by the Board, payable to said district for its use, for double the amount of contract price, conditioned for the faithful performance of said contract. The work shall be done under the direction and to the satisfaction of the engineer, and be approved by the Board.

SEC. 25. No claim against any such levee district shall be paid by the Treasurer until allowed by the Board of Directors, and only upon a warrant signed by the President of said Board, and countersigned by the Secretary, except the payment of interest coupons upon the bonds of said district, which, when due, shall be paid by the Treasurer upon presentation thereof.

SEC. 26. The cost and expense of purchasing and acquiring property and construct-

ing the works and improvements herein provided for, shall be wholly paid out of the Construction Fund. For the purpose of defraying the expenses of the organization of the district, and of the care, operation, management, and current expenses thereof, including salaries of officers and employes, and for the repair and improvement of such portions of any levee or channel, constructed by any district, the Board of Directors may, annually, levy assessments therefor, which said assessments shall be levied, collected, and disbursed as provided for the collection of assessments for the payment of the interest and principal of the bonds in this Act provided to be issued.

SEC. 27. The Board of Directors shall each receive four dollars per day, and mileage at the rate of ten cents per mile, in attending meetings, and actual and necessary expenses paid while engaged in the official business under the order of the Board. The Board shall fix the compensation to be paid to the Secretary out of the fund belonging to the district; *provided*, that said Board shall, upon the petition of a majority of the freeholders within such district therefor, submit to the electors at any general election a schedule of salaries and fees to be paid hereunder. Such petition must be presented to the Board twenty days prior to a general election, and the result of such election shall be determined and declared in all respects as other elections are determined and declared under this Act. And thereafter such salaries and fees shall be paid, if changed, as fixed by such election.

SEC. 28. No Director, nor any other officer named in this Act, shall in any manner be interested, directly or indirectly, in any contract awarded or to be awarded by the Board, or in the profits to be derived therefrom; and, for any violation of this provision, such officer shall be deemed guilty of a misdemeanor, and such conviction shall work a forfeiture of his office, and he shall be punished by a fine not exceeding five hundred dollars, or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment.

SEC. 29. The Board of Directors may, at any time when in their judgment it may be advisable, and shall, if petitioned so to do by persons owning one half of the taxable property in valuation, as fixed by the last corrected assessment roll of the district, call a special election, and submit to the qualified electors of the district the question whether or not a special assessment shall be levied for the purpose of raising money, to be applied to any of the purposes provided for in this Act, *provided*, that there shall be but one election held for such purpose in any one year. Such election must be called upon the notice prescribed, and the same shall be held and the result thereof determined and declared in all respects in conformity with the provisions of section fifteen of this Act. The notices must specify the amount of money proposed to be raised, and the purpose for which it is intended to be used. At such election the ballots shall contain the words "Assessment—Yes," or "Assessment—No." If two thirds or more of the votes cast are "Assessment—Yes," the rate of assessment shall be ascertained by deducting fifteen per cent for anticipated delinquencies from the aggregate assessed value of the property in the district, as it appears on the assessment roll for the current year, and then dividing the sum voted by the remainder of such aggregate assessed value. The result of said election shall be certified by the President and Secretary of said Board of Directors to the Board of Supervisors of the county, and thereafter the said Board of Supervisors shall levy the tax, for the amount so voted, upon the taxable property of such district. And thereupon the Board of Supervisors shall authorize the Assessor and Auditor to insert the amount of such assessment upon the next assessment roll of said county; and such tax so levied shall be in all respects collected and paid over to the County Treasurer of the county, as provided in the assessment to be levied for the payment of interest upon the outstanding bonds of said district.

SEC. 30. The Board of Directors of a levee district, now or hereafter organized under the provisions of this Act, may commence a special proceeding in and by which the proceedings of said Board and of said district, providing for and authorizing the issue and sale of the bonds of said district, whether said bonds or any of them have or have not then been sold, may be judicially examined, approved, and confirmed.

SEC. 31. The Board of Directors of the levee district shall file in the Superior Court of the county in which the lands of the district, or some portion thereof, are situated, a petition praying, in effect, that the proceedings aforesaid may be examined, approved, and confirmed by the Court. The petition shall state the facts showing the proceedings had for the issue and sale of said bonds, and shall state generally that the levee district was duly organized, and that the first Board of Directors was duly elected; but the petition need not state the facts showing such organization of the district, or the election of said first Board of Directors.

SEC. 32. The Court shall fix the time for the hearing of said petition, and shall order the Clerk of the Court to give and publish a notice of the filing of said petition. The notice shall be given and published in the same manner and for the same length of time that a notice of a special election provided for by said Act, to determine whether the bonds of said district shall be issued, is required to be given and published. The notice shall state the time and place fixed for the hearing of the petition, and the prayer of the petition, and that any person interested in the organization of said district, or in the proceedings for the issue or sale of said bonds, may, on or before the day fixed for the hearing of said petition, demur to or answer said petition. The petition may be referred to and described in said notice as the petition of the Board of Directors of ——— Levee District (giving its name), praying that the proceedings for the issue and sale of the bonds of said district may be examined, approved, and confirmed by said Court.

SEC. 33 Any person interested in said district, or in the issue or sale of said bonds, may demur to or answer said petition. The provisions of the Code of Civil Procedure respecting the demurrer and the answer to a verified complaint, shall be applicable to a demurrer and answer to said petition. The person so demurring to or answering said petition shall be the defendants to said special proceeding, and the Board of Directors shall be the plaintiff. Every material statement of the petition not specifically controverted by the answer, must, for the purposes of said special proceeding, be taken as true, and each person failing to answer the petition shall be deemed to admit as true all the material statements of the petition. The rules of pleading and practice provided by the Code of Civil Procedure, which are not inconsistent with the provisions of this Act, are applicable to the special proceeding herein provided for. A motion for a new trial must be made upon the minutes of the Court. The order granting a new trial must specify the issues to be reexamined on such new trial, and the findings of the Court upon the other issues shall not be affected by such order granting a new trial.

SEC. 34 Upon the hearing of such special proceedings the Court shall have power and jurisdiction to examine and determine the legality and validity of, and approve and confirm each and all of the proceedings for the organization of said district, under the provisions of the said Act, from and including the petition for the organization of the district, and all other proceedings which may affect the legality or validity of said bonds, and the order for the sale, and the sale thereof. The Court, in inquiring into the regularity, legality, or correctness of said proceedings, must disregard any error, irregularity, or omission which does not affect the substantial rights of the parties to said special proceeding, and it may approve and confirm such proceedings in part, and disapprove and declare illegal or invalid other and subsequent parts of the proceedings. The Court shall find and determine whether the notice of the filing of said petition has been duly given and published for the time and in the manner in this Act prescribed. The costs of the special proceedings may be allowed and apportioned between all the parties, in the discretion of the Court.

SEC. 35 An appeal from an order granting or refusing a new trial, or from the judgment, must be taken by the party aggrieved within ten days after the entry of said order or said judgment.

SEC. 36 The Board of Directors or other officers of the district shall have no power to incur any debt or liability whatever, either by issuing bonds or otherwise, in excess of the express provisions of this Act, and any debt or liability incurred in excess of such express provisions, shall be and remain absolutely void.

SEC. 37 If, at any time after its organization, the property owners in any levee district organized under the provisions of this Act, desire to disorganize, they may do so, in the manner following: Upon a petition being presented by three fifths of the property owners in such district to the Superior Court of the county in which any such district may be situated, or in case such district embraces land situated in two or more counties, then such petition may be presented to a Superior Court of either county in which any of the land in the district may be situate, which said petition shall in substance state the fact of such district organization, the character and estimated value of all property belonging to the district; that the petitioners constitute three fifths of the persons owning land in such district; that all debts and liabilities of every kind, owing or incurred by such district, have been paid, and that it is the desire of the petitioners that such district be disorganized. Upon filing any such petition with the Clerk of such Court, and on presentation thereof to a Judge thereof, he shall order a citation to issue to each of the holders of lands within such district, who have not signed such petition, requiring them, and each of them to appear and show cause why said district should not be disincorporated. The time in which such answer may be made, shall be the same, and service made in the same time and manner as is required by section — of the Code of Civil Procedure of this State, regarding the service of summons in civil cases in the Superior Courts thereof. If, after the time for answering has expired, any person or persons cited to appear, do or do not answer, the Court, upon a day fixed, shall hear and determine the matter presented in such petition, and if found to be in all respects true, shall render a decree in substance reciting the facts found to be true, and shall decree that such district be disorganized; that the property belonging to the district be sold, and the proceeds thereof be distributed to the owners of land in the district in the same proportion as the value thereof, as shown by the last district assessment roll of lands in the district, appearing as belonging to each owner, bears to the whole sum raised from such property, or such other equitable division as the Court may deem just and proper.

SEC. 38 Any such decree may be appealed from to the Supreme Court in the same manner and in the same time as any other judgment rendered in a civil action within the original jurisdiction of said Court.

SEC. 39 When the time for an appeal has expired and no appeal has been taken the decree, if ordering a disorganization, shall be final, and thereafter said district shall cease to exist.

SEC. 40 An Act entitled "An Act to provide for the organization of levee districts," approved March 10, 1891, is hereby repealed.

SEC. 41 This Act shall take effect from and after its passage.

RESOLUTION.

By Mr. McCauley:

WHEREAS, The interests of the people of the State of California demand that the few remaining days of this session of the Assembly be devoted as closely as possible to the transaction of the large amount of business before this House, and whereas, it is absolutely necessary to the transaction of such business that fairly good order should at all times during business hours be maintained in this Assembly Chamber, and that members of this body should be allowed by their kind "friends," who are interested in the advancement of their own selfish schemes, to have at least the hours of the daily session at their disposal for the purpose of attending to the business of legislation; and whereas, experience up to this time has proven the absolute impossibility of successfully

lending one ear to the importunities of our "friends" of the lobby and the other to the business of this House, at the same time, with anything like satisfactory results; therefore, be it

Resolved, That the Sergeant-at-Arms of the Assembly be and he is hereby instructed to permit no person to come on the floor of the Assembly Chamber during the business hours of this body, unless accompanied by an Assemblyman, or by his express invitation. He will, at the hours of calling the House to order, request all such persons on the floor of the Assembly to at once retire, and he will, without exception, see that the request is promptly complied with, and be it further

Resolved, That this instruction to the Sergeant-at-Arms shall not be construed to apply to the wives, daughters, and sweethearts of members, nor to their lady friends who are not members of the third house

REPORT OF SPECIAL COMMITTEE.

ASSEMBLY CHAMBER, SACRAMENTO, March 3, 1893

MR. SPEAKER Your special committee appointed for the purpose of inquiring into the official conduct and acts of W. H. H. Hart, Attorney-General of the State of California, and to report thereon to this Assembly, by impeachment or otherwise, submits the following report:

Your committee met on the day of its appointment, February 14, 1893, organized and took an adjournment to February 16, 1893, at which time the committee met, and, at the request of Attorney-General W. H. H. Hart, adjourned to meet on Monday, February 20, 1893. The committee consumed that day in taking testimony, then adjourned to meet the day following in San Francisco, when further testimony was taken, and has had sundry meetings since at Sacramento. It now reports the following findings:

W. H. H. Hart, by virtue of his position as Attorney-General, and in that capacity, received in settlement of certain suits brought by the State of California against certain Harbor Commissioners in the following-named cases the following-named sums of money:

First—In the case of *People vs. Phillips*, it appears from a stipulation on file that there was paid to him on July 25, 1891, \$7,725 82. A portion of this money was paid by checks drawn by Cahn, Nickelsburg & Co, one dated July 23, 1891, and the other dated July 25, 1891. Both are indorsed by W. H. H. Hart, and are marked paid August 3, 1891. The complaint of W. H. H. Hart, filed in the Superior Court of San Francisco, states that the total sum was received August 30, 1891. It appears by the testimony that the sum of \$3,862 91 was received by cashing certified checks on August 3, 1891, and that all of it was paid at least as early as August 30, 1891.

Second—In the case of *People vs. Knight* a certificate of deposit on the People's Home Savings Bank was delivered to W. H. H. Hart for \$2,404 36 on October 24, 1892. This certificate was indorsed by W. H. H. Hart, and marked paid November 14, 1892. He admits the receipt of the money as of date of October 25, 1892.

Third—In the case of *People vs. Blanding* a stipulation is on file, dated August 1, 1891, stating that a sum of money had been paid by certain defendants, but without specifying the sum. It appears, however, from the testimony of T. I. Bergin, that he delivered certificates of deposit for this sum to W. H. H. Hart in July, 1891, and we find, by calculation, that this sum was \$6,601 56. The balance, \$1,120, was paid to him November 25, 1892, by a certified check marked paid December 12, 1892.

The committee examined the deputies of the Attorney-General, and his stenographer, but none of them knew, except in a general way, that this money had been paid, and some of them did not know that it had been paid at all. None of them could give any information where it was kept. There is no safe in the office of the Attorney-General at either Sacramento or San Francisco, where the same could be kept. But there seems to

be a safe in the office formerly occupied by him at No. 230 Montgomery Street, San Francisco, now occupied by Nowlin & Fassett. To what extent Mr Hart still retains this office is not clearly shown.

The committee derived no assistance whatever from Mr. Hart. The committee made frequent attempts to secure his testimony, but he declined to testify. He refused, personally, to give the committee any information of the conduct of his office, or where this money was kept, if it was kept. Hence, the committee is compelled to draw such conclusions as his retention of this money for an unreasonable length of time, and his failure to account for its custody, justify.

The claim was made by his counsel that he was in doubt as to whether the money should be paid to the General Fund or the Harbor Commissioners' Funds. But both funds are kept in the State Treasury, and the Controller determines to what fund money should be paid, and if he errs in judgment, his error may be corrected. Mr. Hart made no attempt to pay this money into the State Treasury until an investigation into his conduct had commenced.

On May 31, 1892, the Controller addressed him a letter asking what had been done in relation to these and other suits, and containing this demand: "I was advised that, acting under this authority, you have compromised some of these suits, and are in receipt of moneys which should be paid into the State Treasury, as the present fiscal year closes on June 30th, prox., and immediately thereafter I make up my biennial report. I respectfully request that you make your settlement with the State as soon as possible, in order that these items may appear in their proper place in my forthcoming report." In an answer dated June 25, 1892, the Attorney-General stated the matter "had been settled as to one of the defendants, partially settled as to another, and nothing accomplished as to another." He also stated that it was claimed that the money had been paid to W. A. January and stolen by him; that it was also claimed that a portion of the money had been paid over to the successors of defendants; that investigation was being made of the Harbor Commissioners' books and the books of the express company to determine whether these contentions were true, and that, if true, the defendants claim that there is nothing due from them. He closed by stating that he claimed that the money, *when paid*, should go into the General Fund, but that the attorney for the Harbor Commission claimed that it should go into the Harbor Commissioners' Fund, and "we have agreed that as soon as the settlement is made, to submit this question to the Court, and we hope it can be done before long."

At this time, however, he had or should have had in his possession the sum of \$14,327 38, as follows: In *People vs. Phillips*, \$7,725 82, collected July 25, 1891; and *People vs. Blanding*, \$6,601 56, collected at least as early as August 1, 1891. But he gave the Controller no information as to the receipt of this money other than as stated, and made no effort to comply with the demand of the Controller to pay over what he had collected.

It will be seen that he had retained for nearly a year the sum of \$7,725 82 in the suit of *People vs. Phillips*, which had been fully settled, and the sum of \$6,601 56 in the case of *People vs. Blanding*, which had also been fully settled, in so far as it relates to the defendants paying that sum. The Controller made another demand February 6, 1893, and testified that he did not know of the specific amounts collected by the Attorney-General until he was served with the papers in the suit brought by Hart on February 7, 1893.

It also appears that there are no entries in any book, paper, or document of the Attorney-General's office showing the collection of this money or the amount collected. If he had died, his successor would have had no way of knowing, so far as any record of information in the office is concerned, where this money was, or that any money had ever been collected by him for the use of the State, as will be seen by the dates at which the certified checks and certificates of deposit were paid, that they were not cashed at the time received. What necessity there was for cashing a certificate of deposit, or certified check, and placing it in gold or currency, to be carried in the Attorney-General's pockets or placed in his safe, does not appear. If there was a doubt as to where the money should go, why did he cash the certificate? Why not preserve the certificates to be delivered to the officer entitled to receive them? Where the money has been during all the time it should have been in the State Treasury your committee have been unable to learn. It can scarcely be imagined that any sane man would carry around with him for over eighteen months a sum exceeding \$14,000, or would place the same in an office safe occupied by others. If the law permits such a course, it is a great defect, and any officer who attempts to shield himself by such a flimsy suggestion offers the most convincing proof of his incapacity for a public trust. The fact that he retained this money on his person or in some private safe is not testified to by any witness, and the only evidence that it was retained in his safe was by the transcript of Court proceedings filed in evidence before this committee. He does not attempt to show where it was, and while the statement was made that at the proper time it would be shown that the money was in his safe, "the proper time" never arrived, and not a particle of evidence was produced to this effect.

It is certainly a strange spectacle for a man filling a public office to refuse to inform proper authority where public money has been kept. No officer who has charge of public funds should hesitate to give a statement as to the amounts collected, and in whose custody they have been.

In relation to the conduct of his office at the Capitol, we are forced by the evidence (see testimony of State officials and documents signed by them in evidence before this committee) that the same is marked by a degree of carelessness inexcusable; that the office has been closed a great portion of the time, and that great inconvenience to all of our State officials has resulted therefrom, that no confidence was had in the opinions obtained by the State officers from the person in charge of said office as First Deputy Attorney-General; that we are fully warranted by the evidence of others, and by his manner and appearance upon the witness stand before this committee, in coming to the conclusion that said deputy is not a fit or competent person to act as counsel to the State officers in the discharge of their official duties, that the interests of the great State of California demand a higher order of ability than is possessed by him; that expense to the State has resulted by his retention in said office; that all of these matters were brought to the attention and notice of Attorney-General Hart, and that he refused, and still refuses to make any change in said office; that our State officers are compelled, in order to protect the interests of the State and themselves in the discharge of their official duties, to employ private counsel, at large expense to themselves and the State, and for which state of affairs we think the Attorney-General entirely responsible.

We have endeavored to conduct this investigation in a fair and impartial manner, giving such weight and credence to the testimony adduced as, in our opinion, it was entitled to receive, and upon which we have based these findings, and this report, which we now submit, without recommendation, leaving to the combined wisdom of this Assembly the question as to whether other or further proceedings shall be taken in the premises.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, March 2, 1893. }

To the Assembly of the State of California:

I herewith return to your honorable body, without my approval, Assembly Bill No 142—An Act regulating the hours of labor in saw mills, shingle mills, shake mills, and logging camps—for the following reasons: That the bill is repugnant to that provision of the Constitution which prohibits the Legislature from passing a local law in any case where a general law can be made applicable. While this bill purports to be general in its terms, a careful examination of its provisions in the light of the Constitution and authorities, clearly satisfies me that it is emphatically local, or class legislation, in that it does not include the entire field of labor engaged in the industry to be affected by its provisions. For this reason I deem it clearly unconstitutional.

The question being, "Shall the bill become a law notwithstanding the objections of the Governor?"

MESSAGES FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, March 3, 1893 }

To the Assembly of the State of California.

I have the honor to inform your honorable body that I have approved Assembly Bills Nos. 75, 287, 153, 270, 146, 1, 195, 71, 112, 227, 737, 720, 688, 69, and 100

H. H. MARKHAM, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,)
SACRAMENTO, March 3, 1893. }

To the Assembly of the State of California.

I herewith return to your honorable body, without my approval, Assembly Bill No. 271—An Act to amend section seven hundred and seventy-eight and seven hundred and eighty-two of the Political Code of the State of California, relating to the printing and sale of reports of the Supreme Court of said State of California, and repealing sections seven hundred and seventy-nine, seven hundred and eighty, and seven hundred and eighty-one of said Political Code, for the following reasons:

The bill provides that the State Printer must supply the demand for these volumes and sell them to any person applying for the same, at the cost of printing and binding. No appropriation is made for the purchase of material or to pay for the labor required. The money arising from their sale is to be paid into the General Fund of the State; and thus the appropriation for the State Printer will be depleted many thousands of dollars, which would naturally cause a deficiency in that appropriation, and thereby affect other State printing. By the terms of the present contract, the State is furnished with three hundred copies of each report without cost, from which it will be seen that the State gains nothing by the bill. If the State printed these volumes and distributed them six times a year, as that is the number of editions that will probably be required annually, it would cost the State a very large sum of money, unless the clause "at cost of printing and binding" could be construed to include the cost of the volumes which are distributed by the State; and if this construction were given to the term used, the price for which they could then be sold would be increased very largely over the present price per volume. In addition, the bill provides that the State Printer shall at all times keep on hand a sufficient number of volumes to supply the demand. The cost of every volume left unsold must be added to the cost of the volumes distributed by the State. I do not believe that the interests of the whole State would be subserved by this bill becoming a law; and I do not believe I am justified in giving life to a measure which is only for the pecuniary benefit of a small number of citizens, as I have information, which I believe to be reliable, that less than eight hundred lawyers of the State purchase these volumes. If that be true, the State must pay out from seven thousand to ten thousand dollars annually, that eight hundred attorneys may supply their libraries with the California Reports, possibly at a little reduced cost. I am satisfied that the volumes should be and can be sold to the attorneys of this State at a less price than they are at present, and I believe that a contract can be made at the expiration of the present one, if such a course is thought to be desirable, which will materially reduce the price to them. But if the reduction cannot be made, as there remains but one month's intermission between the termination of the present contract and the convening of the next session of the Legislature, if it is deemed to be in the interest of the State, the same steps could then be taken as now, and no harm result from the delay.

H. H. MARKHAM, Governor.

ON STATE PRISONS AND REFORMATORY INSTITUTIONS.

ASSEMBLY CHAMBER, SACRAMENTO, March 6, 1893

MR SPEAKER: Your Committee on State Prisons and Reformatory Institutions, who were instructed by resolution of the Assembly to visit the State Prison at Folsom, have, in the performance of their duty, visited the premises, inspected every department of the prison, noted the character of improvements completed, as well as those in process of construction, interviewed officers, guards, and convicts, and have herein embodied a synopsis of the information obtained, and the possibilities as to the future of the institution.

From the information thus acquired, and through having access to the several reports of the State Prison Directors, we would most respectfully submit for your consideration the following report:

The State Prison at Folsom was first occupied by convicts in 1880, the first detachment being transferred from San Quentin to their new quarters in the month of July of that year.

There are now seven hundred and four convicts incarcerated there. This number reaches the limit of the present capacity of the prison. Their ages range from seventeen to seventy-one years. The following table shows the respective ages of the convicts at present within the jurisdiction of the Folsom institution:

Under 21 years of age	74
Over 20, and under 31	310
Over 30, and under 41	211
Over 40, and under 51	75
Over 50 years of age	34

Character of Prison Quarters.

The buildings and cells are of granite, all of which was quarried upon the prison tract. Within the last five years an additional wing to the original building has been constructed, which, when completed, will furnish cell room for three hundred additional convicts. This will be ready for occupation some time during the present year, making a total capacity of one thousand, which number is considered, by the best prison authorities, to be as many as can be successfully handled in any one prison.

Unlike the State Prison at San Quentin, there is no outside wall inclosing the grounds. The convicts are worked and guarded from the posts, which form a cordon around the quarry.

Employment, Discipline, and Sanitary Conditions.

The State owns a tract of five hundred acres of land, most of which is under cultivation, the principal productions being hay, vegetables, fruit, and grapes. The vineyard, orchard, and garden already furnish all the grapes and fruits necessary for the consumption of the prisoners, as well as onions, tomatoes, and most of the varieties of garden vegetables, and a supply of dried fruit, which is served to them in abundance during the season. The productive capacity of the farm will be increased when the dam and canal are completed, which will be during the present year. Then the entire tract will be irrigated.

For the past four years the entire force has been engaged in the construction of the dam, canal, and power-house, and clearing and improving the prison farm. To this outdoor exercise, wholesome diet, and the regular habits imposed, together with the fact that they are locked up before nightfall, may be attributed the excellent sanitary conditions. Besides escaping the miasmatic vapors of the early evening, which is a prime factor in causing the local diseases which prevail during a few months of the year, the thorough system of drainage contributes to the healthfulness of the place. A fall of one hundred feet, with an unlimited supply of water, carries away all material impurities. It is a matter of record that the convicts are much healthier than the citizens residing in and about the neighborhood.

The statistics also show that the death rate is as low, if not lower, than that of any prison in the United States. There are now only three men in the hospital, and these are chronic invalids, who are suffering from the infirmities of old age.

The actual work required of the convicts is nine hours per day during the summer months, and seven hours in the winter months, or a yearly average of eight hours.

The entire guard force consists of forty men, of which number there are eleven night guards and twenty-nine day guards, of which latter division of the force there are five foremen, or unarmed guards, three of whom are on duty at the quarry and canal, and superintending the work upon the new cell building, and two in charge of the prison farm, leaving an actual armed day force of twenty-four men. It is suggested that, with the completion of the new cell building and contemplated increase of the number of inmates, a proportionate increase of the guard force will be necessary. But this is a matter which comes within the scope of the discretionary powers of the State Board of Prison Directors.

Taking into consideration the fact that the convict working force is necessarily scattered from the quarries and immediate neighborhood of the prison, along down the canal for a distance of nearly a mile, the small number of escapes during the past five years is truly wonderful. Only five escapes during that period have occurred, and of that number four have been recaptured and returned to the prison. The fifth is now serving a term in the penitentiary of a neighboring State, and when his term expires he will be returned to Folsom to finish his unexpired term. These facts are the best comment possible to be given as to the effective management.

Inquiries made of officers and attachés, as well as of convicts, elicit the fact that the discipline is admirably systematic and rigid. No drunkenness is allowed among the officers, guards, or attachés. The slightest infraction of this rule insures the summary discharge of the offender.

In noticing the dining-room and kitchen accommodations, it is shown at a glance that they are inadequate, even for the immediate needs of the prison, much less for the future requirements when the number shall have reached the maximum figure of one thousand. The appropriation for the power-house and officers and guards' quarters was inadequate, and the additional amount of \$10,000 for the kitchen and dining-room presents a case of urgent necessity.

Cost of Maintenance.

An examination of the official reports of the Board of Directors for the last five years shows that the per capita per diem cost of maintenance of prisoners has been steadily decreasing. From 56 cents per day in 1888 the cost has been reduced to 41 ³⁷/₁₀₀ cents, which latter figure, based upon the number of convicts in the prison, is below the average throughout the United States, and much lower than any similar institution in this State. It is claimed by the Warden that the force of guards is out of proportion to the number of convicts, and that if there were one thousand convicts the increased number would reduce the ratio of expense. That is to say, in the event of the number of prisoners being increased to one thousand, the increase of guard force would be less in proportion, while the official force would remain as it is now. With the present number of convicts the payroll of the officers and guards amounts to about 45 per

cent of the entire cost of maintenance. By increasing the number of convicts up to the proposed maximum, and, with a slight increase of the guard force, this might be reduced to 30 per cent, and the aggregate per capita cost of maintenance diminished.

Except in the matter of economy, even a less number than one thousand could be more successfully handled, as it is a matter of great importance—and one which will not escape the observation of those whose duties have enabled them to give attention to the subject—for the Warden to study the character of every prisoner under his charge, so that by personal observation he may gain a knowledge of their characteristics, and thus arrive at a rational conclusion as to the influences necessary to be brought to bear in order to reform those among them who are susceptible of reformation. In this connection, it is suggested that, in the near future, another prison should be constructed in some other locality.

An Electric Plant.

The Board of Directors, at their meeting held on the 18th of February last, upon the completion of the power-house, let out a contract for an electric plant, to be constructed and placed in operation at a cost of \$5,360. It will comprise twenty arc lamps of 2,000 candle-power each, for lighting the grounds outside the prison, and nine hundred incandescent lamps for the prison buildings and cells. It is claimed that by this arrangement the chances of escape will be reduced to a minimum, the grounds being made as light as day. The plant will be in operation within ninety days.

The Food.

It is due to the Warden and other officials in charge to state here that the fare of the prisoners is of a wholesome quality, and in quantity sufficient for their needs; and also to note that the careful personal observation given to the Commissary Department has much to do with the economical feature of the institution. Practically, there is nothing wasted.

The Dam, Canal, and Power-House.

In May, 1888, the State Board of Prison Directors entered into a contract with the Folsom Water Power Company for the erection of a substantial dam of masonry across the American River six hundred yards above the prison, and the cutting of a canal to a point below. This contract was the final solution and settlement of several previous contracts and consequent litigation covering a period of twenty years. A full history of all these contracts is contained in the report of the Directors for 1890. The several contracts are given in detail in this report, which clearly sets forth the objects and the benefits which must inevitably accrue to the State. By the terms of this final contract made on the date above mentioned, the State agreed to furnish the labor for the construction of the dam and canal down to a point below the prison, the Folsom Water Power Company, on their part, agreeing to furnish all the material and machinery necessary to complete the work.

The Legislature of 1889 made an appropriation of \$112,500 for the purpose of erecting a power-house and the purchase of the necessary water wheels, machinery, etc., to utilize the power which would result to the State from the water furnished by the canal.

The canal was cut somewhat larger than was originally intended, and, when finally completed, had a width of fifty-one feet on the top, forty-three feet on the bottom, and a depth of eight feet, with a grade of two feet seven inches to the mile.

The power-house erected by the State is of granite, laid in cement, and is to-day the most substantial structure of the kind in America. The power is generated by six 87-inch double Turbine wheels, and, with an 8-foot head of water in the canal, will produce 150 horse-power to each wheel—making 900 horse-power in all—which is somewhat in excess of the original calculation.

The maximum capacity of the canal is fifty per cent greater than the carrying capacity of the wheels, hence the surplus now unused will afford an abundance of power for three more wheels of the same pattern, whenever the State sees fit to increase the plant; in other words, a maximum capacity of 1,350 horse-power.

After passing through the power-house, the water is dropped into the canal and becomes the property of the Folsom Water Power Company, and will be carried thence in the canal of the same capacity to the town of Folsom, when it will be dropped into the American River, with a fall of eighty feet. This latter fall will generate from 10,000 to 12,000 horse-power.

The dam and walls of the canal are massive almost beyond description, containing nearly three million cubic feet of stone masonry, all of which has been quarried, cut, and laid in cement by the convicts within the last four years.

On the 12th of January, 1893, the water was turned into the canal for the first time, and the State was enabled to realize some of the benefits of its labor.

In the power-house, the State has in operation a duplex 220 horse-power air compressor, from which the compressed air is carried in pipes to the quarries along the line of work where all the engines, drills, etc., formerly dependent upon steam as a motive power, are now operated by compressed air, thus eliminating fuel as an item of expense.

The State also has a large irrigating pump in operation, throwing water at the rate of one thousand gallons a minute, through a 12-inch steel pipe, to a reservoir on an adjacent hill two hundred feet above the level of the canal.

This flow of water is sufficient to irrigate the entire prison tract, besides furnishing water for domestic and other uses

A hydraulic pump and accumulator furnishes power to raise and lower the huge gates in the dam and power-house easily and speedily.

All the machinery is of the best and latest improved patterns. Like the dam and power-house, they are strong and massive in proportions.

An iron drill press, turning lathe, planer, and bolt-cutter comprise all the machinery now in operation.

The total horse-power now in use is about 250, leaving a surplus of 600 horse-power unused

In view of the immense cost for State institutions in the items of light and fuel for power purposes, it would seem that some way should be devised by the Legislature for utilizing this immense power for the purposes herein indicated. Recent experiments made in the transmission of power by electricity long distances furnish a reasonable basis for an estimate that the Folsom Prison water power is capable of furnishing power and light for all the State institutions in Central California, or within a radius of one hundred and fifty miles.

A. W. Von Schmidt, who is recognized as one of the most competent engineers on the Pacific Coast, in estimating its value on a basis of 600 horse-power, figures the actual value of the plant at \$900,000. [See official report of 1888, page 77.]

When it is taken into consideration that the present developments reach 1,350 horse-power, it will be seen that its value, when properly utilized, must proportionately increase, thus reaching a figure of nearly two millions, which is perpetual for all time.

It will also be remembered that this property has been acquired by the work of a few hundred convicts under the well directed supervision of the Board of Directors and the Warden, and that it has been accomplished without competition with free labor of any description. Taking these facts (which are matters of record) under consideration, it would appear that they are entitled to the appreciative consideration and approval of the Legislature for competent management and effective work.

RULING.

The Speaker made the following ruling which, on motion of Mr. Anderson, was ordered printed in the Journal:

Mr. Anderson desires to amend the Journal in order to show that upon the question of the third reading of Senate Bill No. 50 he endeavored to address the Chair, and the Chair ruled his discussion out of order. Shall the amendment be made?

In order to determine this question the history of the measure will have to be considered. On March 1st the bill was read second time, and an amendment offered by Mr. Durst, an opponent of the bill, at which time Mr. Durst addressed the Assembly at length on his proposed amendment, and finally, by the intervention of a special order, further consideration was cut off until a subsequent time. On March 2d the matter again came up, and Mr. Durst took the floor in behalf of his amendment, addressed the Chair for the ten minutes allowed by the rules, and was cut off by a point of order. It is a well established rule of all parliamentary writers that advocates of a measure or amendment should be recognized first, opponents second, and thus alternating as nearly as may be, if the Chair has information sufficient to enable him so to do. In accordance with this rule, Mr. Thomas, who was known to be the opponent of the amendment was next recognized, who, instead of debating the question, moved the previous question, which was seconded by fully a dozen members, and the previous question was ordered by a very large majority. The vote on the amendment was fifteen ayes and fifty-three noes. The question then was, "Shall the bill be ordered to a third reading?" and at this juncture Mr. Anderson desired to discuss the bill. Mr. Shanahan raised the point of order that the bill could not be discussed on this question, and that the previous question had been ordered. The Chair ruled his point of order well taken for both reasons.

This being a Senate bill, the question of being ordered to a third reading was entirely a matter of form, which the Chair, during the whole session, has held, afforded only an opportunity for amendments, and a discussion upon them, and it is a well established parliamentary rule that, upon the ordering of the previous question to an amendment, all new amendments are cut off, and the House is brought to a vote, not only upon all pending amendments, but upon the main question; and if the order to a third reading be a question at all, that was the question then pending, and the Chair so ruled.

This ruling has been submitted by the Speaker to the President of the Senate, who fully agrees with the decision of the Chair.

The question then arising was, "Shall the bill be read a third time," which was so ordered, without discussion, or attempt to discuss, so far as the Chair knows, and had there been an attempt at discussion it would have been ruled out of order, as has been the ruling of the Chair throughout this session.

The question then arose upon the final passage of the bill. In accordance with the rule laid down above, the advocates of the measure were entitled to open the debate, and in accordance therewith, Mr. Schlesinger was recognized. Instead of choosing to discuss the merits of the bill, he moved the previous question, which was seconded instantly as before, leaving the Chair no discretion except to put the question, which was ordered by an almost unanimous vote. This brought the main proposition immediately to a vote, and the bill was passed by a majority of fifty-four ayes to nineteen noes. It would certainly seem, therefore, that whatever of haste or intolerance of debate existed, if there was such, was not due to any action of the Speaker, and as there is not a single instance in the Journal of this, or any preceding Legislature, where an entry of a similar character was made by the Minute Clerk, that if regard be had, either to justice or to precedent, such an amendment as is requested by the gentlemen from Sacramento should not be allowed.

I regret that my illness, which kept me out of the Chair the greater portion of Friday and all of Saturday, was such as to prevent an earlier consideration of this matter, but at this time, in deference to the minority in this question, I propose to submit the amendment to the House, and setting aside my own judgment in the matter, will permit the gentleman from Sacramento to make his motion to amend the Journal, as suggested by himself

Mr. Anderson stated that he was perfectly satisfied with the ruling, and therefore would not offer the amendment.

MR. SPEAKER: Your special committee appointed for the purpose of preparing a special urgency file, upon which bills of general importance were to be placed, beg leave to report as follows:

WHEREAS, We believe that any action your committee might take in preparing said file would not meet with general satisfaction; and whereas, if we should take bills of

general importance from near the head of urgency files now existing, nothing would be accomplished, as those bills would be reached in any event, and if bills of general importance were taken from any other place on said file, or any other file, an injustice would be done those measures at or near the head of said urgency files now existing; and whereas, in consequence of these facts and of many others that might be named, and of the fact that many members are of opinion that the preparation of said urgency file would work an injustice to many; therefore, it is the judgment of your committee that such file should not be prepared, and that said committee should be discharged.

SAN JOSÉ, CAL., March 12. 1893.

TO SPEAKER GOULD: At a special meeting of the Mayor and Common Council of the city of San José, the following resolution was adopted unanimously:

Resolved, That the Mayor and Common Council of the city of San José earnestly favor the removal of the State Capital from the city of Sacramento to the City of San José, and be it further

Resolved, That we assure the Legislature that the required one million dollars and ten acres of land will be donated for the purpose set forth in the proposed Constitutional Amendment No. 23.

OLO PHELPS, Acting Clerk
H. E. SCHILLING, Mayor

PETITION.

Mr. Anderson presented the following resolutions, adopted by a mass meeting of the citizens of Sacramento City; also, resolutions of the Sacramento Board of Trade, all relating to Senate Constitutional Amendment No. 23:

RESOLUTIONS.

Adopted by the People of Sacramento, in Mass Meeting held at the Court-house, Sunday Evening, March 12. 1893

Resolved, That the people of Sacramento regard with deep indignation the publication in the "Evening Bee" of this city, of the false and scandalous libels upon the Legislature and members thereof, and denounce such publication as being a mere sensational effort of a characterless sheet worthy only of profound contempt by the members of the Legislature and the citizens of Sacramento

Resolved, That the publication referred to does not represent any feeling, sentiment, or opinion on the part of any of the citizens of Sacramento other than that of the

libelers themselves, and the people of Sacramento, speaking from their own knowledge, declare said publication to be false in fact, as well as indecent and malicious in spirit; and further declare that the author or authors of said libels deserve arrest, examination, and punishment by proper proceedings by the Legislature.

Resolved, That the people of Sacramento most respectfully submit to the Legislature that a measure of so much importance as the removal of the State Capital, involving, as it does, matters of great moment to the future of the State, as well as great present injury to private individuals, to the city of Sacramento, and to the State, as well as millions of expenditure in the near future, should not be acted upon except after full, deliberate, and unimpassioned consideration of the merits of the measure itself. If, after such consideration by your honorable body, it shall be deemed just and politic to adopt measures for the removal of the Capital, the people of Sacramento, as loyal citizens of the State, will abide the verdict of the people upon the question in a contented and patriotic spirit.

Resolved, That a committee of thirty be appointed by the Chair to wait upon the Legislature and its members, present them these resolutions, and endeavor to secure a reconsideration of the vote whereby the said proposed constitutional amendment was adopted.

RESOLUTIONS ADOPTED BY THE SACRAMENTO BOARD OF TRADE.

BOARD OF TRADE ROOMS, SACRAMENTO, March 12, 1893.

At a meeting of the Board of Directors of the Sacramento Board of Trade, held this (Sunday) evening, the following were adopted, viz.:

The Sacramento Board of Trade has learned, with profound regret, of the attack made by the "Evening Bee," in its issue of last evening, upon the members of the Legislature now in session, and of the passage by that body of a concurrent resolution providing for the removal of the State Capital from Sacramento to San José; be it therefore

Resolved, By the Directors, that the Sacramento Board of Trade disapprove the action of the "Bee," strongly condemns the same, and resents the imputations cast by that newspaper upon the individual members of the Legislature, and declares that the same do not in any manner reflect the sentiments of the people of this city, and be it further

Resolved, That we earnestly request the Legislature to reconsider said resolution, and we demand that our Senators and Assemblymen use all honorable means to obtain such reconsideration and prevent the removal of the seat of government.

C. H. HUBBARD, Vice-President.

ALBERT M. JOHNSON, Secretary.

REPORT OF STANDING COMMITTEE.

ON WAYS AND MEANS

ASSEMBLY CHAMBER, SACRAMENTO, March 14, 1893.

MR. SPEAKER: Your Committee on Ways and Means beg leave to submit this, its last report:

The Tax Levy Bill introduced to-day proposes to raise \$6,460,939 10 for the forty-fifth fiscal year, and \$5,511,634 for the forty-sixth fiscal year, or a total of \$11,972,573 10. The assessable property of the State in 1892 was \$1,275,816,223. After deducting 5 per cent for delinquencies there remains a balance of \$1,212,025,417. A tax levy of 50 cents per year will produce a total for the two fiscal years of \$12,120,254.

When the last report of this committee was submitted, bills were pending which involved appropriations aggregating about \$16,000,000.

The Governor and your committee have been in perfect accord in a desire to keep the appropriations to the lowest possible limit consistent with good government and a provision for the actual necessities of the State institutions, and it is to be hoped our combined efforts have accomplished that result.

There are fixed appropriations provided by statute aggregating nearly \$5,500,000. The General Appropriation Bill exceeds the Controller's estimates by about \$135,000, which is due to the fact that new offices have been created, and salaries increased, and in some instances the amounts of the appropriations necessary were not carried out in the Controller's estimates, and hence not included in his footings. In other instances the committee had found it necessary to slightly increase the appropriations above the estimates made by the Controller.

It should be borne in mind that this committee has been confronted by extraordinary demands. Provision had to be made for a deficiency of \$220,000 in the General Fund. The last Legislature left a legacy of \$269,690 in deficiency bills, which amount was deliberately cut out of the appropriations of 1891, in order to bring the tax levy within the limit. This Legislature has also been compelled to provide for appropriations of an extraordinary character. Included in the tax levy is \$120,000 public debt, \$68,000 to pay interest, \$300,000 to pay bounties on coyotes, and more than \$800,000 for new buildings for the State, and improvements to State property. The extraordinary appropriations aggregate nearly \$1,800,000.

This showing is not as good as it would have been if the recommendation of your committee had been followed in every instance, but it is, nevertheless, of a character that unmistakably indicates that the work of the thirtieth session has been a great improvement on its predecessors.

W. P. MATHEWS, Chairman.

ADJOURNMENT SINE DIE.

At twelve o'clock P. M. the Speaker delivered a valedictory, at the conclusion of which he declared the Assembly adjourned *sine die*:

CLOSING ADDRESS OF THE SPEAKER.

GENTLEMEN OF THE ASSEMBLY: The time for adjournment is at hand, and, in accordance with time-honored custom, it becomes my duty, for the last time in the thirtieth session of this Legislature, to address you from the Speaker's stand. At this time it may not be amiss to refer to some of the events of the past session, more or less familiar to your minds. To the Democratic members of the Assembly I desire to express my sincere thanks for the honor you conferred upon me by making me Speaker of this Assembly. And that feeling is the warmer and deeper in my heart from the recollection that, so far as any promises of mine were concerned, either of Chairmanships or places, their support was entirely voluntary; and, at the time of my election, the responsibility of the appointment of committees was left to me entirely unhampered by any but the obligations of personal confidence. The committees thus appointed have fulfilled their duties in a manner that fills me with satisfaction, and that has been an honor to the State. In the appointment of those committees, if there have been any errors made, I cheerfully shoulder the responsibility, but whatever of credit may be due from careful selections I desire to divide with my learned and honored friend, the Speaker pro tem, Mr. Mathews of Tehama, whose wise counsel has been an ever present and ready aid.

The present Legislature met under circumstances of a peculiar nature. It was elected at a time when questions, of both national and State nature, of tremendous importance were under consideration by the people; at a time when a political revolution seemed at hand, and at the first election held under the reform ballot law adopted in the last Legislature. It came fresh from the people, unhampered by political bosses, and was presumed to reflect the sentiment of the better and truer class of our State.

When I first took this gavel I expressed the hope that the action of this Assembly would be such as to entitle it to the commendation of all honorable men. To-day, when its work is finished, its record made up, and the sound of the gavel is about to be heard upon its final dissolution, I can, with pride and with satisfaction, say that never in the

history of the State of California has there gathered in this Assembly Chamber a body of more faithful, earnest men, one more entitled to the confidence and respect of the people of this State, than this Assembly now about to adjourn. The paramount questions called to your consideration—the vexed transportation question and the reassessment of property for unpaid taxes—have been met in a spirit of fairness and of honesty to all, and were the judgment of this Assembly submitted to-day to the approval of the people of the State, I have no doubt that it would meet with a prompt, a hearty, and a cordial commendation.

It is true that this Legislature has not succeeded in reducing the tax levy to so small a sum as did the twenty-ninth session, but when we take into consideration that we have provided for the payment of a large portion of the State debt, and for the payment of deficiencies left by the last Legislature, amounting to nearly four hundred thousand dollars, that we have provided for the erection and completion of new but necessary buildings, have amply provided for the discharge of every honorable obligation of the State, and that without the aid of any large sums of money secured to the State from outside sources and applied to the reduction of the necessary revenue, as was the case in the last session, I think I can safely say that had this Legislature been placed in the advantageous situation of the Legislature of the twenty-ninth session, instead of a tax levy for the next two years averaging something less than fifty cents, the Legislature of the thirtieth session would have fully redeemed the promise of a forty-five cent limit. But there is something in a Legislature that comes nearer the hearts of the people, and more truly subserve their desires than the mere reduction of expenditures. And the action of the present Assembly has gone far toward reestablishing in the minds of the people of this State a confidence in the acts of her Legislature, which seemed to have been justly shaken by the unfortunate histories of some that have passed. It would be idle to recount the measures adopted at this session. You remember them, and they are now before the people. Upon their judgment we must stand or fall. I believe they will merit the approval and receive the commendation of our people.

Members of the Assembly—Republicans, Populists, Non-Partisans, Independents, and Democrats—to you I extend my heartfelt thanks for the support and sympathy I have received at your hands, and for the charity with which you have overlooked many acts of mine which, no doubt, to your minds were arbitrary and unjust. The position which I have occupied is one fraught with care, vexation, labor, and responsibility, and it would be indeed strange if any man, during the seventy-three days of this session, decided every question that arose so justly, adjusted every difference so harmoniously, and reconciled every conflicting interest so completely, where the demands of eighty young and impetuous members were involved, as to leave upon the mind of no one a feeling that injustice or wrong had been done him. When I assumed this gavel I did not expect to be able to do this. I know that I have not done it now, but for myself I will say that in every act of mine there has been upon my part an earnest endeavor to do what was just and right, to subserve faithfully and honestly the interests of the people of this State, to preserve the honor and good name of this Assembly, and to maintain unimpaired the dignity of the honorable office to which I have been elected by this Assembly. If I had performed all these things, my heart would to-night be filled with satisfaction and with joy, and in the measure that I have failed so to do, sorrow and regret are with me. Every fiber of my existence has been devoted to the earnest endeavor to be honest and just.

This is our parting. We will meet, perhaps, some of us, in after-life. Some of us will never meet again, but our recollections will remain, and in the future years of life, chastened of the conflicting interests and feeling that may animate us now, it is my dearest hope that your recollection of the Speaker of the thirtieth session will at least be kind, and your judgment upon his actions charitable. As for me, I have no wrongs to remember, no injuries to requite, and the recollection of every member here will be only that of kindness and respect. And to those dear friends who have at all times extended to me their heartiest support and confidence, my emotions will permit me to say only that the remembrance of your kindly sympathy will ever cling around my heart with the tenderest recollections of my life.

The thirtieth session of the California Legislature now stands adjourned *sine die*.

FRANK H. GOULD,
Speaker.

GEORGE W. PECKHAM,
Chief Clerk.

ISIDOR ALEXANDER,
Minute Clerk.
